Disclaimer

This report was written according to the [EUAA COI Report Methodology \(2023\)](#).¹ The report is based on carefully selected sources of information. All sources used are referenced.

The information contained in this report has been researched, evaluated and analysed with utmost care within a limited timeframe. However, this document does not claim to be exhaustive. If a particular event, person or organisation is not mentioned in the report, this does not mean that the event has not taken place or that the person or organisation does not exist.

Furthermore, this report is not conclusive as to the determination or merit of any particular application for international protection. Terminology used should not be regarded as indicative of a particular legal position.

'Refugee', 'risk' and similar terminology are used as generic terminology and not in the legal sense as applied in the EU Asylum Acquis, the 1951 Refugee Convention and the 1967 Protocol relating to the Status of Refugees.

Neither EUAA nor any person acting on its behalf may be held responsible for the use which may be made of the information contained in this report.

On 19 January 2022, the European Asylum Support Office (EASO) became the European Union Agency for Asylum (EUAA). All references to EASO, EASO products and bodies should be understood as references to the EUAA.

The drafting of this report was finalised on 11 April 2025. Any event taking place after this date is not included in this report. More information on the reference period for this report can be found in the methodology section of the [Introduction](#).

WASH	Water, Sanitation and Hygiene

Introduction

The purpose of this report is to provide relevant information for the assessment of applications for international protection, including refugee status and subsidiary protection. Moreover, the report is intended to inform the update of EUAA's country guidance on Somalia (2025).

The report provides an update on and mapping of the security situation at both country and regional level, namely for the 18 administrative regions foreseen by the Somali provisional constitution as they existed before 1991.² The report builds upon preceding EUAA COI reports, notably the [Somalia: Security Situation](#) from February 2023,³ but also [Somalia: Security Situation](#),⁴ [Actors](#),⁵ [Targeted profiles](#),⁶ and [Key socio-economic indicators](#),⁷ which were published in the period July-September 2021.

The report provides an overview of the main security trends and conflict dynamics at country level in the reference period (1 April 2023 - 30 March 2025). Additionally, the report provides an update on the main changes regarding state and non-state (armed) actors and their control areas or presence during the same reporting period. For the full overview of these actors see the report on [Somalia: Actors](#).⁸ Finally, the report engages with conflict dynamics and security developments at the regional level. In this section, it provides information about incidents and their impact on civilian life, including conflict related-humanitarian issues.

Methodology

Defining the terms of reference

The terms of reference of this report build on previous EUAA reporting on the same topic, internal and external consultations with experts, the EUAA COI network members, and draw from the relevant most recent literature on the topic. Additionally, national asylum authorities of EU+ countries⁹ belonging to the Country Guidance Network on Somalia were surveyed on their needs and their input was taken on-board in the design of these terms of reference. Feedback and suggestions were then formulated into the final version that can be found in [Annex 2: Terms of Reference](#).

The reference period for this report is from 1 April 2023 to 30 March 2025, but also includes general information to provide background and contextual information to the current situation. The drafting period finished on 11 April 2025, peer review occurred between 14 and 23 April 2025, and additional information was added to the report as a result of the quality review

⁹ EU Member States plus Norway and Switzerland

process during the review implementation up until 30 April 2025. The report was internally reviewed subsequently.

Collecting information

This report is mostly based on publicly available information in electronic and paper-based sources gathered through desk-based research, but it also relies on interviews with key informants.

Research on Somalia is challenging due to lack of reporting, security issues, and rapidly developing changes in the security situation. To partial compensation, this report also contains information from multiple oral sources with ground-level knowledge of the situation in Somalia who were interviewed or consulted specifically for this report. In some cases, sources were unwilling to go on record. The report also makes ample reference to previous EUAA reports and key statements contained there when still relevant.

Both interviewed and written sources used are referenced in the [Annex 1: Bibliography](#). Wherever information could not be found within the timeframes for drafting this report, this is stated in the relevant section of the report.

Quality control

This report was written by the EUAA COI Sector and ACCORD in line with the EUAA COI Report Methodology (2023)¹⁰ and the EUAA COI Writing and Referencing Style Guide (2023).¹¹

The report has been peer-reviewed by COI experts from Belgium and ACCORD as well as internally by the EUAA COI Sector. All the comments from reviewers were taken into consideration and most of them were implemented in the final draft of this report, which was finalised on 22 May 2025.

Sources

In accordance with EUAA COI methodology, a range of different published documentary sources have been consulted on relevant topics for this report. These include: academic publications, think tank reports, and specialised sources covering Somalia; COI reports by governments; information from civil society and NGOs; reports produced by various bodies of the United Nations; Somali and regionally-based media.

In addition to using publicly available documentary sources, multiple oral sources, including experts who had contributed to previous production on Somalia, were contacted for this report. The types of oral sources contacted include: scholars, international experts, Somali experts, development practitioners, and sources based in Somalia with reliable knowledge of the situation on the ground. Some sources who were interviewed chose to remain anonymous for security reasons. Sources were assessed for their background, publication history,

¹⁰ EUAA, EUAA Country of Origin Information (COI) Report Methodology, February 2023, [url](#)

¹¹ EUAA, Writing and Referencing Guide for EUAA Country of Origin Information (COI) Reports, February 2023, [url](#)

reputability, and current ground-level knowledge. They were interviewed in the period February 2025 – March 2025. All oral sources are described in the [Annex 1: Bibliography](#).

With regard to written sources of information, efforts were made to include Somali-language media sources in the research, including through the use of BBC Monitoring. Moreover, in some instances, reference was made to ‘Al-Shabaab-affiliated websites’ such as SomaliMemo or Calamada.¹² Although these sources were not used excessively, sources associated with armed groups should always be assessed with caution. Efforts were made to corroborate such information or cross-check with other sources. See [Annex 1: Bibliography](#) for additional details.

Datasets

The report relies on different datasets with different topical/thematic focus.

a) ACLED data on security incidents and estimated fatality data

Reliable data and sources on security incident and casualty recording in Somalia was limited and difficult to obtain.

Among other sources, data on security incidents were drawn substantially from publicly available curated datasets from the organisation **Armed Conflict Location and Event Data Project** (ACLED).¹³ ACLED collects data on violent incidents in Somalia, among other countries, coding each incident with the time and place, type of violent incident, the parties involved and an estimate on the number of fatalities. It also provides relevant breakdowns per region, actor, type of incident, and period. The information is collected in a database that is accessible via registration, searchable and kept continuously up to date.

ACLED codes security incidents as follows: battles, explosions/remote violence, violence against civilians, riots, protests, and strategic developments.¹⁴ For the purpose of this report the following type of events were included in the quantitative analysis and graphs of the incidents: **battles, explosions/remote violence, and violence against civilians**. Additionally, ACLED codes actors involved in security incidents as follows: Actor1 is the ‘named actor involved in the event’ and Actor2 is the ‘named actor involved in the event, while ‘[i]n most cases, an event requires two actors, noted in columns ‘ACTOR1’ and ‘ACTOR2’. However, event types ‘Explosions/Remote violence’, ‘Riots’, ‘Protests’, and ‘Strategic developments’ can include ‘one-sided events’.¹⁵

Characteristics and potential limits for COI use of ACLED data are:

1. Data primarily come from secondary sources such as media reports. Lack of or under-reporting might critically affect the depiction and the assessment of the situation on the ground. In the context of Somalia, for instance, the fact that large portion of the country are under the control of Al-Shabaab severely hinders media reporting activities. Adding to this,

¹² Security Council Report, November 2022 Monthly Forecast – Africa – Somalia, 31 October 2022, [url](#)

¹³ ACLED, Data Export Tool, 4 April 2025, [url](#)

¹⁴ ACLED, Codebook, January 2021, [url](#), pp. 7-14

¹⁵ ACLED, Codebook, January 2021, [url](#), pp. 5, 18

- the fact that mobile phones are not allowed in these same areas, because prohibited by the group, further signals the militant's group complete monopoly on information;
2. ACLED's database only provides figures of direct deaths or fatalities per event,¹⁶ not of injured persons and casualties; indirect deaths resulting from security events, which in the relevant literature range in average between 3 and 9 more deaths per fatality, are also not taken into consideration;¹⁷
 3. ACLED's database does not distinguish between civilian and non-civilian fatalities;¹⁸
 4. all ACLED fatality figures provided in this EUAA COI report are estimates based on ACLED's methodology. In ACLED's codebook their methodology is explained;¹⁹
 5. the coding of events as 'Battles', 'Explosions', or 'Violence against civilians' is independent from their actual impact on civilians. While acts of 'violence against civilians' are always co-coded as 'civilian targeting',²⁰ 'explosions' may be or may not, depending on whether civilians were the main or only target;²¹ 'battles' instead, never are,²² despite the fact they are often about civilian targets in Somalia.²³

When focusing on the **involvement** of specific actors within certain regions, the drafters based their analysis on all those incidents, where ACLED coded the relevant actor either as 'Actor1' or as 'Actor2'. This approach aims to illustrate the general level of involvement of the respective actors in the conflict without distinguishing between Actor1 and Actor2, as these categories, according to ACLED's methodology, do not indicate any differentiation in terms of content/semantics.

In various instances, particularly at general country level, whenever other sources on security incidents were available over the reference period, ACLED's data have been corroborated/contrasted with other data.

b) INSO CHDC data

In Somalia, data on civilian casualties and fatalities caused by security events are limited and rarely comprehensive. INSO is the International NGO Safety Organisation dedicated to humanitarian safety.²⁴ Along with the humanitarian data dashboard,²⁵ INSO provides data on security events and their impact on civilians in its Conflict and Humanitarian Data Centre dashboard, which covers a number of conflict settings across the world.²⁶ Based on INSO's methodology a security incident is: 'An Act, perpetrated by an Actor in a Location with an Impact. This corresponds to the CHDC Act categories of Attack, Confine, Theft or Threat only as they are the ones that actively cause harm. It includes all Actors, Locations and Impacts'.²⁷

¹⁶ ACLED, Codebook, 3 October 2024, [url](#), p. 38

²⁶ INSO, Conflict Data Dashboard, n.a., [url](#)

²⁷ INSO, Terms and definitions, n.a., [url](#)

The EUAA could access the public version of the CHDC database, otherwise only available to registered partners, which offers high-level view of data only.

c) PRMN data and UNOCHA CCCM data on displacements

In terms of UNHCR PRMN displacement figures, the drafters worked with the publicly available data at UNHCR's Operational Data Portal.²⁸

In terms of IDP population distribution across regions and sites, the drafters worked with the publicly available UNOCHA CCCM dataset, as of December 2024.²⁹

d) NRC data on evictions

In terms of data on evictions, the drafters relied on data available via NRC's Eviction Information Portal. NRC defines 'forced evictions' as the 'removal against their will of people from their homes and/or land which they occupy, without any form of legal or other protection' (NRC, 1 July 2020, [url](#), p. 1).

Illustrative security incidents

Based on UN data, ACLED data and local media consulted, the drafters conducted a selection of illustrative incidents per each administrative region (18 in total). This selection is not exhaustive and is meant to show examples of the nature and the intensity of the security incidents that have affected the civilian population during the reference period. When ACLED data were used for illustrative incidents, where possible, efforts were made within time constraints to identify the original source of the information referenced in ACLED's raw data files.

Structure and use of the report

The report is divided into two parts: Section 1. General description of the security situation in Somalia, and Section 2. Regional security situation and trends.

- In Section 1, the report provides an update on main security and political developments that took place in Somalia during the reference period (April 2023 – March 2025). This section includes charts and analysis of aggregate data at country level about security incidents, conflict-related displacement, and other impacts on civilians' life, as well as a section on checkpoints and road security.
- In Section 2, the report provides an update on conflict dynamics, security trends and incidents at the regional level, for the 18 administrative regions foreseen by the Somali provisional constitution^{30,31}

³¹ Please note that this partition, besides being the official partition for the Federal Government of Somalia, is widely used by national and international bodies, organisations, research institutes, and NGOs.

Note on transliteration

In relation to transliteration of local language terminology used in this report, it is important to understand that a national orthography for the Somali language was codified relatively late by adopting a Latin script (21 October 1972). Nevertheless, even today, Somali lacks a commonly applied and binding orthography.

In this report, Somali-language names for places, clans and personal names usually follow Somali orthography: 'long vowels are indicated by doubling them', as in *Darood* or *Abbaan*, 'the Latin 'c' stands for a sound close to the Arabic ع (ayn), while 'x' denotes the strongly aspirated ح (ha)'.³² However, given the fact that other sources adopt different conventions, the reader will sometimes find other forms of place, clan, and personal names in the text, including where direct citations are used or in references.

It is also important to note that Somalis, notably Somali men, are frequently better known by their nicknames than by their formal names. The same applies to public figures and politicians mentioned in the text, whose nickname is provided in quotation marks, such as in 'better known' or 'also known' as 'Qoor Qoor'.

1. General description of the security situation in Somalia

1.1. Recent political and security developments

This report updates and builds upon the previous [EUAA COI Report Somalia: Security Situation](#) (February 2023),³⁵ and [EASO COI Report Somalia: Security Situation](#) (September 2021).³⁶ Ample reference is also made to other reports of the same package that provide for further context information and details, such as the [EASO COI Report Somalia: Actors](#) (July 2021),³⁷ and the [EASO COI Report Somalia: Targeted profiles](#) (September 2021).³⁸

Main political developments. After assuming power in May 2022,³⁹ and launching the all-out war against Al-Shabaab in August the same year,⁴⁰ the second political cycle of President Hassan Sheikh Mohamud (HSM) started with promises of peace and reconciliation,⁴¹ and raised expectations at country level.⁴² However, his later political engagements with the constitutional amendments⁴³ and the linked One Person One Vote agenda⁴⁴ alienated political supporters and key stakeholders along the process, among others for lack of consultation and consensus-building,⁴⁵ while they diverted the country's attention from tackling more pressing security issues.⁴⁶ The Federal Government of Somalia's (FGS) unilateral political push towards the above-mentioned reforms,⁴⁷ which were in part adopted in March 2024,⁴⁸ also contributed to divide the President's own clan power base,⁴⁹ which otherwise had supported his political project in the beginning.⁵⁰ Among others, Puntland stopped to recognise the FGS as from 31

⁵⁰ Sahan, Somali Wire (The) - Somalia's Last Chance Saloon, Issue no. 806, 2 April 2025, n.a

March 2024,⁵¹ while Jubbaland severed his ties with it in November 2024,⁵² after the FGS contested the re-election of Madobe at the head of the regional state, which also led to a military confrontation between Jubbaland regional forces and federal security forces.⁵³

In another development, in the Sool and Sanaag regions, which are contested between Puntland and Somaliland, a new administrative entity, Sool Sanaag Cayn-Khatumo state (SSC-K), was established in February 2023,⁵⁴ and also recognised by the FGS of Somalia as from October 2023,⁵⁵ after the militia of the locally dominant clan heavily clashed with Somaliland's security forces.⁵⁶ At the same time, at the beginning of 2024, the signing of the Memorandum of Understanding (MoU) between Ethiopia and Somaliland further challenged the authority of the FGS and widened the distance between the two political projects.⁵⁷ As a reaction, the FGS threatened to expel Ethiopian armed forces from its soil, in a move that also triggered strong reactions from the concerned local communities in extended areas of the country.⁵⁸

These and other political developments signal the chronic fragmentation and fragility of Somalia's political settlement.⁵⁹ Against this backdrop, at the end of 2024, the renewal of the African Union Mission in Somalia, rebranded AUSSOM, replaced a phasing out ATMIS (1 April 2022 – 31 December 2024), and was crucial to prevent a 'security vacuum'.⁶⁰ However, 'perennial funding challenges' undermined the financial sustainability of the mission, while at the time of writing there was still lack of clarity on its hybrid cost sharing mechanism.⁶¹ After successfully unleashing its Shabelle offensive,⁶² at the end of March 2025 Al-Shabaab group started to impinge on Mogadishu,⁶³ raising national security concerns.⁶⁴ By the same time, the FGS seemed incapable of exerting full control even in parts of capital.⁶⁵ It is against this backdrop that, at the end of March 2025, the state President, after having survived a major attack on his life some days earlier,⁶⁶ decided to call for a National Dialogue, with the aim to reunite all major political actors and opposition leaders against the common enemy.⁶⁷

Main security developments. Based on ACLED data, in the period April 2023 – March 2025, Somalia has been the theatre of almost 6 000 reported security events, resulting in almost 15 000 estimated fatalities.⁶⁸ In the two preceding years, with a comparable number of security events – 5 724 – the number of estimated fatalities was substantially lower, around 11 450.⁶⁹ In the reference period of this report, the average number of security events per month was almost 250. With just a few exceptions, it remained constantly above 200 throughout the entire period, while it raised sensibly in July-September 2023 and February-March 2025, when it respectively reached almost 300 per month, and then peaked at 331 reported events in February 2025, as shown in [Figure 1](#) and [Figure 2](#) below. The resulting number of recorded fatalities peaked during the same periods. More than one third of all estimated fatalities recorded between April 2023 and March 2025 - about 5 800 out of 15 000 - were registered during the two intervals above, which corresponded with the following major military and security operations:⁷⁰

- first, operation Black Lion, a renewed joint offensive against Al-Shabaab, unleashed in the period August-September 2023, notably in Galgaduud, Middle Shabelle, Hiraan and Mudug regions;⁷¹ concomitantly with it, other intense armed interactions took place in Lower Shabelle, Lower Juba and Bakool regions in July-September 2023; these two sets of events alone resulted in more than 2 800 fatalities;⁷²
- second, a renewed Al-Shabaab offensive against Government and allied forces, launched in February 2025 and still on-going at the end of March 2025, which took place notably in Hiraan, Middle Shabelle, and Lower Shabelle regions;⁷³ concomitantly with it, in Puntland the Hilaac offensive against ISIS was deployed in the al-Miskaad mountains in the Bari region during January and February 2025,⁷⁴ and was still on-going at the time of writing (April 2025). Almost another 2 000 fatalities were estimated to have been caused by the unleashing of these two other sets of operations in the period January - 21 March 2025.⁷⁵

In addition, other military operations and confrontations against Al-Shabaab,⁷⁶ indiscriminate and widespread forms of targeting across the country,⁷⁷ rising levels of clan conflicts,⁷⁸ and other layers of conflict, which will be discussed in more detail in the remainder of this chapter, have contributed to ongoing sources of insecurity in the country. For further details see section on [1.4 Recent overall security trends](#).

1.2.2. Al-Shabaab control areas, presence, and influence

Al-Shabaab is Somalia's 'armed Islamist extremist and self-declared al-Qaeda affiliate organisation'.⁸¹ As indicated by the UN Panel of Experts on Somalia, in its October 2024 report, 'Al-Shabaab remains the most significant threat to peace and security in Somalia'.⁸² The group is characterised by enduring resilience and capacity to absorb attacks.⁸³ During the reporting period, the group has managed to repel repeated Government-backed military offensives, to recapture previously liberated areas, and to carry out complex attacks against the Government, ATMIS, and international targets, as well as civilians and the business community.⁸⁴ According to the Center for Preventing Action's backgrounder, the group's overall goal remains 'to destroy the Federal Government of Somalia (FGS), rid their country of foreign forces, and establish a "Greater Somalia," joining all ethnic Somalis across East Africa under strict Islamic rule'.⁸⁵

Armed attacks. In the reference period Al-Shabaab has continued to stage high profile attacks in Mogadishu, as well as elsewhere in Somalia, resorting to improvised explosive devices (IEDs), rockets and mortar attacks, while also engaging in military operations in various regions across the country.⁸⁶ In Mogadishu alone, in the reference period, Al-Shabaab carried out more than 160 attacks against civilians.⁸⁷ The deadliest of these were: Pearl Beach Hotel attack, on 9 June 2023 (16 casualties);⁸⁸ SYL Hotel attack, on 15 March 2024 (34 casualties);⁸⁹ Top Coffee attack,⁹⁰ on 14 July 2024 (31 casualties);⁹¹ Beach View Hotel restaurant attack,⁹² on 2 August 2024 (287 casualties);⁹³ Tea shops bombing, on 17 August 2024 (28 casualties);⁹⁴ Gel Doh bar and restaurant attack, on 28 September 2024 (16 casualties);⁹⁵ café bombing outside a police training school, on 17 October 2024 (13 casualties);⁹⁶ President convoy attack,

on 18 March 2025 (at least 10 fatalities);⁹⁷ Aden Adde International airport and Halane compound mortar attack, on 19 March 2025.⁹⁸ Another major attack, this time in Beletweyne, in Hiraan region, took place on 11 March 2025 at the Hotel Cairo (unknown casualties, 6-11 fatalities).⁹⁹

Moreover, Al-Shabaab in the last part of the reference period reversed most of the gains of the Government-led offensive of 2022 and beginning of 2023.¹⁰⁰ In particular, after having deliberately reduced its military operations in the course of 2024,¹⁰¹ in the period February - March 2025, Al-Shabaab engaged in a major offensive against Government controlled areas, locations, and towns, starting from Hiraan and Middle Shabelle regions.¹⁰² Within this context the group made incursions into Ceel Saleebaan, located at about 20 km from Adan Yabal,¹⁰³ Biya Cadde, located approximately 40 km east of Jowhar,¹⁰⁴ Jowhar,¹⁰⁵ and Balcad, located 30 kilometres from Mogadishu.¹⁰⁶ On 17-18 March 2025, as a reaction to the offensive, the FGS authorities deployed police and the Somali Custodial Corps to the front-lines in Middle Shabelle.¹⁰⁷ A few days later, 145 police officers disappeared from the local Police Academy in Mogadishu, and had reportedly abandoned their post with some of them suspected to have defected to Al-Shabaab.¹⁰⁸

Simultaneously, the group launched its offensive in Lower Shabelle,¹⁰⁹ including in Awdheegle,¹¹⁰ and Afgoye.¹¹¹ In mid-March 2025 Al-Shabaab started to encircle Mogadishu,¹¹² with incursions in Ceelasha Biyaha, a strategic town 15 km from Mogadishu, Xaawo-Cabdi,

Lafoole,¹¹³ and others along the Mogadishu-Afgooye road,¹¹⁴ while establishing checkpoints there,¹¹⁵ as well as on Mogadishu-Balcad road.¹¹⁶

On 4 March 2025, the US embassy in Mogadishu warned of imminent Al-Shabaab attacks in multiple locations in Mogadishu, including the Aden Adde International Airport.¹¹⁷ On 18 March 2025, Al-Shabaab attempted to assassinate the President, with a major IED attack on his convoy while transiting through Mogadishu.¹¹⁸

Control areas. Apart from large swathes of territory in South-Central Somalia, which are firmly controlled by the group – notably in Hiraan, Galgaduud, and Southern Somalia - Al-Shabaab contest and exert its influence over larger portions of the country,¹¹⁹ and controls key routes across South-Central Somalia.¹²⁰ Moreover, the group also maintains its strongholds in the north of the country, in the western Al-Madow mountains, between the Bari and the Sanaag regions.¹²¹ For more information on territorial control across Somalia, see the control maps on the situation [at the beginning](#) (1 April 2023, [Map 2](#)) and [at the end](#) (31 March 2025, [Map 3](#)) of the reference period of this report. For more information on checkpoints and routes controlled by the group see section [1.7 Checkpoints and road security in Somalia](#).

During the reference period the group has maintained, gained, or regained control, in full or in part – at times temporarily – of the following locations in South-Central Somalia:

- Bacaadweyne, Caad, Camaara, Xiinlabi, in Mudug;¹²²
- Budbud, Galcad, Cowsweyne, Ceel Buur, in Galgaduud;¹²³

Bursha Sheekh, Ceel Xarar, Xaruur, and Laba Garas,¹²⁸ Guulane and Xagarey,¹²⁹ Masjid Cali Gaduud,¹³⁰ in Middle Shabelle;

- Afgooye-Mogadishu road,¹³¹ Awdheegle town,¹³² strategic bridges in the area - Awdheegle, Bariire, and Sabiib and Caanole¹³³ - Bariire town,¹³⁴ in Lower Shabelle.

Unlike previous offensives where the group typically seized new territory and then withdrew, Al-Shabab appears to be consolidating its positions and gains.¹³⁵ Moreover, the situation in Hiraan and Middle Shabelle remains particularly uncertain at the end of the reference period, in light of Shabaab's ability 'to mount such a large fighting force over a large area'.¹³⁶ The group may count on a significant fighting force in the region, 'possibly numbering in the hundreds of fighters'.¹³⁷

During the reference period, the only exception to this overall trend is represented by the success of government-led operations in Jubbaland:

- in summer 2024, where federal and regional forces repelled Al-Shabaab attacks and reportedly cleared about 100 km on the route linking Kismayo to Afmadow;¹³⁸
- at the end of March 2025, when following massive bombing and air striking of Jilib - Al-Shabaab stronghold in Middle Juba - many militants fled the town, whose key facilities were also severely impacted.¹³⁹

Al-Shabaab forces. Relatively recent estimates indicate that Al-Shabaab had between 7 000 and 12 000 fighters at the end of 2023.¹⁴⁰ However, Al-Shabaab's 'true strength remains unknown'. The militants recursively replenish their losses through forcible recruitment and by cutting deals with clans.¹⁴¹ During the reference period, Al-Shabaab has launched massive recruitment campaigns, including: on occasion of the signing of the MoU between Ethiopia and Somaliland, on 1 January 2024, when the militant group called for the Somalis 'to join in defending their land from Ethiopia and other foreigners';¹⁴² during the first half of 2024, when the group was reported to make renewed efforts to recruit fighters to counter the offensives by the FGS, and to look for 'individuals with engineering expertise to assist with drone

modifications, as well as clerics for propaganda dissemination'.¹⁴³ At the beginning of March 2025, in the course of Al-Shabaab offensive in Hiraan and Middle Shabelle, the group released a 'video purportedly showing hundreds of newly trained militants'.¹⁴⁴ This happened again at the end of March 2025.¹⁴⁵

Within this context, the UN Secretary General, in the latest report on Children and Armed Conflict, indicated that more than 900 children were recruited and 663 were abducted by Al-Shabaab in the course of 2022,¹⁴⁶ mostly in Bay, Bakool, Hiraan, Middle Juba, and Lower Shabelle.¹⁴⁷ According to the UN Panel of Experts on Somalia, there are no indications that patterns in the recruitment and abduction of children at the hands of Al-Shabaab have changed ever since and in the period September 2023 – August 2024.¹⁴⁸

For further information on Al-Shabaab as a military and political organisation, including insights into the group's outreach, see the [EASO COI report Somalia: Actors \(July 2021\)](#).¹⁴⁹ For additional details about conflict layers and dynamics at federal and regional level see section 1.3 as well as the regional chapters of this report. For information on Al-Shabaab financial capacity and source of revenue see section on 1.10 Individuals who have to pay taxes to Al-Shabaab in the [EUAA COI Report Somalia: Country Focus \(May 2025\)](#).¹⁵⁰

1.2.3. Updated list of main actors

Somalia is characterised by the presence of numerous state and non-state armed actors. As Somali security expert Dr. Vanda Felbab-Brown¹⁵¹ put it '[m]ore than 60 warring parties are present in the country, ranging from clan and warlord militias to various other militant groups', including the Islamic State in Somalia (ISIS-Somalia).¹⁵²

Most of these military and security forces have been addressed in detail in [EASO COI report Somalia: Actors \(July 2021\)](#),¹⁵³ and integrated in the following [EASO COI report Somalia: Security Situation \(September 2021\)](#),¹⁵⁴ and [EUAA COI report Somalia: Security Situation \(February 2023\)](#).¹⁵⁵ Each armed actor's general strength, territorial control/presence, and overall dynamics are discussed in the referenced pages in those reports. For the main

changes that have occurred during the reference period (April 2023 - March 2025), or for additional information, see further details in the remainder of this section.

The FGS Security Forces include the Somali National Army (SNA), the Somali Air Force, the Navy, the Special Forces, the National Intelligence and Security Agency (NISA), Police Forces, Prison Forces;¹⁵⁶ regarding some relevant updates on these forces:

- SNA: while on paper it counts 32 000 personnel, the *de facto* deployable force is closer to 19 000, with an additional 24 000 that the FGS claimed would have been trained and integrated in the army by the end of 2024.¹⁵⁷ Overall cohesion is undermined by ‘a very fragmented’ composition, heavy clan-based recruitment, disparities in training and equipment. Other issues are ‘desertion, defections, soldiers working multiple jobs, and infiltration by Al-Shabaab, although these problems have become less acute’.¹⁵⁸ While the the Air force is not functional, the Navy is slightly more advanced but still unable to meet the challenges it is confronted with;¹⁵⁹
- Danab Infantry Brigade: as of August 2023, 342 new recruits completed their training and joined the 1 700 SNA-Danab forces operationally active in the country;¹⁶⁰ as of November 2022, the US had trained almost 2 000 fighters,¹⁶¹ since 2017;¹⁶² In January 2025, the new Trump administration in the US suspended all US foreign aid programmes, including military security assistance, for 90 days. Implications for Danab forces are still unclear;¹⁶³
- Gorgor Brigade: as of March 2024, Gorgor’s strength was of about 4 000 soldiers, approximately 1 900 soldiers from the 17th Brigade and 2 100 from the 18th Brigade;¹⁶⁴ since 2017, according to the Turkish Radio and Television Corporation (TRT), Türkiye had trained more than 6 000 Gorgor soldiers,¹⁶⁵ but in the meantime over 2 000 have either deserted or lost their lives in operations;¹⁶⁶
- SNA soldiers trained elsewhere: as of October 2023, a second batch of 3 000 Somali soldiers were being trained in Eritrea,¹⁶⁷ while the first batch of 5 000 had started to return to Mogadishu by December 2022;¹⁶⁸ another set of approximately 3 000 soldiers were reported to be receiving military training from Uganda and other countries as from October 2022.¹⁶⁹

The FMS armed forces, Darwish (state level paramilitary/militia) and police forces, under each FMS administration, namely: Jubbaland, South West State, Benadir Regional Administration [BRA]-Mogadishu, Hirshabelle, Galmudug, Puntland, and Somaliland.¹⁷⁰

- According to an operational readiness assessment of regional security forces conducted in 2019 there were an estimated 19 700 registered individuals in the following FMS: Jubbaland, Galmudug, South-West State, and Puntland;¹⁷¹
- In the course of the reference period a new administrative entity was set up in the contested regions between Puntland and Somaliland - in the Sool, Sanaag and Cayn regions, with Cayn basically corresponding to the Buhodle district of the Togdheer region.¹⁷² This autonomous regional SSC-Khatumo administration,¹⁷³ later recognised by the FGS,¹⁷⁴ also relies on its own security forces. According to Somalia expert Markus Hoehne, they are about 8 000 in total, the vast majority of which are drawn from the Dhulbahante clan.¹⁷⁵

The Clan militias. In the reference period, there were in Somalia more than 100 clan or sub-clan militias.¹⁷⁶ For additional information on clan militias and clan conflict dynamics at the regional level, during the reference period, see the remainder of this report as well as the section on 'Individuals involved in blood feuds/clan disputes and other clan issues' in the [EUAA COI report Somalia: Country focus](#) (May 2025).¹⁷⁷ For general background information see the [EASO COI report Somalia: Actors](#) (July 2021),¹⁷⁸ among other EUAA sources.¹⁷⁹

Macawisley (also in the variants *Macawiisleey*, *Ma'awisley*, among others) was originally an Hawadle-led clan militia,¹⁸⁰ operating in the Lower Shabelle region and consisting of around 200 fighters.¹⁸¹ Similar forms of clan based, self-organised and self-styled protection forces against Al-Shabaab were also set-up in Gedo,¹⁸² in Hirshabelle,¹⁸³ in Middle Shabelle,¹⁸⁴ and in

Galmudug,¹⁸⁵ at different times in recent years. More recently, on the backdrop of the joint offensive against Al-Shabaab launched in mid-2022, their number was estimated at between 8 000 and 10 000 members across Hirshabelle and Galmudug.¹⁸⁶ In October 2023, President Hassan Sheikh Mohamud appointed Ali Jeyte, the former governor of the Hiraan region, as the presidential coordinator for these forces, also referred to as ‘community defence forces’,¹⁸⁷ despite the fact that they are not mentioned in the Somali National Security Architecture.¹⁸⁸ However, reliance on Macawisley forces and their arming is controversial among FMS, with Puntland, Jubaland and Southwest state administrations opposing it.¹⁸⁹

AUSSOM, ATMIS. With United Nations (UN) Security Council resolution no. 2628, from 31 March 2022, the African Union Transition Mission in Somalia (ATMIS) replaced the African Union Mission in Somalia (AMISOM) with a similar mandate.¹⁹⁰ Its progressive phase out ended on 31 December 2024, when it was replaced by the African Union Support and Stabilization Mission in Somalia (AUSSOM). With UNSC resolution no. 2767, in the period 1 January 2025 - 30 June 2025 (phase 1 of the mission) the members states of the African Union were authorised to continue to deploy 12 626 uniformed personnel, including 1 040 police forces, and to complete the re-alignment of troops from ATMIS to AUSSOM.¹⁹¹ During the first 6 months of phase 2 of the mission (1 July 2025 – 31 December 2027), the number of uniformed personnel will instead be 11 826, including 680 police.¹⁹² On 25 February 2025, the African Union and the FGS agreed on the contributing countries and the number of their troops as follows: 4 500 Uganda, 2 500 Ethiopia, 1 520 Djibouti, 1 410 Kenya, and 1 091 Egypt.¹⁹³ The mission’s funding and financial sustainability was uncertain from the start.¹⁹⁴

United States Africa Command (AFRICOM). In May 2022 the Biden administration, reversing President Trump’s 2020 decision, decided to send US troops back to Somalia, with sources indicating between around 450,¹⁹⁵ and 500 redeployed soldiers.¹⁹⁶ US AFRICOM in Somalia provides assistance to Somali and African Union forces,¹⁹⁷ conducts air, drone, and ground operations,¹⁹⁸ and trains Danab’s special forces.¹⁹⁹ Regarding airstrikes, based on ACLED data, US Military Forces in Somalia were responsible for 62 air/drone strikes in the period April

2023 – 21 March 2025, causing at least 381 fatalities, including civilians. At the same time, ‘unidentified military forces’ were responsible for another 155 instances resulting in 1 206 reported fatalities and an unspecified number of casualties.²⁰⁰ Conversely, Airwars reported that the number of ‘alleged’ airstrikes at the hands of the US military forces in the reference period were 36.²⁰¹ With an even lower estimate, the Long War Journal Tracker reported that the number of airstrikes was 18 in 2023 and 6 in 2024.²⁰² Other international partner engaged in air/drone strikes are Kenya, Ethiopia, the UAE, and ATMIS/AUSSOM.²⁰³

Al-Shabaab. See section [1.2.2 Al-Shabaab control areas, presence, and influence](#) above.

Islamic State in Somalia (ISIS-Somalia or ISS). With its al-Karrar office, the Islamic State in Somalia has recently regained prominence as a key administrative and financial hub for the Islamic State in Iraq and the Levant (ISIL) at the global level.²⁰⁴ Some national administrations claim as well that the ISIL’s global leader, al-Qurashi, is actually Abdul Qadir Mumin - the head of ISIS,²⁰⁵ or that he has relocated to Puntland.²⁰⁶ Within this context, the UN Panel of Experts on Somalia, in its latest report, noted ‘a significant shift in the strength and disposition of the [ISIL] faction in Somalia’, whose capabilities vis a vis Al-Shabaab had been recently enhanced by a strong injection of foreign fighters.²⁰⁷ Recent estimates indicate that the group’s size ranges between 600 and 700 fighters,²⁰⁸ or even between 700 and 1 500-1600 fighters.²⁰⁹ Half of them are estimated to be foreign and coming from Ethiopia²¹⁰ – notably Somali-Ethiopians, but also Oromo and Amhara – Tanzania, North Africa countries, and other Arab countries such as Yemen and Sudan.²¹¹ The leadership, however, remains in the hand of

Puntland clans, notably from the Bari region, and dominated by the Ali Salebaan, a small sub-clan of the Majerteen/ Darood.²¹²

Between late 2023 and mid-2024, ISIS had made significant gains against Al-Shabaab in the Bari region of Puntland, substantially pushing them out of the Al-Miskaad mountain range and claiming full control of the area by April 2024. By then ISIS had established bases in four districts: Balidhidin, Hunbays, Iskushuban, and Qandala.²¹³ However, in January 2025, the Puntland authorities launched a 'relatively successful' offensive against the group with air support from the US and the UAE.²¹⁴ By the end of March, the offensive, also labelled Hilac offensive,²¹⁵ had cleared the Al-Miskaad mountain range from the major ISIS military bases, but the militant group was not defeated. Several hundred fighters,²¹⁶ believed to be hiding out and regrouping in the remotest areas of the mountain range, were still facing the third phase of the offensive at the time of writing.²¹⁷

Based on ACLED data, overall, in the reference period ISIS-Somalia was responsible for 34 security incidents,²¹⁸ mostly IED attacks, but also drone strikes and armed clashes, with following distribution from north to south: 32 in Bari - 22 Qandala, notably in the Al-Miskaad area, 8 in Bosasso, 2 in Iskushuban - and 2 in Mogadishu.²¹⁹ For further background information see chapter 6 Islamic State in Somalia in the [EASO COI report Somalia: Actors](#) (July 2021).²²⁰

Ahlu Sunna Wal-Jama'ah (ASWJ). The multi-clan (Ayr, Dir and Marehan clans)²²¹ armed Sufi group, operating mostly in Galmudug and in part of Hiraan, had by 2017 an estimated force of about 5 000 soldiers.²²² While it was considered to be defeated both militarily and politically,²²³ its leadership reappeared in Galmudug in mid-2021.²²⁴ Throughout 2021 and 2022, the group clashed sporadically with the SNA and the Galmudug State's forces.²²⁵

Ethiopian National Defence Force (ENDF), Kenya Defence Force (KDF), others. Both Ethiopia and Kenya provide extrabudgetary security assistance to Somalia.²²⁶ In addition to the AUSSOM contingent of 2 500 troops from Ethiopia and 1 410 from Kenya,²²⁷ both countries reportedly have thousands of additional troops in Somalia bilaterally.²²⁸ While Ethiopia's AUSSOM troops will be deployed to the same Somali regions as before - Gedo, Bay, Bakool and Hiran regions - additional ENDF troops will be stationed in Somalia based on the Status of Forces Agreement (SOFA) signed bilaterally with the FGS in February 2025.²²⁹ KDF forces are bilaterally deployed in Lower Juba in the context of Operation Amani Boni.²³⁰ Under a bilateral agreement Egypt may also send additional special forces,²³¹ while Türkiye reportedly plans to deploy 3 000 soldiers from Sadat, the private military company linked to President Erdogan, as early as the beginning of April 2025 to counter Al-Shabaab offensive in the Shabelle regions.²³²

For further information about the nature and character of the security forces and the armed groups touched upon above, including their fluid membership, please refer to the [EUAA COI report Somalia: Security Situation](#) (February 2023), section 1.3 Armed actors,²³³ as well as [EASO COI Report Somalia: Security Situation](#) (September 2021), section 1.2 Armed actors.²³⁴

1.3. Conflict layers and main developments

For analytical purposes, the main conflict dynamics in Somalia can be presented in different layers, which can be described as follows:

The Al-Shabaab/anti-Al-Shabaab conflict. According to the Rule of Law in Armed Conflicts (RULAC) project,²³⁵ the Somali government is a party to a non-international armed conflict with Al-Shabaab.²³⁶ Al-Shabaab is designated as a terrorist group by the UK²³⁷ and the US.²³⁸ The Federal Government of Somalia (FGS), the Federal Member States (FMS), clan militias, as well as other international actors, such as Ethiopia, Kenya, the US, and ATMIS/AUSSOM, are all

engaged, although in various degrees and forms, in the conflict against the militant al-Qaeda affiliated organisation.²³⁹ During the reference period this was the main conflict driver in the country, with most of the security incidents either perpetrated by Al-Shabaab, or involving various security actors and forces against Al-Shabaab. Overall, more than 75 % of these security events, and more than 80 % of the estimated fatalities that were recorded by ACLED during the reference period of the report, are to be attributed to the (anti-)Al-Shabaab conflict.²⁴⁰ For main developments during the reference period about Al-Shabaab's control areas and influence see section above [1.2.2 Al-Shabaab control areas, presence, and influence](#). For details about all other actors, and their armed forces, see main developments during the reference period in the chapter [1.2.3 Updated list of main actors](#) as well as the previous [EUAA COI report Somalia: Security Situation](#) (February 2023),²⁴¹ [EASO COI Report Somalia: Security Situation](#) (September 2021),²⁴² and the [EASO COI report Somalia: Actors](#) (July 2021).²⁴³ For (anti) Al-Shabaab conflict dynamics and their reverberations at regional level, please see the remainder of this report, [2 Regional security situation and trends](#).

The inter- and intra-clan rivalries. Another major source of conflict that pervades Somali society is constituted by clan rivalries and competitions over political power and scarce resources.²⁴⁴ Various experts agree that the level of clan conflicts, rivalries, and animosity has substantially increased across the country during the past two years.²⁴⁵ According to ACLED data, inter- and intra-clan conflicts in the country caused more than 472 security incidents during the reporting period, resulting in 1 214 estimated fatalities and an unspecified number of casualties.²⁴⁶ The number of estimated fatalities has more than doubled compared to the two preceding years (April 2021 – March 2023), when there were 280 reported incidents resulting in 487 estimated fatalities.²⁴⁷ After the Al-Shabaab conflict, this is the second main conflict driver and source of insecurity in the country.²⁴⁸

The ISIS/anti-ISIS Conflict. Somali security forces - notably Puntland Maritime Police Forces and Puntland Darwish – as well as US military forces, are engaged in armed confrontation with the Islamic State in Somalia. During the reference period, most confrontations and security incidents have taken place in the Bari region, in the Qandala (Al Miskaad), Bossaso, and Iskushuban districts. On various occasions ISIS has also clashed with Al-Shabaab, notably in the Bossaso and Qandala districts. Based on ACLED data, in the reference period ISIS-Somalia was involved in 126 reported security incidents,²⁵⁵ with a spike in the period January-March 2025 - almost 85 % of all events - which resulted in 769 estimated fatalities.²⁵⁶ For an overview about ISIS-Somalia see section [1.2.3 Updated list of main actors](#). For (anti) ISIS-Somalia conflict dynamics and their reverberation at regional level please see the remainder this report [2 Regional security situation and trends](#).

SSC-Khatumo versus Somaliland. Among other territorial disputes across Somalia, Puntland and Somaliland contend over control of the Sool and Sanaag regions, which border the two state administrations, as well as the area of Cayn, which basically correspond to the Buhodle district of the Togdheer region.²⁵⁷ Within this broader context, a major conflict erupted in February 2023 between the Somaliland National Army and the SSC-Khatumo forces – Sool, Sanaag and Cayn – mainly constituted by Dhulbahante clan militias,²⁵⁸ which belong to the same Harti/Darood clan family for which Puntland constitutes the core and institutional ‘home’.²⁵⁹ During the first few months, the conflict caused around 5 000 casualties from both sides, including armed forces and civilian fatalities,²⁶⁰ and more 200 000 displaced people.²⁶¹ With the establishment of an autonomous regional SSC-Khatumo administration,²⁶² later

Crime. According to the Africa Organised Crime Index, Somalia ranked 13th out of 54 African countries in terms of criminality - a combination of criminal market and criminal actor indicators - at the end of 2023,²⁶⁷ up from 18th in 2021.²⁶⁸ In particular, Somalia has the highest score in Africa and the world (9.50) for extortion and protection racketeering at the hands of non-state armed groups and militias.²⁶⁹ With arms trafficking (9.0) and trafficking in human beings (8.0) also prominent among criminal markets,²⁷⁰ as well as dysfunctional institutions characterised by the highest levels of corruption in the world (1.0),²⁷¹ confidence in law enforcement institutions is lowest in Somalia (1.5).²⁷² In terms of resilience, defined ‘as the ability to withstand and disrupt organised criminal activity’,²⁷³ the country’s performance remained unvaried during the reference period, exhibiting the lowest score across Africa after Libya,²⁷⁴ similarly to 2021.²⁷⁵ Within this context, Al-Shabaab is not the sole actor responsible for criminal and illicit activities, attacks, targeted killings and executions in Somalia. Such crimes can also be politically and economically motivated or related to other type of conflicts and activities.²⁷⁶ According to the organised crime index, next to mafia-style groups – such as Al-Shabaab – ‘criminal networks’ and ‘state embedded actors’ are particularly relevant in Somalia.²⁷⁷ Against this backdrop, youth gangs engaged in violent criminality, notably in

Other layers. Other confrontations which are more of a political nature and do not necessarily escalate into armed confrontations include: (1) Tensions between the FGS and the Federal Member States over the establishment of an effective federal system.²⁸⁰ These included, more recently, disputes over electoral issues,²⁸¹ and related controversial constitutional amendments.²⁸² Within this context, in March 2024, Puntland revoked its recognition of the federal government,²⁸³ while Jubbaland officially severed its ties with it in November 2024,²⁸⁴ in a move that escalated into open military confrontation.²⁸⁵ (2) The intra-regional tensions and governance dynamics at FMS level.²⁸⁶ (3) The FGS versus Somaliland tensions, over its political status and international recognition,²⁸⁷ and in the course of 2024, in relation to the signing of the MoU between Somaliland and Ethiopia.²⁸⁸ (4) External disputes and tensions, which often play out at regional level in Somalia, and which revolve around various external actors, such as Ethiopia and Kenya - historically engaged in Somalia - UAE, Qatar, and Saudi Arabia, home to Somali elites patrons, but also Türkiye and Egypt, with which Somalia has signed security pacts in the course of 2024.²⁸⁹ For a more detailed overview about these other layers and their implications at regional level see part [2 Regional security situation and trends](#), as well as previous EUAA COI reports.

1.4. Recent overall security trends

1.4.1. Security incidents, estimated civilian fatalities and casualties

In the period April 2023 – 21 March 2025, ACLED recorded 5 944 security incidents, resulting in 14 883 estimated fatalities, both security forces and civilians, and an unspecified number of casualties, with following the breakdown: 3 759 battles, 1 479 explosions or other forms of remote violence, and 706 violence against civilians.²⁹⁰ All type of events had or potentially had impacts on the civilian population.²⁹¹ [Figure 1](#) below shows the monthly distribution of these types of events during the reference period. [Figure 2](#) below shows their overall distribution and resulting fatalities during the same period.

Comparably, in the various UNSG reports, covering the period 8 February 2023 - 20 September 2024,²⁹² the number of reported security incidents were respectively 935 (8 February – 7 June 2023),²⁹³ 605 (8 June – 5 October 2023),²⁹⁴ 755 (6 October 2023 – 24 January 2024),²⁹⁵ an unspecified number (25 January 2024 – 23 May 2024),²⁹⁶ and 850 (24 May – 20 September 2024).²⁹⁷

²⁹⁰ EUAA analysis based on ACLED data. Curated Data Files, Somalia, 21 March 2025, [url](#)

²⁹¹ EUAA analysis based on ACLED data. Curated Data Files, Somalia, 21 March 2025, [url](#); ACLED, Codebook, 3 October 2024, [url](#), pp. 12, 16, 38. Based on ACLED methodology, all events coded as ‘violence against civilians’ are also considered as ‘civilian targeting’, while ‘explosions’ may be or may not, depending on whether civilians were the main or only target; ‘battles’ instead are never co-coded as ‘civilian targeting’ based on ACLED methodology, but de facto they often are in the Somali context.

²⁹² Please note that the UNSG report covering the period 21 September 2024 – February 2025 was not yet published at the time this report was drafted.

1.4.2. Conflict-related displacement

Newly displaced. During the reference period of this report, April 2023 – March 2025, the UNHCR Protection and Return Monitoring Network (PRMN)³⁰⁹ reported that conflict and insecurity were the drivers for the displacement of about 600 000 people - out of about 2 788 000 newly displaced - notably from the following regions: Gedo, Benadir, Lower Juba, Nugaal, Togdheer.³¹⁰ [Figure 6](#) below offers an overview of the number of conflict/insecurity displaced people versus other drivers per administrative regions. For more detailed information on the regional level, please see section [2 Regional security situation and trends](#).

In the course of 2024 Somalia exhibited 553 000 new displacements, while they were 2 970 000 in 2023 overall, all causes considered. Conflict and insecurity were responsible for the displacement of 290 000 people in the course of 2024, and 653 000 in the course of 2023.³¹¹ In particular, conflict mostly related to escalating inter-clan fighting was the main driver of new internal displacements in 2024, with most people who were forced to flee their homes remaining within the same region.³¹² The districts most affected by conflict-related internal displacement were Luuq (Gedo), Diinsoor (Bay), Xarardheere (Muduq), Jamaame (Lower Juba), and Buhodle (Togdheer).³¹³ For an overview of main clan conflicts/disputes across Somalia see section on Individuals involved in clan feuds/disputes in the [EUAA COI Report Somalia: Country Focus](#) (May 2025).

Overall IDP population. Based on UN OCHA data, at the end of 2024, there were in Somalia 3 812 registered IDP sites across the country, hosting an overall population of more than 4 million people. Of these, Mogadishu hosted 2 057 sites (1 091 in Daynile, and 966 in Kahda) with an overall population of more than 1 160 million people, and Baidoa district hosted another 649 sites with an overall population of more than 740 000 people.³¹⁴ [Figure 7](#) shows the regional distribution of IDPs and the most affected urban centres within the region.

According to the UNHCR CCCM cluster, the majority of IDP people in Somalia settle in informal sub-standard IDP sites in urban and peri-urban areas across the country.³¹⁵ As of January 2022, 85 % of the IDPs sites were informal settlements on private land and about 74 % of them were in urban areas.³¹⁶ Coordination and management of these informal settlements is largely informal,³¹⁷ while living conditions are precarious and basic needs are not met, due to inconsistent service provision, barriers to or exclusion from accessing humanitarian assistance.³¹⁸ In particular, in the urban areas, IDPs move into private IDP sites

³⁰⁹ For further information on this data and their handling, please see the section on [Methodology](#) in the introductory chapter of this report.

1.4.3. Other impacts on civilian life

(a) Humanitarian situation

According to the Humanitarian Needs and Response Plan for 2025, 9.1 million people, or 47 % of the overall population in Somalia, are affected by multiple shocks caused by conflict, floods, drought, disease outbreaks, and displacement.³²³

Within this context, there are almost 6 million people in need of humanitarian assistance in the country in 2025, down from 6.9 million in 2024,³²⁴ and 8.25 million in 2023.³²⁵ This is due to stricter scope setting in the analysis process, but also improvements in drought conditions, decreases in internal displacement, and lower floods, factors that have all contributed to positive developments in the humanitarian situation.³²⁶ However, Somalia is still confronted with a protracted and complex humanitarian crisis, where conflict and insecurity drivers interplay with climate shocks and recurring disease outbreaks, notably of Acute Watery Diarrhoea (AWD) /cholera in IDP sites.³²⁷

At the beginning of 2025, the food security situation remained precarious, with more than 440 000 people in an ‘emergency’ situation (Phase 4), almost 3 million in ‘crisis’ (Phase 3), and another 6.5 million ‘stressed’ (Phase 2). With projected trends worsening for the remainder of 2025, the affected population was distributed across all regions, notably in correspondence of IDP sites, while it exhibited higher levels of concentration in the whole of Mudug and Galgaduud, as well as portion of Bari, Middle Shabelle, Lower Shabelle, Bay and Bakool. The most affected households were to be found in agricultural and pastoralist contexts, as well as in IDP sites. In terms of acute malnutrition, more than 1.7 million children, aged between 6 and 59 months were in need of treatment, either for severe or moderate acute malnutrition, notably in south-central Somalia.³²⁸

Among others, access to safe drinking water, suitable living conditions, and healthcare are particularly challenging in Somalia. Half of Somalia’s population is water insecure, while widespread households’ issues include lack of access to kitchen utensils, hygiene items, privacy, and source of power. In terms of healthcare, primary barriers include lack of accessible health facilities, unaffordable costs, and unavailability of medicines and services. Across all these domains, IDPs experience the same issues as the host communities at a higher rate.³²⁹

Within this overall context, the most vulnerable groups are the minority and marginalised communities in Somalia, whose access to humanitarian assistance is also hindered; children in general, who represent the 44 % of all people in need in the country; women, who together with children represent 80 % of the entire IDP population, older persons, and persons with

disabilities, whose access to humanitarian assistance is particularly obstructed.³³⁰ For more information on the humanitarian situation at regional level, conflict induced displacement, and other impacts on civilians please see section [2 Regional security situation and trends](#).

(a) Infrastructure Damage

Civilian infrastructure was reported to be frequently caught in the crossfire of the fight against Al-Shabaab, or other conflict dynamics. During the reference period, the UN task force on monitoring and reporting on grave violations against children (alone) verified the following attacks on schools and hospitals across the country:

- schools experienced 12 attacks in the period 8 February - 7 June 2023,³³¹ 12 attacks in the period 8 June – 5 October 2023,³³² 2 attacks in the period 6 October 2023 – 24 January 2024,³³³ 13 attacks in the period 25 January – 23 May 2024,³³⁴ 11 attacks (including on hospitals) in the period 24 May – 20 September 2024;³³⁵
- hospitals experienced 10 attacks in the period 8 February - 7 June 2023,³³⁶ 2 attacks in the period 8 June – 5 October 2023,³³⁷ 2 attacks in the period 25 January – 23 May 2024,³³⁸ 11 attacks (including on hospitals) in the period 24 May – 20 September 2024;³³⁹

In the context of the conflict in Las Anod, civilian infrastructure, health facilities, and schools were severely affected.³⁴⁰ Increasing levels of clan conflict during the reporting period have also resulted in damage to critical infrastructure and caused service disruptions. For instance, in the context of the clan conflict in Luuq (Gedo), armed violence resulted in attacks on health facilities, leaving thousands without access to medical care, as well as on Water, Sanitation and Hygiene (WASH) facilities, increasing the risk of waterborne diseases. Similarly, the destruction of schools and the displacement of teachers has left children without access to education.³⁴¹

(b) Evictions

For background information on evictions in Somalia, please see the [EUAA COI Report Somalia: Security Situation](#) (February 2023).³⁴² In the course of 2024, the NRC registered the eviction of more than 192 000 individuals across Somalia, while there were more than 207 000 in the course of 2023.³⁴³ Banadir (Daynille, Kahda), Bay (Baidoa), and Wogooyi Galbeed (Hargeisa) accounted for more than 90 % of all forced evictions. Urban IDPs, especially in

spaces with high population density, tend to live on private land and without formal tenure agreements, which increases the risk of forced evictions.³⁴⁴ For more detailed information at regional level, please see section [2 Regional security situation and trends](#).

1.5. Criminality

As mentioned in the section [1.3 Conflict layers and main developments](#), criminality in Somalia represents another source of insecurity in the country. Based on INSO CHDC data, in the period 2023 – March 2025, crime as ‘initiating actor’ accounted for 26 % of all security incidents registered in the country.³⁴⁵ Based on the Africa Organized Crime Index, the following main areas of criminality were identified in Somalia as of the end of 2023:

- **Smuggling and trafficking in human beings.** Somalia is a primary source country for smuggling across East Africa. Trafficking in human beings, including forced labour and sex trafficking, usually starts as smuggling, possibly with vulnerabilities, and then becomes trafficking later along migratory routes, in countries such as Sudan, Libya, or Yemen. Most victims come from south-central Somalia on their way to destinations such as Europe, the Gulf states, and Southern Africa. Smuggling is an ingrained feature in the country, with large segments of society not perceiving migration facilitation as a crime. Smuggling networks are typically run by Somalis and are considered a ‘viable source of income’.³⁴⁶
- **Child labour.** Children are ‘forced into labour in agriculture, domestic work, livestock herding, and selling khat internally and abroad’. Particularly vulnerable are IDPs children, children belonging to marginalised ethnic minorities, or those living in Al-Shabaab’s territory.³⁴⁷
- **Extortion and protection racketeering.** Extortion and protection money are a major source of income for terrorist groups such as Al-Shabaab and ISIS-Somalia. Citizens, companies, NGOs, and humanitarian organisations regularly pay ‘extortion’ fees to these groups to protect their personnel and physical assets.³⁴⁸ For further information see section 1.10 Individuals who have to pay ‘taxes’ to Al-Shabaab or other groups and militias in the [EUAA COI Report Somalia: Country Focus](#) (May 2025).
- **Arms trafficking.** Somalia hosts one of the most pervasive arms trafficking markets in the whole Africa.³⁴⁹ Clan militias, transnational criminal networks based in the north, particularly Puntland and eastern Somaliland, and militant groups linked to Al-Shabaab and ISIS substantially engage with arms trafficking in Somalia.³⁵⁰ The trade, eased by sophisticated transnational maritime trafficking networks, operate to smuggle small arms and light weapons from Iran, Yemen, the United Arab Emirates, and Oman.³⁵¹ After more

³⁵¹ ENACT, Africa Organised Crime Index 2023 – Somalia, [url](#)

than 30 years the arms embargo on the Somali government was lifted by the UNSC in December 2023.³⁵²

- **Counterfeit pharmaceutical products.** Pharmaceutical products are the most commonly circulated counterfeit items in Somalia, but no violence is associated with this trade.³⁵³ Among other measures, the Medicine Regulation Bill, proposed at the beginning of March 2025, seeks to address the widespread circulation of counterfeit, expired, or substandard medicines in the country.³⁵⁴
- **Charcoal, frankincense, and gold trade.** With 98 % of households in Somalia's towns and cities relying on charcoal for cooking and heating, charcoal trade remains prevalent in the country.³⁵⁵ The ban on charcoal exports, in place since 2012,³⁵⁶ has substantially prevented external trade,³⁵⁷ as also reported by the UN at the end of 2024.³⁵⁸ However, the domestic market is expanding due to rising gas prices,³⁵⁹ while Al-Shabaab enforces crackdowns on the cutting and transporting of wood from leafy trees.³⁶⁰ Both Al-Shabaab and state representatives profit from the internal trade.³⁶¹ Clan militias are also involved in the exploitation and 'overharvesting' of the Boswellia trees, which is used to produce frankincense,³⁶² with most of world's production coming from the Horn of Africa.³⁶³ Disputes over the trafficking of frankincense often become violent.³⁶⁴ The artisanal and informal gold mining sector centred around Milxo, in the Golis mountains (Sanaag), is subject to Al-Shabaab and ISIS revenue collection.³⁶⁵
- **Criminal networks.** Entrepreneurs, who often control ethnic and clan-based groups, lead criminal networks, many of which operate in conjunction with Al-Shabaab, and engage with smuggling commodities out of the country. State officials are also involved in organised criminal activities, including the misappropriation of international aid and tax flows, as well as the gatekeeping of 'illegal activities for bribes'.³⁶⁶

1.6. Death penalty, arbitrary arrests and detentions, corporal punishments, prison conditions

The death penalty as a punishment is included in the Somalia Penal Code, under Article 90(1).³⁶⁷ Crimes punishable by death penalty include ‘intentional homicide, bearing arms against the State, war crimes and the misuse of State secrets.’³⁶⁸

The death penalty continues being used in Somalia, and can be imposed for offences that, according to the UN Human Rights Committee, ‘do not meet the threshold of “the most serious crimes” within the meaning of article 6 (2) of the [International Covenant on Civil and Political Rights], understood to be crimes involving intentional killing’. The death penalty can reportedly be imposed by military courts on persons under 18 years old and on civilians.³⁶⁹

The UN noted allegations that in some cases executions were being carried out without legal representation for the accused or the possibility to appeal,³⁷⁰ while USDOS reported that on occasion authorities executed those sentenced to death very closely to the verdict, especially in cases where defendants confessed to being members of Al-Shabaab in court or in televised videos.³⁷¹ Children recruited and used by Al-Shabaab continued being held in both official and unofficial detention locations and in some cases were subjected to the death penalty for offences committed while associated with Al-Shabaab.³⁷²

In 2024, military courts were reported to continue sentencing people to death in Somalia.³⁷³ In August 2024, the state of Puntland sentenced and executed 10 Al-Shabaab fighters by firing squad, after they were tried by a military court,³⁷⁴ four of whom were reportedly underage at the time the alleged crime was committed.³⁷⁵ According to UNICEF, the Puntland Age Verification Committee met with the young people and determined that they were minors at the time of arrest and that they should not be subjected to the death penalty.³⁷⁶ Between October 2023 to January 2024, 14 executions were performed by the Somali authorities, which included nine former members of the security forces and five civilians, while three individuals, two former soldiers and one civilian, were sentenced to death. On 10 November 2023, authorities executed a soldier on the same day that he was convicted and sentenced to

³⁷⁶ UNICEF, UNICEF statement on execution of four youths in Puntland state, Somalia, 22 August 2024, [url](#)

death by the First Instance of the Military Court in Baidoa, without the opportunity to appeal the verdict and sentence.³⁷⁷ In 2023, according to Amnesty International (AI), Somalia was the only country in sub-Saharan Africa that carried out death penalties.³⁷⁸ Sources reported between more than 38 and at least 55 executions having taken place in 2023.³⁷⁹ According to AI, more than 31 death sentences were recorded in 2023, with recorded death sentences increasing and the number of executions more than tripling from the previous year.³⁸⁰ According to a report on the death penalty in Somalia, 23 out of the at least 55 executions that took place in 2023 were carried out by military authorities in Puntland and in Mogadishu. Out of the individuals executed, at least 16 were civilians who were considered to be members of Al-Shabaab and Islamic State, and at least seven soldiers convicted of killing civilians.³⁸¹

In areas under Al-Shabaab control, the de facto authorities carry out executions for crimes such as adultery and consensual same-sex sexual relations³⁸². Allegedly, some ‘Islamic “courts”’, under Al-Shabaab control have imposed the death penalty for consensual same-sex sexual relations based on sharia law.³⁸³ For more information on corporal punishment as well as forms of sanctioning of Al-Shabaab opponents or perceived opponents, see [EUAA COI Report Somalia: Country Focus](#) (May 2025), Section 1.3. Individuals contravening Sharia (and customary) laws/tenets and Section 1.6. Individual supporting or perceived as supporting the FGS/the International Community, and/or as opposing Al-Shabaab.

Corporal punishment. There is no mention in either Somalia’s Provisional Constitution or in the Penal Code on corporal punishment.³⁸⁴ The Prison Commander of Mogadishu Central Prison stated that no corporal punishment is imposed to any prisoner either for a minor or aggravated offence.³⁸⁵ However, according to the Child’s Rights International Network, there is no legal prohibition of corporal punishment as a judicial sentence for children who have committed offences. The possibility of children being sentenced to corporal punishment under Islamic law has been reported.³⁸⁶ Experts of the Committee Against Torture had noted that corporal punishment was broadly accepted in Somalia and not prohibited either at home, in the school and care settings, or as a sentence for a crime in penal institutions.³⁸⁷ For more information on corporal punishment, see [EUAA COI Report Somalia: Country Focus](#) (May 2025), Section 1.3. Individuals contravening Sharia (and customary) laws/tenets.

³⁸⁷ UN OHCHR, Experts of the Committee against Torture Commend Somalia on Progress in Rebuilding State and Government Institutions, Raise Questions on the Definition of Torture and the Death Penalty, 9 November 2022, [url](#)

Arbitrary arrests and detentions. In the period from February to June 2023, a 76 % increase in arbitrary arrests and detention of journalists was reported.³⁸⁸ Arrests and arbitrary detentions of journalists and media workers were reported in the period from July 2023 to June 2024.³⁸⁹ Arbitrary arrests and killings allegedly also took place perpetrated by both state actors and Al-Shabaab forces against human rights defenders, media workers and journalists, including a high number of attacks against female journalists,³⁹⁰ while in the period from May to September 2024, reports of incidents of arbitrary arrests and detentions of journalists by law enforcement and intelligence officials continued.³⁹¹ For more information on the arbitrary arrest and detention of journalists, see section 1.7. Journalists from the [EUAA COI Report Somalia: Country Focus](#), (May 2025).

Prison conditions. As of July 2024, there were fourteen operational prisons in Somalia, with the conditions described as ‘substandard’³⁹² and ‘below internationally recognized standards’.³⁹³ Issues include inadequate infrastructure, lack of steady food and water supplies, limited medical facilities, inadequate separation of prisoners by gender and age, and insufficient rehabilitation and reintegration programs.³⁹⁴ Medical facilities within prisons were described as rare, and prisoners have restricted access to external medical care.³⁹⁵

1.7. Checkpoints and road security in Somalia

This section is to be read in conjunction with the same section on checkpoint and road-security in the previous [EUAA COI Report Somalia: Security Situation](#) from February 2023,³⁹⁶ and September 2021,³⁹⁷ as well as the section on ‘1.10 Individuals who have to pay ‘taxes’ to Al-Shabaab or other groups and militias in the [EUAA COI Report Somalia: Country Focus](#) (May 2025).³⁹⁸

Checkpoints - *isbaaro* in Somali – are widespread in Somalia and constitute an intricate web of sites along routes where ‘trade meets imposition, and where mobile economies must negotiate competing claims to revenue and authority.’³⁹⁹ A recent research project on checkpoints, led by Dutch scholar Peer Schouten, identified between October 2022 and March 2023, a total of 204 major checkpoints in Somalia, 44 of which, roughly 23 %, were operated by Al-Shabaab. The remaining 77 % were controlled either by government actors, or

by allied and 'loosely' affiliated clan militia.⁴⁰⁰ The study, however, focused more on South-Central Somalia, and remained 'fragmentary' for other parts – namely Somaliland and Puntland – while it mapped checkpoints along major transport routes only.⁴⁰¹ In other words, according to the author of the research, interviewed in March 2025, it is likely that there are many more checkpoints in Somalia. At the time of writing there might be dozens more in Somaliland and in Puntland, also in consideration of the impact of the intervened Las Anod conflict; and there might be many more across Somalia, also in consideration of the resurgence of clan conflicts and quarrels over revenue sharing.⁴⁰² Next to the more permanent forms of checkpoints, there are others more temporary in nature – the so called 'pop-up checkpoints' - '*isbaaro soo booda*' in Somali. These are roadblocks that can be operated either 'by *mooryaan* or bandits, a label used for armed men (they may be clan militia, soldiers or freelance operators)' or by clan militias in the context of clan conflicts and blood compensation disputes.⁴⁰³

Federal actors, representatives of federal member states, regional and local government authorities, Al-Shabaab and clan groups or militias, they all seek to maximise control over checkpoints, and they all have competing, often overlapping, if not clashing claims over them.⁴⁰⁴ In practice, checkpoints are operated either by clan militias wearing federal or member state government uniforms and perceived as representatives of the government authority on the ground,⁴⁰⁵ or by a combination of government soldiers and other actors, including clans.⁴⁰⁶ Irrespective of the operating actor, clans' claims and agendas are crucially at play in the management of checkpoints, in their setting-up, and in the sharing of the extracted revenues,⁴⁰⁷ with these sites being also historically linked to the 'politics of passage' through clan territories typical of Somalia.⁴⁰⁸

Checkpoints are found across the entire country, but certain areas show a higher level of concentration, such as South-Central Somalia compared to Puntland and Somaliland, or within South-Central Somalia, with more checkpoints in Jubbaland than in South-West State and Hirshabelle. Moreover, the coastal regions – notably Middle Shabelle, Lower Shabelle, and Lower Juba - have a higher density of checkpoints compared to more in-land areas. However, the highest concentration is found in Benadir – Mogadishu – where on top of the 22 checkpoints identified by Schouten, dozens, if not hundreds more are to be found.⁴⁰⁹ In Galmudug, the relative scarcity of checkpoints, compared to other areas of the country, can be

explained, in part, with the success of the revenue sharing mechanism that was agreed among the main clans and constituencies of the state,⁴¹⁰ and in part with under-reporting issues along the Bossaso–Galkayo–Beledweyne route.⁴¹¹ Checkpoints distribution can also be explained by looking at the main trade routes across the country, with following list representing the key ones: Bulo Mareer–Mogadishu; Jamaame–Kismayo; Mogadishu–Adale; Mogadishu–Beledweyne; Kismayo–Jilib–Bardera; Mogadishu–Bula Hawa; Kismayo–Afmadow–Dhobley; Berbera–Wajale; Bossaso–Galkayo–Beledweyne. Along these routes there is a checkpoint roughly every 15–20 km, or about 5 checkpoints every 100 km travelled, which can be taken ‘as a good average for Somali roads’.⁴¹²

Checkpoints are described as ‘flashpoints’ for conflict and violence,⁴¹³ for various reasons. From a military point of view, they are consistently targeted for tactical reasons, notably by Al-Shabaab with IED and suicide attacks, but also with drone-strikes by coalition forces when operated by Al-Shabaab. From a financial point of view, they are strategically targeted to disrupt or reverse revenue generation mechanisms among opponents. From a gender perspective, being staffed predominantly by men, they can be hotspots of harassment and gender-based violence for women, especially those without clan connections. Finally, in general, they represent a risk for civilian passers-by.⁴¹⁴ According to data from the International NGO Safety Organisation (INSO), as quoted in the study referenced here, between 2000 and 2023, there were in Somalia 1 237 violent checkpoint-related incidents, or between one and two every day.⁴¹⁵ Based on ACLED data, checkpoints across Somalia were the site of 707 reported incidents in the reference period, resulting in 678 estimated fatalities and a non-specified number of casualties, including civilians.⁴¹⁶

2. Regional security situation and trends

2.1. Jubbaland

2.1.1. Gedo

(a) Background

Gedo, Somalia's second-largest region,⁴¹⁸ is located in the southern part of the country. It shares international borders with Kenya to the west and Ethiopia to the north-west and internal borders with Bakool to the north-east, Bay to the east and Middle Juba and Lower Juba to the south. The region is divided into six districts: Garbahaarey (or Garbaharey), Luuq, Doolow, Belet Xaawo (or Bulo Hawa), Ceel Waaq (or El Waq/El Wak) and Bardhere (or Baardheere).⁴¹⁹ The region's capital is Garbahaarey.⁴²⁰ Due to its porous borders with Kenya and Ethiopia, Gedo has significant strategic value.⁴²¹ Long-standing disputes between the Jubbaland administration and the federal government over Gedo have kept the region in a state of semi-autonomy.⁴²²

As of September 2024, sources variously estimated the population of Gedo region at 975 586 (IPC),⁴²³ and 713 299 (IOM).⁴²⁴ Gedo's clan composition is diverse. The Marehan (Darood) is the most powerful clan in political and military terms, dominating virtually all of the territory west of the Juba river. On the eastern bank, the Rahanweyn clan predominates in rural areas.⁴²⁵ For more detailed information on Gedo region's clan composition, see section 2.1.1.1. of the [EASO COI Report Somalia: Security Situation](#) (September 2021).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

A variety of armed actors were present in Gedo region.⁴²⁶ According to [Map 3 Somalia – Approximate Territorial Control as of 31 March 2025](#) and [Map 2 Somalia – Approximate Territorial Control as of 1 April 2023](#), Al-Shabaab controlled most of Gedo's territory, including the towns and surroundings of El Adde (central Gedo) and Cows Qurun (western Gedo) as well as large rural territories extending across most of Ceel Waag and Belet Xaawo districts and

⁴²⁶ SMN, Jubbaland Accuses Somali President of Security Disruption in Gedo, 17 December 2024, [url](#)

parts of Garbahaarey district and southward into Middle Juba region. Control over the rural surroundings of Garbahaarey, Belet Xaawo, Burdhubo and Bardhere towns continued to be mixed between Al-Shabaab and the FGS-aligned coalition.⁴²⁷ In the remaining rural areas, including around Doolow, Luuq and Ceel Waaq towns, control has been mixed between Al-Shabaab and Jubbaland regional forces since FGS forces withdrew from parts of Gedo following a suspension of ties between the Jubbaland State and the FGS in November 2024.⁴²⁸

[Map 3](#) shows that as of 31 March 2025, the previously FGS-controlled⁴²⁹ towns of Doolow, Luuq and Ceel Waaq were under the control of the Jubbaland regional forces. Meanwhile, Garbahaarey, Belet Xaawo and Burdhubo remained in the hands of the FGS coalition, while control of Bardhere was mixed between the FGS coalition and Jubbaland forces.⁴³⁰ Other sources similarly noted that, as of December 2024, the FGS controlled Garbahaarey⁴³¹ and had a military presence in Belet Xaawo,⁴³² while the Jubbaland forces controlled Doolow.⁴³³

Gedo region continued to be a strategic target for Al-Shabaab's activities due its proximity to Kenya.⁴³⁴ The group continued to sustain a significant presence in the region,⁴³⁵ where its operations aimed at weakening local governance and disrupting cooperation with Kenya in security matters.⁴³⁶ However, in August 2024, the SNA and the Jubbaland Dervish Force⁴³⁷ recaptured ten villages along the strategic Luuq–Doolow road that had previously served as military strongholds for Al-Shabaab to exert control, including by demanding bribes and instilling fear among residents.⁴³⁸

Attempts by both the FGS and the Jubbaland administration to gain control over Jubbaland resulted in military buildups in the Ceel Waaq area in November 2024.⁴³⁹ Amid escalating tensions with Jubbaland forces,⁴⁴⁰ the FGS mobilised forces the following month,⁴⁴¹ airlifting

troops into the regional capital Garbahaarey.⁴⁴² In late 2024, Gedo further saw a buildup of Ethiopian forces⁴⁴³ who had reportedly seized key strategic airports in September 2024⁴⁴⁴ (including those in Garbahaarey, Bardhere, Luuq and Doolow)⁴⁴⁵ and taken control of several villages in the region's north.⁴⁴⁶

Conflict dynamics

As of late December 2024, the situation in Gedo has been described as being 'volatile'⁴⁴⁷ and affected by crisis as tensions between Jubbaland authorities and the FGS were escalating into violent clashes.⁴⁴⁸

In the early months of the reference period, Al-Shabaab carried out a number of attacks on military bases that were being operated by ATMIS troops (on the outskirts of Doolow town⁴⁴⁹ and near Bardhere airport, both in June 2023)⁴⁵⁰ or had been handed over from ATMIS to local forces⁴⁵¹ (at Giriley in July 2023).⁴⁵² Attacks on such military sites involved twin bombings using explosive-laden cars⁴⁵³ or were carried out with firearms.⁴⁵⁴ Giriley base, a military site whose control had been transferred to the Jubbaland Dervish Force, notably first came under Al-Shabaab attack on 4 July 2023⁴⁵⁵ and was then briefly⁴⁵⁶ captured on 13 July 2023,⁴⁵⁷ the second attack leaving at least one civilian dead.⁴⁵⁸ The temporary capture of the base highlighted vulnerabilities of the state forces, raising fears that Al-Shabaab could exploit a vacuum left by the departure of ATMIS forces.⁴⁵⁹

⁴⁵⁹ HIPS, State of Somalia 2023 Report, May 2024, [url](#), p. 19

In early August 2023, the FGS launched a new counter-insurgency campaign named Operation Black Lion.⁴⁶⁰ Forces of the SNA and Jubbaland Dervishes retook strategic sites from Al-Shabaab along the Luuq–Doolow road (August 2023),⁴⁶¹ with further operations by Jubbaland and Ethiopian forces reported the following month.⁴⁶² At least one suspected Kenyan airstrike in Al-Shabaab-held El Adde town caused civilian deaths (September 2023).⁴⁶³

The launch of Operation Black Lion in the summer of 2023 was followed by a rise in Al-Shabaab attacks on local officials supporting counter-insurgency.⁴⁶⁴ The reference period also saw Al-Shabaab publicly executing five men it accused of spying for the FGS, the Jubbaland State or the USA (June 2023).⁴⁶⁵ The group further carried out deadly bombings against SNA forces travelling between Luuq and Doolow,⁴⁶⁶ as well as in Belet Xaawo.⁴⁶⁷ Moreover, unclaimed IED attacks killed civilians on the Belet Xaawo–Doolow road (May 2024)⁴⁶⁸ and a senior official in Belet Xaawo (January 2025).⁴⁶⁹

Amid escalating tensions between FGS and Jubbaland authorities, their forces recently clashed in Doolow in December 2024⁴⁷⁰ (leaving at least four people dead),⁴⁷¹ Ceel Waaq in January 2025 (leaving two dead)⁴⁷² and Bardhere in February 2025⁴⁷³ (leaving six dead).⁴⁷⁴

Gedo is one of the country's regions in which clan violence has been reported to be particularly widespread.⁴⁷⁵ Indeed, 2024 saw a notable increase in clan violence.⁴⁷⁶ In early July 2024, fighting between two rival clan-based militia groups in Luuq district involving both light and heavy weaponry⁴⁷⁷ resulted in a death toll ranging between four and 30 or more fatalities.⁴⁷⁸ It was believed that these clashes had been sparked by land disputes.⁴⁷⁹ Further clashes between tribal/clan militias were reported in the same district in October 2024

(resulting in between six and 20 or more deaths)⁴⁸⁰ and February 2025 (causing an unconfirmed number of deaths).⁴⁸¹

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported 248 security incidents in Gedo region, including battles, explosions, or other forms of remote violence and violence against civilians, causing 180 fatalities. [Figure 8](#) below shows their evolution per type across the reference period.⁴⁸² At district level, Bardhere district recorded the most security incidents (60 incidents), followed by Belet Xaawo (48 incidents) and Garbahaarey and Luuq districts (47 incidents each).⁴⁸³

Figure 8. Evolution of ACLED security events coded ‘battles’, ‘explosions/remote violence’ and ‘violence against civilians’ between 1 April 2023 and 21 March 2025 in Gedo.⁴⁸⁴

ACLED recorded 191 incidents involving Al-Shabaab (coded as either ‘Actor 1’, ‘Associated Actor 1’, ‘Actor 2’, or ‘Associated Actor 2’). Of these incidents, 135 involved both Al-Shabaab and the Military or Police Forces of Somalia, including 16 incidents involving Al-Shabaab and Jubbaland security forces. A further six incidents involved both the Rahanweyn-Moalim Weyne

and Rahanweyn-Gawaweene subclan militia, while another seven incidents involved Rahanweyn-Moalim Weyne subclan militia and Marehan clan militia.⁴⁸⁵

For incidents involving civilian fatalities, please see below an illustrative and non-exhaustive list:

- on 13 July 2023, Al-Shabaab captured the strategic Giriley military base from Jubbaland forces following a firefight. At least one civilian was killed in the attack, along with two soldiers.⁴⁸⁶ The Jubbaland Dervish Forces recaptured the base the next day.⁴⁸⁷
- on 16 May 2024, at least two civilians were killed and five others injured when an unclaimed landmine struck their vehicle on the Belet Xaawo–Doolow road.⁴⁸⁸
- on 5 February 2025, FGS forces attacked the Bardhere district headquarters.⁴⁸⁹ Six people were killed in ensuing clashes with Jubbaland forces;⁴⁹⁰
- on 20 October 2024, clashes between rival clans in Luuq district left between six and 20 or more people dead.⁴⁹¹

Conflict-related displacement

Between 1 April 2023 and 16 March 2025, 94 452 individuals were newly displaced from Gedo due to conflict or insecurity, according to the UNHCR PRMN. Of this group, the vast majority (90 641 individuals) were displaced within the same administrative region, while 3 811 individuals were displaced to other regions, including Middle Juba, Lower Juba, Bakool, Bari, and Nugal. During the same period, 26 778 individuals arrived from other regions (Middle Juba and Lower Juba, Bakool, Bay, Hiraan, Middle and Lower Shabelle, and Galgaduud). At district level, Luuq, by a wide margin, was both the district most affected by IDPs departures to other regions (3 540, including 3 510 who were displaced in July 2024) and by intra-regional IDP departures to other locations within Gedo region (84 611 including around 45 000 in July 2024 and another 36 000 in October 2024).⁴⁹²

According to UNOCHA data, some 42 000 people were displaced due to violence between clans in the Luuq area between 5 and 7 July 2024, including 12 000 who fled to hard-to-access areas outside Luuq town such as Ceel Boon, Yurkud, and Bashiir. Some of the IDPs fled towards Wajid town in South West State.⁴⁹³ Further clashes in October 2024 displaced another 30 000 people, including individuals who had previously been affected by

displacement or had recently returned.⁴⁹⁴ Additional large-scale displacement resulted from escalating violence between FGS and Jubbaland forces in Bardhere in early February 2025.⁴⁹⁵

For information on conflict-related displacement prior to April 2023, see section 2.1.1. of the [EUAA COI Report on Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

UNOCHA recorded 28 humanitarian access incidents in Gedo region between April and December 2023⁴⁹⁶ and another 29 over the year 2024,⁴⁹⁷ including security forces opening fire on a vehicle of humanitarian workers at an IDP camp and hitting one aid worker (first quarter of 2024),⁴⁹⁸ the killing of two humanitarian workers amid the clan conflict in Luuq (July 2024), the hijacking of a lorry transporting humanitarian supplies in Doolow (third quarter of 2024),⁴⁹⁹ an attack by clan militias on an NGO office in Burdhubo, and the detention of humanitarian staff (fourth quarter of 2024).⁵⁰⁰ Earlier, the Safeguarding Health in Conflict Coalition recorded the hijacking of a lorry carrying medical supplies (third quarter of 2023).⁵⁰¹ Moreover, the inter-clan clashes that erupted in Luuq town in early July 2024 led to the burning of a main market with hundreds of shops.⁵⁰²

2.1.2. Middle Juba

(a) Background

Middle Juba region is located in the southern part of Somalia and shares internal borders with Gedo to the north and north-west, Bay to the north-east, Lower Shabelle to the east and Lower Juba to the south. To the south-east, it borders the Indian Ocean. The region is divided into three districts: Bu'aale, Jilib and Saakow. The region's capital is Bu'aale.⁵⁰³

As of September 2024, an IPC document estimated the population of Middle Juba region at 430 129.⁵⁰⁴ The region's demographic composition is very diverse. The Somali Bantu are the most populous ethnic group in the region. The two strongest clans both in political and military terms are the Aulihan (Darood) and the Mohamed Zubier/Ogaden (Darood) clans.⁵⁰⁵ For more

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

Middle Juba region is an Al-Shabaab stronghold⁵⁰⁶ and has been described as the group's 'center of gravity' in Somalia.⁵⁰⁷ Maps published by PolGeoNow show that Al-Shabaab has been in control of virtually the entire region, including the towns of Bu'aale, Jilib, Saakow, and Salagle ([Map 3 Somalia – Approximate Territorial Control as of 31 March 2025](#)⁵⁰⁸ and [Map 2 Somalia – Approximate Territorial Control as of 1 April 2023](#)⁵⁰⁹). The town of Jilib serves as the group's main centre of command⁵¹⁰ and de facto headquarters.⁵¹¹

Conflict dynamics

The SNA and international forces carried out a number of operations against Al-Shabaab in various parts of Middle Juba, including Jilib, Bu'aale, and Saakow (October 2023)⁵¹² and the border area between Middle Juba and Lower Juba (December 2023).⁵¹³ In mid-2024, Jubbaland and SNA forces (Danab special forces) launched a ground operation in Jubbaland that also targeted Al-Shabaab strongholds in Jilib district.⁵¹⁴

Airstrikes attributed by some sources to US forces reportedly killed or injured senior Al-Shabaab commanders in the Jilib area (in May 2023,⁵¹⁵ December 2023⁵¹⁶ and notably in a series of strikes in March 2025⁵¹⁷) and dozens of fighters of the group in Jilib,⁵¹⁸ the Arabow area⁵¹⁹ and the border zones between Middle Juba and Lower Juba⁵²⁰ and Lower Shabelle.⁵²¹ Somali officials claimed that, following the March 2025 airstrikes, several high-ranking Al-Shabaab commanders and their families were abandoning Jilib town and relocating to new

places to hide.⁵²² In 2023, Kenyan forces also carried out a series of airstrikes against Al-Shabaab positions,⁵²³ including in Saakow, Salagle⁵²⁴ and allegedly Jilib⁵²⁵ and Bu'aale,⁵²⁶ although the impact of these strikes on the group's activities remained unclear.⁵²⁷

Several aerial strikes attributed to international forces, including those of the USA⁵²⁸ and Kenya,⁵²⁹ were alleged to have caused civilian deaths or injuries in Saakow (June 2023),⁵³⁰ Salagle (also June 2023)⁵³¹ and Jilib (August 2023,⁵³² December 2023,⁵³³ and February 2024⁵³⁴).

Over the reference period, Al-Shabaab carried out several public executions, including of two Somali soldiers in Saakow⁵³⁵ and at least 12 individuals on charges of spying for Kenyan, US, FGS and Jubbaland intelligence agencies in Jilib.⁵³⁶

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported 57 security incidents in Middle Juba region, including battles, explosions, or other forms of remote violence and violence against civilians, causing 350 fatalities. [Figure 9](#) below shows their evolution per type across the reference period.⁵³⁷ At district level, Jilib recorded the most security incidents (35 incidents), followed by Saakow (12 incidents) and Bu'aale (10 incidents).⁵³⁸

⁵³⁸ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#)

Figure 9. Evolution of ACLED security events coded 'battles', 'explosions/remote violence' and 'violence against civilians' between 1 April 2023 and 21 March 2025 in Middle Juba.⁵³⁹

ACLED recorded 51 incidents involving Al-Shabaab (coded as either 'Actor 1', 'Associated Actor 1', 'Actor 2', or 'Associated Actor 2'). Of these incidents, 14 involved both Al-Shabaab and the Military or Police Forces of Somalia.⁵⁴⁰

For incidents involving civilian fatalities, please see below an illustrative and non-exhaustive list:

- on 15 August 2023, four civilians were killed in alleged Kenyan airstrikes on a civilian area in the centre of Jilib town. Four other civilians were injured.⁵⁴¹
- on 15 January 2024, Al-Shabaab publicly executed seven men in Jilib, accusing them of spying for the FGS and the US and Kenyan governments.⁵⁴²

Conflict-related displacement

Between 1 April 2023 and 16 March 2025, 52 217 individuals were newly displaced from Middle Juba due to conflict or insecurity, according to the UNHCR PRMN. Of this group, the majority (32 605 individuals) were displaced within the same administrative region, while 19 612 individuals were displaced to other regions, including Gedo, Lower Juba, and Benadir. During the same period, only 245 individuals arrived from other regions (Gedo, Lower Juba, and Bay). At district level, Saakow was the district most affected by individuals leaving for other regions (9 267) and Jilib was the district most affected by intra-regional IDP departures to other locations within Middle Juba region (12 687).⁵⁴³ For information on conflict-related

displacement prior to April 2023, see section 2.1.2. of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

UNOCHA recorded no humanitarian access incidents in Middle Juba region between April and December 2023⁵⁴⁴ and over the year 2024.⁵⁴⁵ A suspected Kenyan airstrike on Saakow town in June 2023 was reported to have destroyed key telecommunications installations.⁵⁴⁶ According to an October 2024 report by the UN Panel of Experts, Middle Juba was one of the regions where abductions of children by Al-Shabaab for recruitment and use was most common.⁵⁴⁷ No further information could be found within the time constraints of this report.

2.1.3. Lower Juba

(a) Background

Lower Juba region is the southernmost region of Somalia. It shares an international border with Kenya to the west and south-west and has internal borders with Gedo region to the north and Middle Juba region to the north-east. To the south-east, it borders the Indian Ocean. The region has four districts: Kismayo, Jamaame, Badhaadhe (all three located on the coast), and Afmadow. Kismayo, Lower Juba's regional capital,⁵⁴⁸ has also been the de facto capital of Jubbaland.⁵⁴⁹

As of September 2024, sources variously estimated the population of Lower Juba region at 1 158 256 (IPC),⁵⁵⁰ and 858 827 (IOM).⁵⁵¹ Lower Juba is inhabited by members of the Somali Bantu (also known as Jareer), the Biyomaal (Dir) clan, the Tunni (Digil-Mirifle), the Mohamed Zubier/Ogaden (Darood) and other Darood clans (including Harti), the Gaaljaal (proto-Hawiye) the Somali Bajuni and small pockets of other clans. Kismayo town has been dominated by the Ogaden clan, particularly the large Mohamed Zubeir/Ogaden subclan.⁵⁵² For further general background information on Lower Juba region, see section 2.1.3. of the [EUAA COI Report Somalia: Security Situation](#) (February 2023). For more detailed information on Lower Juba region's clan composition, see section 2.1.3.1 of the [EASO COI Report Somalia: Security Situation](#) (September 2021).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025 and [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023, Al-Shabaab was in control of Jamaame, Hagar, and Badhaadhe as well as swaths of rural territory in the region's north-east encompassing Jamaame district and most of Afmadow district north of the Juba River and extending into Middle Juba. The group also controlled another rural area stretching northward from Badhaadhe through Kismayo district into southern Afmadow. Meanwhile, Al-Shabaab lost control of Bulo Haji (Afmadow district),⁵⁵³ recaptured by the SNA and allied local clan militias in June 2024⁵⁵⁴ and now under the control of the Jubbaland regional forces.⁵⁵⁵ Following the recapture of Bulo Haji, a number of strategic villages linking Kismayo and Afmadow were seized from Al-Shabaab control.⁵⁵⁶ Concurrently, the militant group mobilised fighters from Middle Juba to areas in Kismayo and Jamaame districts in August, September, and October 2024.⁵⁵⁷ According to [Map 3](#), as of 31 March 2025, the rural areas outside Al-Shabaab's full dominance were under mixed control of Al-Shabaab and Jubbaland forces.⁵⁵⁸

Both the FGS and the Jubbaland administration have invested in efforts to gain control over Jubbaland,⁵⁵⁹ deploying their respective forces to occupy military sites vacated by ATMIS and secure areas formerly controlled by the international troops.⁵⁶⁰ In late 2024, military buildups were seen in Raskamboni town,⁵⁶¹ where the SNA deployed hundreds of troops. However, following the town's capture by Jubbaland forces in December 2024,⁵⁶² FGS forces withdrew from most areas of Lower Juba.⁵⁶³ According to [Map 3](#), as of 31 March 2025, the previously FGS/ATMIS-controlled⁵⁶⁴ towns of Kismayo, Afmadow, Dif, Dhobley, Tabta, Jana Abdale, Koday, Kolbiyow and Raskamboni were under the control of the Jubbaland forces, while Bar Sanguni was mapped as being under mixed control of FGS coalition and Jubbaland forces.⁵⁶⁵

Conflict dynamics

Lower Juba is a region of key strategic importance to Al-Shabaab's operations⁵⁶⁶ and the group conducted a number of attacks on military bases, including in Bar Sanguni (March and April 2024, reportedly killing dozens of soldiers)⁵⁶⁷ and Jannay Abdalla (October 2024).⁵⁶⁸

In the early months of the reference period, Lower Juba region saw some small-scale counter-insurgency operations against Al-Shabaab,⁵⁶⁹ including airstrikes and ground operations in June 2023 (Jamaame, killing two Al-Shabaab commanders)⁵⁷⁰ and July 2023 (near Afmadow town, killing dozens of fighters).⁵⁷¹ Further SNA operations, backed by US forces, were reported in late 2023 (involving heavy clashes with Al-Shabaab)⁵⁷² and early 2024, but these efforts generally remained sporadic and limited in scope.⁵⁷³ However, in March 2024, SNA and Jubbaland forces launched heavy-handed joint operations in Musa Haji, Bahar Saaf, Malaylay, Turdho and other areas serving as hideouts for Al-Shabaab, reportedly killing dozens of militants.⁵⁷⁴

After recapturing the Bulo Haji area in June 2024⁵⁷⁵ without facing any resistance from Al-Shabaab and the subsequent surrender of Al-Shabaab district-level leaders,⁵⁷⁶ SNA and Jubbaland forces seized further localities between Kismayo and Afmadow in early July,⁵⁷⁷ including Lagta Qubbi, Golhadamo, Biibi, Harboole, Miido,⁵⁷⁸ and Welmaro.⁵⁷⁹

However, on 22 July 2024, Al-Shabaab launched coordinated, multi-pronged and near-simultaneous attacks on military bases in Bulo-Haji and the towns of Harbole, Miido, and Bar Sanguni. These attacks involved at least one suicide car bomb, as well as rocket-propelled grenades (RPGs) and small arms.⁵⁸⁰ Clashes between the Jubbaland forces/SNA and Al-

⁵⁸⁰ FDD's Long War Journal, Analysis: Shabaab mounts large-scale offensive, Somali Armed Forces claim victory, 23 July 2024, [url](#)

Shabaab were reported in a number of localities in the area,⁵⁸¹ with the FGS claiming that the attackers were repelled and dozens of militants killed.⁵⁸²

The following weeks and months saw military operations reportedly killing over 200 Al-Shabaab militants,⁵⁸³ targeted operations against the group's hideouts,⁵⁸⁴ the recapture of further Al-Shabaab-controlled territory,⁵⁸⁵ and the killing of senior Al-Shabaab figures in Badhaadhe and Kismayo.⁵⁸⁶ At the same time, the intensity of fighting decreased from mid-August 2024 as security forces cleared villages in Kismayo district from Al-Shabaab fighters.⁵⁸⁷ Meanwhile, Al-Shabaab publicly executed several men it had accused of spying.⁵⁸⁸

Amid political tensions in the run-up to the 25 November 2024 Jubbaland presidential election, a deadly clash erupted in Kismayo.⁵⁸⁹ The following month, deteriorating relations between the FGS and the Jubbaland administration escalated into an attack by Jubbaland forces on FGS troops in Raskamboni in December 2024.⁵⁹⁰ Following these hostilities, the FGS announced the withdrawal of its forces from Lower Juba,⁵⁹¹ although SNA operations in the region continued into early 2025.⁵⁹²

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported 497 security incidents in Lower Juba region, including battles, explosions, or other forms of remote violence and violence against civilians, causing 1 663 fatalities. [Figure 10](#) below shows their evolution per type across the reference period.⁵⁹³ At district level, Kismayo district recorded the most security incidents (176 incidents), followed by Afmadow (151 incidents) and Jamaame districts (105 incidents).⁵⁹⁴

⁵⁹⁴ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#)

Figure 10. Evolution of ACLED security events coded ‘battles’, ‘explosions/remote violence’ and ‘violence against civilians’ between 1 April 2023 and 21 March 2025 in Lower Juba.⁵⁹⁵

ACLED recorded 460 incidents involving Al-Shabaab (coded as either ‘Actor 1’, ‘Associated Actor 1’, ‘Actor 2’, or ‘Associated Actor 2’). Of these incidents, 334 involved both Al-Shabaab and the Military or Police Forces of Somalia, including 252 incidents involving Al-Shabaab and Jubbaland security forces. Meanwhile, 50 incidents involved both Al-Shabaab and Somali civilians.⁵⁹⁶

For incidents involving fatalities, including civilian deaths, please see below an illustrative and non-exhaustive list:

- in March and April 2024, Al-Shabaab carried out two attacks on Bar Sanguni military base, reportedly killing dozens of soldiers;⁵⁹⁷
- on 13 July 2024, Al-Shabaab publicly executed five men in its stronghold of Jamaame, accusing them of spying for the Somali, US and Kenyan governments;⁵⁹⁸
- on 22 July 2024, Al-Shabaab launched coordinated attacks on bases⁵⁹⁹ of the SNA and Jubbaland forces⁶⁰⁰ in Buulo-Haji and the towns of Harbole, Miido, and Bar Sanguuni. The FGS claimed that the SNA, its allies in the Jubbaland forces and Kenyan forces had repelled the attackers;⁶⁰¹

⁵⁹⁵ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#). Please note that data covering the entire month of March 2025 was not yet available during the drafting of this report.

⁶⁰¹ FDD’s Long War Journal, Analysis: Shabaab mounts large-scale offensive, Somali Armed Forces claim victory, 23 July 2024, [url](#)

- on 11 December 2024, heavy clashes erupted between Jubbaland forces and the SNA in Raskamboni town,⁶⁰² resulting in the killing of 75 people and the surrender and fleeing of SNA troops;⁶⁰³
- in the run-up to the 25 November 2024, Jubbaland presidential election, Jubbaland security forces clashed with fighters affiliated with the opposition candidate Ilyas Beddel Gabose on 23 November 2024. The violence left one of his bodyguards dead⁶⁰⁴ and two other individuals injured.⁶⁰⁵

Conflict-related displacement

Between 1 April 2023 and 16 March 2025, 50 650 individuals were newly displaced from Lower Juba due to conflict or insecurity, according to the UNHCR PRMN. Of this group, the vast majority (49 076 individuals) were displaced within the same administrative region, while 1 574 individuals were displaced to other regions, including Gedo, Middle Juba, Benadir, Bari, and Nugal. During the same period, 12 997 individuals arrived from other regions (Gedo, Middle Juba, Bay, Lower Shabelle, Benadir, and Hiraan). At district level, Jamaame was the most affected by individuals leaving for other regions (743). Afmadow was the district most affected by intra-regional IDP departures to other locations within Lower Juba region (18 335), followed by Jamaame (14 228).⁶⁰⁶ According to UNOCHA, Jamaame was one of the districts most affected by conflict-related internal displacement in 2024.⁶⁰⁷ For information on conflict-related displacement prior to April 2023, see section 2.1.3. of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

UNOCHA recorded 11 humanitarian access incidents in Lower Juba region in 2023⁶⁰⁸ and another 22 in 2024,⁶⁰⁹ including the destruction of a school and water and sanitary infrastructure during hostilities in Wirkooy (Afmadow district), the Jubbaland forces requiring clearances at checkpoints to access northern Kismayo (first quarter of 2024),⁶¹⁰ the eviction of 2 652 IDPs in Dhobley and Badhaadhe (second quarter of 2024),⁶¹¹ and a mortar projectile reportedly fired by Al-Shabaab hitting the United Nations Support Office in Somalia (UNSOS) compound in Kismayo.⁶¹²

2.1.4. Jubbaland - Checkpoints and road security

A report published by the Rift Valley Institute (RVI) and other organisations noted that, as of October 2023, 34 % of all of Somalia's checkpoints were located in Jubbaland State, the vast majority (80 %) in Lower Juba region.⁶¹³ The International Peace Information Service (IPIS), a Belgium-based humanitarian research institute⁶¹⁴ that had contributed to the above-mentioned report, identified multiple checkpoints located on the Kismayo–Afmadow–Dhobley road (with those between Kismayo and Afmadow under Al-Shabaab control), on the Kismayo–Badhaadhe road (where Al-Shabaab controlled most checkpoints, including in Badhaadhe town), and on the Kismayo–Jamaame–Jilib–Bardhere road (where Al-Shabaab was likewise in control of most checkpoints).⁶¹⁵ For an overview on checkpoints at country level see section [1.7](#) and [Map 4](#).

ACLED reported that Al-Shabaab mobilisation in Jubbaland increased in September 2024 as the group set up two new checkpoints and bases along the roads between Kismayo and Afmadow and Jamaame. Moreover, Al-Shabaab imposed a transport blockade on Bardhere town (Gedo) which allowed the group to extort funds from traders and travellers.⁶¹⁶

Jubbaland witnessed a number of roadside bombings during the reference period, including an attack near Bulo Haji (targeting a Jubbaland official),⁶¹⁷ the road between Luuq and Doolow (targeting SNA troops),⁶¹⁸ the Belet Xaawo–Doolow road (targeting government forces⁶¹⁹ and civilians⁶²⁰). Al-Shabaab planted IEDs on roads leading into Kismayo city⁶²¹ and in Gedo region to ambush the armed forces.⁶²²

2.2. South West

2.2.1. Bakool

(a) Background

Bakool, a rural region⁶²³ predominantly inhabited by agro-pastoralists,⁶²⁴ shares an international border with Ethiopia to the north and internal borders with the regions of Gedo to the west, Bay to the south, Hiraan to the east, and Lower Shabelle to the south-east. The

region is divided into five districts: Xudur, Tayeeglow, Ceel Barde, Rab Dhuure, and Waajid. Its capital is Xudur.⁶²⁵

As of September 2024, sources variously estimated the population of Bakool region at 543 371 (IPC),⁶²⁶ and 392 347 (IOM).⁶²⁷ Bakool is mainly inhabited by various Rahanweyn groups, while the Jajele (Hawiye) are present in a small section in the north⁶²⁸ and the Aulihan (Ogaden/Darood) clan resides along both sides of the border with Ethiopia.⁶²⁹ For more detailed background information on Bakool region, see section 2.2.1. of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

Al-Shabaab remained in control of large swaths of the region's territory.⁶³⁰ Bakool has been described as one of the country's regions where Al-Shabaab's grip was most strongly felt, including through blockades of humanitarian aid,⁶³¹ heavy tax burdens⁶³² and a high frequency of child abductions for recruitment purposes.⁶³³

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025 and [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023, Al-Shabaab was in control of the towns of Rab Dhuure and Tayeeglow and of rural territories in eastern and south-eastern Bakool, including the surroundings of Tayeeglow and the region's southeastern corner. During the reference period, Al-Shabaab added large rural swaths south-east of Rab Dhuure town to its realm of control. Meanwhile, the FGS coalition remained in control of a narrow stretch of rural territory in the region's north delimited by the towns of Ceel Barde, Ato, and Yeed. Control over the remaining rural areas of Bakool region was mixed between Al-Shabaab and the FGS. The towns of Xudur, Waajid, Ceel Barde, Yeed, and Ato remained under the control of the FGS coalition.⁶³⁴ However, Al-Shabaab continued to hold sway over the territories surrounding Xudur⁶³⁵ and Waajid,⁶³⁶ keeping these towns in a state of siege.⁶³⁷

Meanwhile, the SNA units operating in the region included the 9th Brigade of the 60th division,⁶³⁸ stationed in the towns of Xudur⁶³⁹ and Waajid,⁶⁴⁰ and the 8th Brigade of the 60th Division.⁶⁴¹ Xudur and Waajid also hosted bases of Ethiopian troops.⁶⁴² During the reference period, the SNA regained control of several locations previously controlled by Al-Shabaab,⁶⁴³ including in the vicinity of Xudur town,⁶⁴⁴ and ended a blockade of the Xudur–Qurajome road.⁶⁴⁵

Conflict dynamics

Al-Shabaab continued to pose a significant threat in Bakool and other parts of southern Somalia.⁶⁴⁶ Notably, the region's capital Xudur has been a 'focal point' in the persisting conflict between the SNA and Al-Shabaab.⁶⁴⁷

During the reference period, Al-Shabaab carried out multiple attacks against ATMIS troops in Waajid district (including in April/May 2023⁶⁴⁸ and January⁶⁴⁹ and October 2024⁶⁵⁰), Xudur district, and at the Somali-Ethiopian border in Rab Dhuure district (June 2023),⁶⁵¹ while also launching attacks on the SNA (in Waajid in January⁶⁵² and Ceel Barde in June 2024⁶⁵³) and South West State forces (in Waajid in March 2025).⁶⁵⁴

Notably, on 17 September 2023, the group ambushed convoys of Ethiopian ATMIS troops⁶⁵⁵ travelling from Yeed to Waajid and from Ceel Barde to Xudur.⁶⁵⁶ Various sides claimed that around 50 militants⁶⁵⁷ and 167 Ethiopian soldiers had been killed in the attacks and ensuing

clashes, although these accounts could not be verified independently.⁶⁵⁸ The group further executed five individuals in Tayeeglow, accusing them of spying for the US and Ethiopian governments.⁶⁵⁹

Meanwhile, new operations against Al-Shabaab were announced in the South West State by the South West administration in July 2023⁶⁶⁰ and by the FGS in October 2023.⁶⁶¹ These operations intensified in several instances, including in November-December 2023⁶⁶² and over the spring⁶⁶³ and summer months of 2024.⁶⁶⁴ Multiple SNA operations focused on targeting Al-Shabaab hideouts in Waajid district (including in July 2023,⁶⁶⁵ March⁶⁶⁶ and December 2024,⁶⁶⁷ and March 2025⁶⁶⁸) and Xudur district (throughout the period from late 2023 to late 2024⁶⁶⁹), but were also reported along the Bakool–Bay border (December 2023).⁶⁷⁰ There were ensuing reports of clashes,⁶⁷¹ dismantling of Al-Shabaab hideouts,⁶⁷² and surrendering of defecting Al-Shabaab fighters.⁶⁷³ Following SNA operations in September 2024, tensions remained at heightened levels in the Xudur area as military and insurgent activities continued.⁶⁷⁴

The region further witnessed some airstrikes targeting Al-Shabaab positions,⁶⁷⁵ including a strike by FGS forces in Wajid district that, according to Al-Shabaab, killed eight civilians.⁶⁷⁶

Moreover, clashes along clan lines between SNA and Dervish forces left at least 10 people dead in Ceel Barde,⁶⁷⁷ with further clan feuds were observed around Xudur.⁶⁷⁸

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported 284 security incidents in Bakool region, including battles, explosions, or other forms of remote violence and violence against civilians, causing 583 fatalities. [Figure 11](#) below shows their evolution per type across the reference period.⁶⁷⁹ At district level, Xudur recorded the most security incidents (149 incidents), followed by Waajid (87 incidents) and Ceel Barde (26 incidents).⁶⁸⁰

Figure 11. Evolution of ACLED security events coded ‘battles’, ‘explosions/remote violence’ and ‘violence against civilians’ between 1 April 2023 and 21 March 2025 in Bakool.⁶⁸¹

ACLED recorded 277 incidents involving Al-Shabaab (coded as either ‘Actor 1’, ‘Associated Actor 1’, ‘Actor 2’, or ‘Associated Actor 2’). Of these incidents, 205 involved both Al-Shabaab and the Military or Police Forces of Somalia, including eight incidents involving Al-Shabaab and Southwest Special Police Forces.⁶⁸²

For incidents involving fatalities, including alleged civilian deaths, please see below an illustrative and non-exhaustive list:

⁶⁸¹ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#). Please note that data covering the entire month of March 2025 was not yet available during the drafting of this report.

⁶⁸² EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#)

- on 17 September 2023, Al-Shabaab group ambushed convoys of Ethiopian ATMIS troops⁶⁸³ travelling from Yeed to Waajid and from Ceel Barde to Xudur.⁶⁸⁴ Various sides claimed that around 50 militants and 167 Ethiopian soldiers had been killed.⁶⁸⁵ These accounts could not be verified independently,⁶⁸⁶
- on 22 September 2023, an airstrike carried out by FGS forces in Wajid district killed a prominent Al-Shabaab leader and his seven bodyguards (as claimed by Somali Ministry of Defence)⁶⁸⁷ or eight civilians (as claimed by Al-Shabaab).⁶⁸⁸

Conflict-related displacement

Between 1 April 2023 and 16 March 2025, 20 284 individuals were newly displaced from Bakool due to conflict or insecurity, according to the UNHCR PRMN. Of this group, 9 657 individuals were displaced within the same administrative region, while 10 627 individuals were displaced to other regions, including Bay, Benadir, Bari, Gedo, Galgaduud, Hiraan, and Nugal. At district level, Rab Dhuure was the most affected by individuals leaving for other regions (3 467), while Waajid was the only affected by displacement from other regions (3 510, all displaced from Gedo's Luuq district in July 2024). Ceel Barde, by a wide margin, was the district most affected by intra-regional IDP departures to other locations within Bakool region (7 736, including 5 400 who were displaced in June 2023).⁶⁸⁹ For information on conflict-related displacement prior to April 2023, see section 2.2.1. of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

UNOCHA recorded eight humanitarian access incidents in Bakool region between April and December 2023⁶⁹⁰ and one further incident over the year 2024.⁶⁹¹ In August 2024, UNOCHA reported that Al-Shabaab blocked and controlled the main supply routes to Xudur town,⁶⁹² restricting the flow of food and other commodities into the town to airlifted aid and items smuggled into the town by donkey carts.⁶⁹³

2.2.2. Bay

(a) Background

Bay, a rural region⁶⁹⁴ predominantly inhabited by agro-pastoralists,⁶⁹⁵ shares internal borders with Bakool, Lower Shabelle, Middle Jubba, and Gedo. It is divided into four districts: Baidoa, Buur Hakaba, Qansax Dheere, and Diinsoor. The region's capital is Baidoa city,⁶⁹⁶ locally known as Baydhabo.⁶⁹⁷ While the official capital of the South West State is Baraawe in Lower Shabelle region,⁶⁹⁸ the strategically important city of Baidoa⁶⁹⁹ serves as the de facto capital of the South West State.⁷⁰⁰

As of September 2024, sources variously estimated the population of Bay region at 1 247 975 (IPC),⁷⁰¹ and 1 801 464 (IOM).⁷⁰² Baidoa district hosted the highest number of IDPs among the country's districts assessed by IOM (731 492 individuals as of September 2024).⁷⁰³ Bay region is mainly inhabited by Rahanweyn clans, with Mirifle groups mainly populating the northern half and the Digil predominating in the south. The region is also home to small communities of Hawiye groups.⁷⁰⁴ Baidoa city is mainly populated by the Mirifle and Digil clans, with the Mirifle the more powerful clan.⁷⁰⁵ For more detailed background information on Bay region, see section 2.2.2. of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

Al-Shabaab maintained a strong presence in Bay region⁷⁰⁶ and exerted influence through blockades of humanitarian assistance,⁷⁰⁷ heavy tax burdens⁷⁰⁸ and a high incidence of abductions of children for recruitment purposes.⁷⁰⁹

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025 and [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023, Al-Shabaab controlled the towns of Lego, Labatan Jirow, and Bulo-Fulay. It also controlled large swaths of territory encompassing more than half of Bay's rural terrain, extending from the surroundings of Labatan Jirow in the north and Lego in the east into central and southern Bay, with the exception of the environs of Diinsoor. Control over the remaining rural areas of Bay region was mapped as being mixed between Al-Shabaab and the FGS coalition. The towns of Baidoa, Buur Hakaba and Berdale (all located on the Mogadishu–Doolow road), as well as Qansah Dhere, Diinsoor remained under the control of the FGS coalition.⁷¹⁰ During the reference period, the SNA regained control of several previously Al-Shabaab-controlled villages,⁷¹¹ including north of Baidoa (April 2023) and along the Bay–Bakool border (December 2023).⁷¹²

In spring 2024, SNA and South West State forces started to reposition their troops in some areas of Bay as part of their efforts to liberate the region from Al-Shabaab elements.⁷¹³ Meanwhile, amid rising tensions between the FSG and the South West State administration, both sides deployed forces in parts of the state.⁷¹⁴ Units of the 8th Brigade of the SNA's 60th Division were operating in the region.⁷¹⁵ Both SNA forces⁷¹⁶ and Ethiopian troops were stationed in Diinsoor town.⁷¹⁷

Conflict dynamics

Al-Shabaab continued to pose a significant threat across southern Somalia.⁷¹⁸ During the early months of the reference period, Al-Shabaab carried out several attacks on ATMIS troops in

⁷¹⁸ International Crisis Group, Crisis Watch – Somalia: April 2023 – March 2025, n.d., [url](#)

Diinsoor (April/May 2023)⁷¹⁹ and imposed a near-two-week siege on the city of Baidoa (July 2023).⁷²⁰ Another spike in Al-Shabaab operations was observed from December 2023 and continued into 2024⁷²¹ as the group pursued ground raids against armed forces stationed in the region.⁷²² Over the summer of 2024, Baidoa city witnessed four artillery attacks by Al-Shabaab that targeted Baidoa airport, Baidoa Regional Hospital, and UN and ATMIS facilities (with no reported casualties),⁷²³ while an IED attack attributed to the group targeted security forces near Aawdiinle village⁷²⁴ of Baidoa district.⁷²⁵ Another focal area of Al-Shabaab's attacks and ambushes was the important Mogadishu–Baidoa road.⁷²⁶ For more detailed information on road incidents, see section [2.2.4 South West - Checkpoints and road security](#) of this report.

The reference period also witnessed unclaimed IED attacks striking SNA troops in the Bay–Bakool border zone (June 2024)⁷²⁷ and in the Baidoa airport area (July 2024),⁷²⁸ with the June attack notably killing the commander of the 8th Brigade of the 60th SNA Division and several soldiers, thus highlighting the challenges faced by the SNA in securing the area.⁷²⁹

Meanwhile, new anti-Al-Shabaab operations in the South West State were announced by the South West State administration in July 2023.⁷³⁰ Military and security campaigns against Al-Shabaab were reported near Baidoa city (including in April 2023⁷³¹ and May 2024⁷³²), around Berdale town (July 2023),⁷³³ at the Bay–Bakool border,⁷³⁴ and in Diinsoor district (December 2023),⁷³⁵ resulting in deaths⁷³⁶ and arrests of Al-Shabaab members.⁷³⁷ Furthermore, Al-Shabaab-controlled areas on the Diinsoor outskirts were shelled by Ethiopian forces,⁷³⁸ while several civilians were killed in suspected US airstrikes in Buur Hakaba district (July 2023).⁷³⁹

2024 saw a notable increase in clan violence.⁷⁴⁰ In March and April 2024, clashes between clan groups were reported in Diinsoor district (including Diinsoor town)⁷⁴¹ and Buur Hakaba town,⁷⁴² resulting in several deaths.⁷⁴³

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported 670 security incidents in Bay region, including battles, explosions, or other forms of remote violence and violence against civilians, causing 621 fatalities. [Figure 12](#) below shows their evolution per type across the reference period.⁷⁴⁴ At district level, Baidoa recorded the most security incidents (431 incidents), followed by Diinsoor (148 incidents) and Qansax Dheere (55 incidents).⁷⁴⁵

Figure 12. Evolution of ACLED security events coded 'battles', 'explosions/remote violence' and 'violence against civilians' between 1 April 2023 and 21 March 2025 in Bay.⁷⁴⁶

ACLED recorded 630 incidents involving Al-Shabaab (coded as either 'Actor 1', 'Associated Actor 1', 'Actor 2', or 'Associated Actor 2'). Of these incidents, 486 involved both Al-Shabaab and the Military or Police Forces of Somalia, including 154 incidents involving Al-Shabaab and Southwest Special Police Forces. Five incidents involved both Leysaan Clan Militia and

Southwest Special Police Forces, while another three incidents occurred between members of Rahanweyn-Elay Sub-Clan Militia.⁷⁴⁷

For incidents involving fatalities, including civilian deaths, please see below an illustrative and non-exhaustive list:

- in mid-June 2024, an unclaimed IED attack in the Bay–Bakool border zone killed the commander of the 8th Brigade of the 60th SNA Division and several soldiers;⁷⁴⁸
- on 24 July 2023, suspected US airstrikes struck civilian areas in Buur Hakaba district, killing five civilians and injuring 10 others;⁷⁴⁹
- between 25 and 29 March 2024, clashes between clan groups broke out in Biilile village of Diinsoor district and spread to Diinsoor town, leaving at least five men dead and escalating into a significant conflict between the two clans dominating the town;⁷⁵⁰
- on 13 April 2024, inter-clan hostilities re-erupted in Buur Hakaba town, leaving at least one person dead.⁷⁵¹

Conflict-related displacement

Between 1 April 2023 and 16 March 2025, 23 722 individuals were newly displaced from Bay due to conflict or insecurity, according to the UNHCR PRMN. Of this group, the majority (13 373 individuals) were displaced within the same administrative region, while 10 349 individuals were displaced to other regions, including Lower Shabelle, Benadir, Gedo, Middle and Lower Juba, Nugal, and Bari. During the same period, only 102 individuals arrived in Bay from another region (Bakool, all arriving in Baidoa district). At district level, Diinsoor was both the district most affected by individuals leaving for other regions (3 955) and by intra-regional IDP departures to other locations within Bay region (11 644).⁷⁵² UNOCHA similarly noted that Diinsoor was one of Somalia's districts most severely affected by conflict-related internal displacement in 2024.⁷⁵³

Hostilities between clans in Diinsoor in late March 2024 resulted in the displacement of 1 371 households, as recorded by UNHCR,⁷⁵⁴ while an unspecified number of people were displaced by months-long inter-clan skirmishes in Buur Hakaba that were reported to have come to an end in April 2024.⁷⁵⁵

For information on conflict-related displacement prior to April 2023, see section 2.2.2. of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

⁷⁵⁵ Mustaqbal Media, Somalia: Months-long inter-clan skirmishes in Burhakaba put to rest after joint efforts, 18 April 2024, [url](#)

Other impacts on civilian life

UNOCHA recorded 20 humanitarian access incidents in Bay region between April and December 2023⁷⁵⁶ and another 17 over the year 2024,⁷⁵⁷ including the temporary abduction of two humanitarian workers (first quarter of 2024),⁷⁵⁸ mortar projectiles allegedly fired by Al-Shabaab hitting the UN facilities in Baidoa (third⁷⁵⁹ and fourth quarter of 2024), the seizure of a lorry with food supplies by Al-Shabaab in the Daynuunay area, the detention of humanitarian staff in Diinsoor, and an IED detonation damaging a humanitarian-rented building in Baidoa (fourth quarter of 2024).⁷⁶⁰ A temporary siege imposed by Al-Shabaab on Baidoa city in July 2023 prompted shortages in food and fuel.⁷⁶¹

2.2.3. Lower Shabelle

(a) Background

Lower Shabelle region is situated along the coast of south Somalia and shares internal borders with Middle Jubba, Bay, Bakool, Hiraan, Middle Shabelle, and Benadir regions. Lower Shabelle is divided into seven districts: Marka, Wanla Weyn, Afgooye, Qoryooley, Baraawe, Kurtunwaarey, and Sablaale. The region's capital is Marka,⁷⁶² while the city of Baraawe is the official capital of the South West State.⁷⁶³ Lower Shabelle is known for yielding the country's largest agricultural output⁷⁶⁴ and is of key strategic importance due to its location along two main roads connecting Mogadishu with Baidoa and Kismayo and the presence of the port towns of Marka and Baraawe.⁷⁶⁵

As of September 2024, sources variously estimated the population of Lower Shabelle region at 1 593 117 (IPC),⁷⁶⁶ and 835 126 (IOM).⁷⁶⁷ The structure of Lower Shabelle's population has been described as highly diverse and complex, encompassing large numbers of Digil-Mirifle subclans, the Biyomaal (Dir) clan around Marka, and numerous Hawiye clans in the east.⁷⁶⁸ For more detailed background information on Lower Shabelle region, see section 2.2.3. of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025 and [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023, Al-Shabaab controlled nearly all of the region's central, southern and south-western areas, including the towns of Mubarak, Kurtunwaarey and Sablaale, as well as Basra north of Mogadishu. During the reference period, the group added the previously FGS-controlled town of Awdhegle to its realm of control. Meanwhile, the towns of Marka, Baraawe, Qoryooley, Bullo Mareer, Afgooye and Wanla Weyn remained under the control of the FGS coalition, while control of their rural hinterlands was mostly mapped as being mixed between Al-Shabaab and the FGS coalition. The same could be observed in the rural areas surrounding Benadir/Mogadishu.⁷⁶⁹

Lower Shabelle has been described as one of Somalia's regions where Al-Shabaab's control was most strongly felt, including through isolation from humanitarian assistance,⁷⁷⁰ use of force against residents to extort harvested crops as a form of taxation,⁷⁷¹ and a high incidence of abductions of children for recruitment into the group's ranks.⁷⁷²

SNA brigades operating in the region during the reference period included the 7th Brigade of the 60th Division,⁷⁷³ the 83rd Brigade,⁷⁷⁴ and the 143rd Brigade.⁷⁷⁵ SNA and South West regional forces started to reposition in some areas of Lower Shabelle in spring 2024 as part of their efforts to liberate the region from Al-Shabaab.⁷⁷⁶

Conflict dynamics

Lower Shabelle has been affected by insecurity resulting from Al-Shabaab activity and hostilities between clan militia groups.⁷⁷⁷ Al-Shabaab 'continued to pose a major threat' in Lower Shabelle and other parts of southern Somalia.⁷⁷⁸ Al-Shabaab has been using the region as a strategic zone to control food supplies⁷⁷⁹ and stage attacks across southern Somalia.⁷⁸⁰ The group's tactics included hit-and-run attacks, IED attacks and ambushing small groups of

soldiers.⁷⁸¹ A focal area of Al-Shabaab's attacks and ambushes has been the key Mogadishu–Baidoa road⁷⁸² running through Wanla Weyn.⁷⁸³

As of spring 2023, Lower Shabelle recorded one of the highest incidences of IED attacks among all regions.⁷⁸⁴ During the early months of the reference period, Al-Shabaab carried out a series of attacks on ATMIS troops, including in Bulo Mareer⁷⁸⁵ (where Al-Shabab targeted an ATMIS base using vehicle-borne IEDs and claimed to have killed more than 137 soldiers), Janale, Marka, Qoryooley, Baraawe, and the Mogadishu outskirts of Bariirre and Awbocow (April/May 2023)⁷⁸⁶ and Arbacow (July 2023).⁷⁸⁷ Moreover, the group launched attacks against the SNA⁷⁸⁸ and local government and security infrastructure. The group's activities saw another increase in December 2023 and continued at heightened levels into early 2024.⁷⁸⁹ The second half of 2024 witnessed Al-Shabaab attacking multiple ATMIS positions in Daanow, Bur Colow⁷⁹⁰ and Bulo Mareer,⁷⁹¹ targeting Baraawe airport,⁷⁹² and ambushing South West regional forces.⁷⁹³ The group launched a further series of attacks in December 2024⁷⁹⁴ and re-escalated its operations against military sites in late February 2025.⁷⁹⁵

Dozens of civilians were killed in drone strikes by the FGS,⁷⁹⁶ by patrolling ATMIS forces,⁷⁹⁷ and in artillery crossfire.⁷⁹⁸ Moreover, there were reports of unattributed explosions resulting in dozens more civilian casualties,⁷⁹⁹ including a detonation of an unexploded shell in Qoryooley (June 2023),⁸⁰⁰ and an attack on a bus on the Marka–Qoryooley road (August 2023).⁸⁰¹ An increase in child casualties due to mortar fire, unexploded ordnance and remnants of war documented over the summer of 2023⁸⁰² continued through late 2023 and early 2024⁸⁰³ with

Al-Shabaab reported as the main perpetrator across regions.⁸⁰⁴ The group also carried out several public executions of individuals it accused of spying.⁸⁰⁵

While anti-Al-Shabaab operations were announced in the South West State in July 2023,⁸⁰⁶ as of early 2024, efforts to combat Al-Shabaab were limited to sporadic aerial operations.⁸⁰⁷ Later months, however, saw several security operations targeting Al-Shabaab strongholds,⁸⁰⁸ hideouts⁸⁰⁹ and checkpoints,⁸¹⁰ while aerial strikes reportedly killed a high-ranking Al-Shabaab commander⁸¹¹ and dozens of Al-Shabaab fighters.⁸¹²

2024 saw a notable increase in clan violence.⁸¹³ High levels of tension between clan groups were reported in the Baraawe, Qoryooley⁸¹⁴ and Wanla Weyn areas,⁸¹⁵ escalating into armed violence in June–July 2024,⁸¹⁶ including a clash in Qoryooley between the Jiido and Garre clans⁸¹⁷ (both part of Digil)⁸¹⁸ that reportedly left at least two people dead.⁸¹⁹

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported 1 416 security incidents in Lower Shabelle region, including battles, explosions, or other forms of remote violence and violence against civilians, causing 2 122 fatalities. [Figure 13](#) below shows their evolution per type across the reference period.⁸²⁰ At district level, Afgooye recorded the most security incidents (639 incidents), followed by Marka (424 incidents) and Qoryooley (169 incidents).⁸²¹

⁸²¹ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#)

Figure 13. Evolution of ACLED security events coded 'battles', 'explosions/remote violence' and 'violence against civilians' between 1 April 2023 and 21 March 2025 in Lower Shabelle.⁸²²

ACLED recorded 1 302 incidents involving Al-Shabaab (coded as either 'Actor 1', 'Associated Actor 1', 'Actor 2', or 'Associated Actor 2'). Of these incidents, 832 involved both Al-Shabaab and the Military or Police Forces of Somalia, including five incidents involving Al-Shabaab and Southwest Special Police Forces. A further four incidents involved both Gaaljecel clan militia and Shanta Caleemo clan militia, while another three incidents involved both Gaaljecel clan militia and Rahanweyn-Hubeer subclan militia.⁸²³

For incidents resulting in fatalities, including civilian deaths, please see below an illustrative and non-exhaustive list:

- on 26 May 2023, large numbers of Al-Shabaab fighters carried out a complex attack on Ugandan forces at the ATMIS forward operating base in Bulo Mareer district,⁸²⁴ with the militants claiming that 137 troops had been killed in the attack;⁸²⁵
- on 9 June 2023, a detonation of an unexploded mortar shell in Qoryooley town killed around 27 people, mainly children, and left another 53 injured;⁸²⁶
- on 9 August 2023, an attack by an unidentified armed group on a passenger bus travelling on the Marka–Qoryooley road left at least six people dead and another 12 injured;⁸²⁷
- on 18 March 2024, drone strikes launched during military operations killed 23 civilians of the marginalised Gorgaarte clan near Bagdad village;⁸²⁸

⁸²² EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#). Please note that data covering the entire month of March 2025 was not yet available during the drafting of this report.

⁸²⁸ Amnesty International, Somalia: Death of 23 civilians in military strikes with Turkish drones may amount to war crimes – new investigation, 7 May 2024, [url](#)

- between 8 and 9 July 2024, a clash between the two clans in Qoryooley district over administrative power in the district⁸²⁹ reportedly left at least two civilians dead.⁸³⁰

Conflict-related displacement

Between 1 April 2023 and 16 March 2025, 78 367 individuals were newly displaced from areas of Lower Shabelle due to conflict or insecurity, according to the UNHCR PRMN. Of this group, 32 836 individuals were displaced within the same administrative region, while 45 531 individuals were displaced to other regions, including Benadir, Gedo, Hiraan, Lower Juba, Nugal, and Bari. During the same period, only 167 individuals arrived from other regions (Galgaduud and Bay, all arriving in Afgooye district). At district level, Kurtunwaarey (16 824) and Qoryooley (12 344) were the most affected by individuals leaving for other regions. Kurtunwaarey, by a wide margin, was also the district most affected by intra-regional IDP departures to other locations within Lower Shabelle region (24 063).⁸³¹ The clashes between the Jiido and Garre clans in Qoryooley district in early July 2024 resulted in the displacement of around 2 100 individuals to Bulo-Mareer and Marka, while others fled to nearby areas within the same district.⁸³²

For information on conflict-related displacement prior to April 2023, see section 2.2.3. of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

UNOCHA recorded 19 humanitarian access incidents in Lower Shabelle region between April and December 2023⁸³³ and another nine over the year 2024,⁸³⁴ including disruptions of humanitarian activities due to clashes between two clans in Qoryooley and between military actors in the Baraawe area (second quarter of 2024).⁸³⁵ In 2023, the Safeguarding Health in Conflict Coalition (SHCC) and Insecurity Insight recorded one case of violence against health care staff by Al-Shabaab in Lower Shabelle, who shot and injured the director of an NGO-run hospital.⁸³⁶

2.2.4. South West - Checkpoints and road security

A report published by the RVI and other organisations noted that, as of October 2023, 26 % of all of Somalia's checkpoints were located in South West State, the majority (66 %) in Lower Shabelle region.⁸³⁷ IPIS mapped multiple checkpoints on routes located between Mogadishu

⁸³⁷ Schouten, P., Paying the Price: The political economy of checkpoints in Somalia, RVI et al., October 2023, [url](#), pp. 25-26

and Baraawe (where Al-Shabaab controlled several checkpoints in Qoryooley town and around Janale), on the Mogadishu–Afgooye–Baidoa–Doolow road (mostly under non-Al-Shabaab control), and along routes in Bakool (where Al-Shabaab held checkpoints in Yeed and Tayeeglow).⁸³⁸ Major checkpoints in the state included Daynuunaay near Baidoa (held by Al-Shabaab as of October 2023), Jamecada in Buur Hakaba, and Bar Ismail, an entry point to Afgooye.⁸³⁹ For an overview on checkpoints at country level see section [1.7](#) and [Map 4](#).

Al-Shabaab controlled a number of key supply routes across the state, including the road between Aawdiinle and Bardale (Bay region),⁸⁴⁰ and aimed to gain control over the main routes connecting Lower Shabelle, Bay, and Banadir regions.⁸⁴¹ The group carried out multiple attacks on key supply routes heading into Mogadishu, including the Mogadishu–Afgooye road.⁸⁴² The numerous Al-Shabaab-imposed sieges of cities in South West State made travel on roads ‘difficult and dangerous’.⁸⁴³

Particularly the key supply and transit route from Mogadishu to Baidoa,⁸⁴⁴ running through Wanla Weyn (Lower Shabelle) and Buur Hakaba (Bay),⁸⁴⁵ has been a focal area of Al-Shabaab attacks that mostly took the form of small-scale raids and ambushes,⁸⁴⁶ while the group has also ambushed the main supply route around Janale.⁸⁴⁷ In Bakool, the SNA reclaimed control of the strategic Xudur–Qurajome road from Al-Shabaab in August 2024.⁸⁴⁸

2.3. Benadir and Mogadishu

2.3.1. Security Situation

(a) Background

Benadir (or Banadir/Benaadir) region is located on the south-eastern coast of Somalia and shares internal borders with Middle Shabelle and Lower Shabelle regions.⁸⁴⁹ It covers the same area as the municipality of Mogadishu and effectively constitutes a territory under direct FGS administration.⁸⁵⁰ Mogadishu city is divided into 20 municipal districts: Warta Nabada

(formerly known as Wardhigley)⁸⁵¹ Abdiaziz, Bondhere, Daynile, Hamar-Jajab, Hamar-Weyne, Hodan, Howl-Wadag, Huriwa (Heliwaa), Kaxda, Karan, Shangani, Shibis, Waberi, Wadajir, Yaqshid, Dharkenley, Darusalam, Garasbaley and Gubadley.⁸⁵² The three last-mentioned districts were included into the city of Mogadishu in May 2024.⁸⁵³

As of September 2024, sources variously estimated the population of Benadir region at 3 171 391 (IPC),⁸⁵⁴ and 2 181 609 (IOM).⁸⁵⁵ While Mogadishu is inhabited by individuals from all Somali clans⁸⁵⁶ as well as minorities,⁸⁵⁷ it is dominated by the Hawiye clan,⁸⁵⁸ with the mayor, the deputy mayors and the majority of district commissioners appointed from among the Hawiye sub-clans.⁸⁵⁹ For more detailed background information on Benadir region and Mogadishu, including its demographic composition, see section 2.3.1. of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors.

Forces present in the city include federal security forces, the Presidential Guard, police forces, security forces answering to the Benadir regional authorities, numerous private security firms and clan protection forces.⁸⁶⁰ Responsibility for ensuring general security of the Presidential Palace (Villa Somalia) was transferred from ATMIS to the SNA in late 2023.⁸⁶¹ African Union (AU) peacekeeping forces were housed at Halane Base camp⁸⁶² at Aden Adde International Airport⁸⁶³ and operated a forward operating base (FOB) at Mogadishu's seaport.⁸⁶⁴ Since 2017 Turkish forces also operated a military base, Camp Turksom, in the capital.⁸⁶⁵

Meanwhile, Mogadishu's security landscape has been described as 'porous'.⁸⁶⁶ While Al-Shabaab lacks permanent sites in Mogadishu, it has been operating in the city,⁸⁶⁷ relying on

the presence of agents of its Amniyat intelligence service in government-held areas, whose operations state security services have struggled to disrupt.⁸⁶⁸ In September 2024, the Somali Digest news website reported that the group had set up a network of bases at strategic locations in the northern Mogadishu outskirts, collecting taxes and administering justice.⁸⁶⁹ More recently, in March 2025, it was reported that several other suburbs had witnessed a notable rise in Al-Shabaab operations, including Daynile district⁸⁷⁰ in the northwestern outskirts,⁸⁷¹ long viewed as a relatively stable area with a strong security presence.⁸⁷² Local residents in these areas were quoted as saying that militants were moving without hindrance and erecting checkpoints, conducting patrols and launching attacks.⁸⁷³

Conflict dynamics

Despite years of counter-terrorism efforts by the FGS and international forces⁸⁷⁴ that continued and intensified at certain points during the reference period⁸⁷⁵ (including in Daynile and Kaxda in August 2024⁸⁷⁶ and Hamarweyne in October 2024⁸⁷⁷) Al-Shabaab has shown resilience and adaptability.⁸⁷⁸ The group continued to find new ways to infiltrate Mogadishu⁸⁷⁹ and posed an ongoing threat to its security,⁸⁸⁰ mainly in the outskirts⁸⁸¹ but also in well-protected and sensitive zones.⁸⁸² Further threats to security stemmed from armed clans groups opposing the FGS.⁸⁸³

During the reference period, Al-Shabaab infiltrated and attacked at least two Somali military sites, including the Jaalle Siyaad Military Academy (July 2023)⁸⁸⁴ and the General Gordon

military base (February 2024),⁸⁸⁵ as well as carrying out bomb attacks against checkpoints and members of the security forces.⁸⁸⁶ At least two bombings during the reference period targeted the General Kaahiye Police Academy in Hamar-Jajab district⁸⁸⁷ and its immediate vicinity.⁸⁸⁸

In a trend continuing from the previous reference period, Villa Somalia and UN facilities at Aden Adde International Airport areas remained frequent targets of mortar attacks by Al-Shabaab.⁸⁸⁹ The group also targeted AU peacekeeping troops at the airport⁸⁹⁰ and the Turkish military base.⁸⁹¹ The group's repeated mortar attacks on the Villa Somalia area struck the Ministry of Petroleum and Mineral Resources (April 2023),⁸⁹² the Presidential Palace (July 2023),⁸⁹³ and residential areas where they caused civilian casualties.⁸⁹⁴ Most recently, a bomb attack targeted the motorcade of Somalia's President Hassan Sheikh Mohamud, who survived unharmed (March 2025).⁸⁹⁵

Moreover, the group carried out deadly complex/suicide attacks targeting, among others reported events, the Pearl Beach Hotel on Lido Beach (June 2023),⁸⁹⁶ a tea shop (September 2023)⁸⁹⁷ and a hotel near Villa Somalia (March 2024), a coffee shop in Bondhere district (July 2024) and, notably, a restaurant on Lido Beach (August 2024)⁸⁹⁸ in what was reported as the most lethal attack in Mogadishu since October 2022.⁸⁹⁹ Unclaimed bombings further killed six telecom workers in Garasbaley district (April 2024),⁹⁰⁰ and five further individuals near the National Theatre in the vicinity of Villa Somalia (September 2024).⁹⁰¹

Furthermore, Al-Shabaab carried out attacks against businesses that had complied with orders from the National Intelligence and Security Agency (NISA) to install CCTV cameras,⁹⁰² with

reports of bombings in the city's commercial districts of Laba Dhagax and Bakaro market.⁹⁰³ Several suburbs including Daynile also saw bombings,⁹⁰⁴ as well as killings of businessmen.⁹⁰⁵

Several individuals were reported to have been killed or injured by security forces in the context of protests led by members of the Hawiye/Abgaal clan in central Mogadishu (March 2024).⁹⁰⁶ Moreover, forces aligned with the President of Somalia clashed with gunmen allegedly linked to the opposition in the city's outskirts (February 2025).⁹⁰⁷

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED recorded 830 security incidents in Benadir region/Mogadishu (battles, explosions, or other forms of remote violence and violence against civilians), causing 869 fatalities. [Figure 14](#) below shows their evolution per type across the reference period.⁹⁰⁸ At municipal district level,⁹⁰⁹ Daynile district recorded the most security incidents between 1 April 2023 and 21 March 2025 (190 incidents), followed by Hodan district (115 incidents) and Dharkenley district (84 incidents).⁹¹⁰

⁹⁰⁹ The ACLED dataset used for this report does not feature a district with the name Gubadley, however, the dataset includes incidents in Gubadley neighborhood of Karan district. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#)

⁹¹⁰ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#)

Figure 14. Evolution of ACLED security events coded ‘battles’, ‘explosions/remote violence’ and ‘violence against civilians’ between 1 April 2023 and 21 March 2025 in Benadir.⁹¹¹

ACLED recorded 624 incidents involving Al-Shabaab (coded as either ‘Actor 1’, ‘Associated Actor 1’, ‘Actor 2’, or ‘Associated Actor 2’). Of these, 462 incidents involved both Al-Shabaab and the Military or Police Forces of Somalia, while 190 incidents involved both Al-Shabaab and Somali civilians.⁹¹²

For incidents involving civilian fatalities, please see below an illustrative and non-exhaustive list:

- on 9 June 2023, Al-Shabaab carried out a complex attack on the busy Pearl Beach Hotel on Lido Beach. The attackers used suicide bombings to gain access to the facility and carried out ‘random shootings’ while taking hostages,⁹¹³ leaving nine people dead,⁹¹⁴ and another 10 injured;⁹¹⁵
- on 14 and 15 March 2024, Al-Shabaab carried out a complex attack⁹¹⁶ against the Syl Hotel, often frequented by government officials. The attack left three soldiers dead and 27 other people injured;⁹¹⁷
- on 2 August 2024, Al-Shabaab carried out another complex attack on Lido Beach, targeting civilians at a restaurant.⁹¹⁸ The attack involved suicide bombings and

indiscriminate firing into crowds.⁹¹⁹ UN estimates on fatalities ranged from at least 37 to nearly 100, with injuries estimated at between around 184 and 250;⁹²⁰

- in early October 2024, Al-Shabaab killed four businessmen in the suburbs of Daynile and Suqa Holaha for complying with the authorities' order to install CCTV cameras.⁹²¹

For additional information on illustrative incidents in Mogadishu see paragraph on Armed attacks in the section [1.2.2 Al-Shabaab control areas, presence, and influence](#).

Conflict-related displacement

Between 1 April 2023 and 16 March 2025, 1 952 individuals were newly displaced from areas of Benadir due to conflict or insecurity, according to the UNHCR PRMN. Of this group, 492 individuals were displaced within the same administrative region, while 1 460 individuals were displaced to other regions, including Lower Juba, Nugal, and Bari. During the same period, 78 177 individuals arrived from other regions (Lower Juba, Middle Juba, Bakool, Bay, Lower Shabelle, Middle Shabelle, Hiraan, Galgaduud, and Mudug).⁹²² For information on conflict-related displacement prior to April 2023, see section 2.2.3. of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

UNOCHA recorded 55 humanitarian access incidents in Benadir region between April and December 2023⁹²³ and another 43 over the year 2024,⁹²⁴ the highest prevalence among all regions.⁹²⁵ These incidents, which complicated access to aid and services, included evictions of thousands of IDP households,⁹²⁶ the demolishing of a nutrition facility (Hodan district),⁹²⁷ mortar attacks on Aden Adde International Airport housing UN personnel, and intensifying security operations in Kahda and Daynile hampering access to IDP camps.⁹²⁸ According to data recorded by the NRC, 49 122 individuals were evicted in Benadir during 2024. Most evictions occurred in Kaxda (21 635), Daynile (13 147) and Garasbaley districts (12 264).⁹²⁹

In August 2024, Al-Shabaab attacked the Safa and Marwa markets on the city's outskirts with explosives and fire, inflicting significant damage to goods and property, estimated at 4 million USD.⁹³⁰

2.3.2. Benadir and Mogadishu - Checkpoints and road security

As of October 2023, Benadir region had the country's highest density of checkpoints. A report published by the RVI and other organisations identified 22 checkpoints located along key access roads, while citing other sources that pointed to the existence of dozens or even hundreds of more checkpoints in the region.⁹³¹ IPIS mapped multiple checkpoints located around Aden Adde International Airport, in the city centre, and along roads connecting the city with Afgooye, Merka (Lower Shabelle), Balcad, and Warsheikh (Middle Shabelle).⁹³² For an overview on checkpoints at country level see section 1.7 and [Map 4](#).

Al-Shabaab, aiming to gain control over the main routes connecting Lower Shabelle, Bay, and Benadir regions,⁹³³ carried out multiple attacks on key supply routes heading into Mogadishu, especially the Mogadishu–Afgooye road and the Mogadishu–Balcad road.⁹³⁴

The group's attacks targeted security checkpoints in Daynile (September 2023),⁹³⁵ Garasbaley (August 2024)⁹³⁶ and Kaxda districts (September 2024),⁹³⁷ causing a number of casualties⁹³⁸ and briefly enabling the group to gain control of Kaxda's Burta Ali Janaale checkpoint, a strategic entry gate into the city.⁹³⁹ Roadside bombings reportedly also resulted in several casualties in Daynile⁹⁴⁰ and Huriwa,⁹⁴¹ as well as in the March 2025 attack targeting the convoy of President Hassan Sheikh Mohamud near Villa Somalia.⁹⁴² Moreover, Al-Shabaab reportedly set up checkpoints of its own in the Mogadishu suburbs.⁹⁴³ On the night of 21 October 2024, federal forces launched a security campaign in the Hamar-Weyne district. They executed house-to-house searches and installed checkpoints to control traffic of vehicles and pedestrians, mainly targeting young males, some of whom were arrested.⁹⁴⁴

2.4. Hirshabelle

2.4.1. Hiraan

(a) Background

Hiraan region shares an international border with Ethiopia to the north and internal borders with Galgaduud region to the north-east, Middle Shabelle region to the south, Lower Shabelle region to the south-west, and Bakool region to the west. It is divided into three districts, Jalalaqsi, Bulo Burto and Belet Weyne, with Belet Weyne city as the region's capital city.⁹⁴⁵

Sources estimated the population of Hiraan at 504 816 (IPC),⁹⁴⁶ and 597 823 (IOM),⁹⁴⁷ respectively, in 2024. The main clan in Hiraan region is the Hawadle clan,⁹⁴⁸ a Hawiye sub-clan dominating the territory north-east of the Shabelle River, while other Hawiye sub-clans, such as Gaaljecel (or Gaalje'el) and Badicadde (or Badi Adde) dominate the territory south-west of the river.⁹⁴⁹ Smaller clans living in the region's northeast include Udeejeen, Faqi Omar and Faqi Muhmed (both Dir), Rer Aw Hassan and Makanne.⁹⁵⁰ For additional details on clans in Hiraan region, please see section 2.4.1.1 of the [EASO COI Report Somalia: Security Situation](#) (September 2021) and section 2.4.1 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

The Somali news portal Horn Observer noted in June 2024 that Hiraan region had been the 'epicenter' of the Ma'awisley clan militias' fight against Al-Shabaab over the previous two years. Many clan militia members, however, had left their positions, allowing Al-Shabaab to regain control over many rural villages and towns.⁹⁵¹

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025 and [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023, Al-Shabaab fully controlled the western part of Bulo Burto district, including the area between the South-West state border and close to the Shabelle River valley and up to the north as far as Buqda town. Other parts of Hiraan region were reported to be under mixed, unclear, and/or local control, except for the north-eastern part of the region. This region, as well as urban centres such as Belet Weyne city, Bulo Burto, and Jalalaqsi were reported to be under control of ATMIS/federal

⁹⁵¹ Horn Observer, Al-Shabaab begins massive extortion campaign amid attempts to mend ties with clans, 3 June 2024, [url](#)

government coalition forces.⁹⁵² Another map, developed by the Institute for the Study of War (ISW) and the Critical Threats Project (CTP) and based on zone assessments of April 2024, showed Al-Shabaab having control and support zones along the west bank of the Shabelle River between Jalalaqsi and Belet Weyne towns, except for an area around Bulo Burto town.⁹⁵³

The CTP explained that an initially successful counteroffensive launched by Somali forces in 2022 stalled in 2023 and left large Al-Shabaab support zones intact on the west bank of the Shabelle River, which the group used for new offensives aimed at re-establishing positions on the east bank.⁹⁵⁴ In February 2025, local media reported on heavy fighting between Al-Shabaab and government forces (supported by Ma'awisley clan militias) in the Jicibow area along the Shabelle River,⁹⁵⁵ in the Jinka Wabiga areas in eastern Hiraan,⁹⁵⁶ and in areas between Bulo Burto and Jalalaqsi.⁹⁵⁷

Djibouti ATMIS troops reportedly withdrew from two key military bases in Belet Weyne town in March 2024 over security concerns.⁹⁵⁸ Djibouti forces are also part of AUSSOM's - ATMIS' successor's - operations in Hiraan region.⁹⁵⁹ Ethiopian National Defense Forces (ENDF) briefly crossed into Hiraan region in summer 2024.⁹⁶⁰ According to the news site Mareeg, Ethiopia has 10 000 soldiers stationed in four of Somalia's regions, including in Hiraan region.⁹⁶¹

Conflict dynamics

A counter-offensive against Al-Shabaab by Somali government forces together with local clan militias in April 2023 targeting Belet Weyne was reportedly initially 'promising', but later slowed down due to lack of forces, inter-clan feuds and logistical difficulties.⁹⁶² Moreover, the political conflict between Hiraan governor Ali Jeyte Osman and the Hirshabelle administration led to a withdrawal of militia members, which slowed down the counter-offensive and allowed Al-Shabaab to regain territory.⁹⁶³ In September 2023, after long negotiations, President Hassan Sheikh Mohamud secured the support of the Hawadle community in Mahaas, Hiraan district, in the fight against Al-Shabaab. He appointed Ali Jeyte as the local Ma'awisley militia's

commander.⁹⁶⁴ The International Crisis Group recorded Al-Shabaab attacks in Hiraan district in August, and September 2023, as well as government operations against Al-Shabaab in December 2023, January and February 2024 (airstrikes), July 2024, September 2024, and January 2025.⁹⁶⁵ Al-Shabaab carried out a number of attacks involving improvised explosive devices (IEDs), such as in July and August 2023,⁹⁶⁶ and in July 2024,⁹⁶⁷ causing civilian casualties. Since late 2024, Hiraan region has reportedly become a ‘focal point’ in the federal government’s fight against A-Shabaab, with the support of local militias and international partners.⁹⁶⁸

The Heritage Institute for Policy Studies (HIPS) pointed to ongoing tensions between the Hawadle clan dominant in Hiraan and the Hirshabelle State administration over power-sharing arrangements. Tensions intensified in June 2023 when Hiraan’s governor Ali Jeyte Osman was removed from his position by Hirshabelle State president Ali Gudlawe. Previously, Osman had announced Hiraan’s secession from Hirshabelle State following a dispute over the collection of taxes.⁹⁶⁹ For further information on the roots of the conflict, please see section 2.4.1 of the [EASO COI Report Somalia: Security Situation](#) (September 2021). An agreement was reportedly negotiated in February 2025.⁹⁷⁰

SMN reported on inter-clan clashes between Hawadle and Abgal clan members along the border between Hiraan and Middle Shabelle in April 2024 and noted that the area had been a ‘hotspot’ for recent clan clashes, especially the Jalalaqsi and Moqokori districts.⁹⁷¹ Similar fights, rooted in disputes over land ownership and resource control, were recorded in Iji area in January 2024, in Halfooley village in July 2023,⁹⁷² December 2024,⁹⁷³ and February 2025,⁹⁷⁴ and in Jalalaqsi in November 2024.⁹⁷⁵ Inter-clan fights between Hawadle and Habar Gidir clans were reported in Mataban district in April 2023.⁹⁷⁶

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported 394 security incidents in Hiraan region, including battles, explosions, or other forms of remote violence and violence against civilians, causing 899 fatalities. [Figure 15](#) below shows their evolution per type across the

reference period.⁹⁷⁷ At district level, Bulo Burto recorded the most security incidents (185), followed by Belet Weyne (176 incidents) and Jalalaqsi (33 incidents).⁹⁷⁸

Figure 15. Evolution of ACLED security events coded ‘battles’, ‘explosions/remote violence’ and ‘violence against civilians’ between 1 April 2023 and 21 March 2025 in Hiraan.⁹⁷⁹

ACLED recorded 280 incidents involving Al-Shabaab (coded as either ‘Actor 1’, ‘Associated Actor 1’, ‘Actor 2’, or ‘Associated Actor 2’). Of these, 191 incidents involved both Al-Shabaab and the Military and Police Forces of Somalia. 11 incidents involved both Abgal and Hawadle Clan militias.

For incidents resulting in fatalities, including civilian deaths, please see below an illustrative and non-exhaustive list:

- eight family members were killed in a suspected Al-Shabaab landmine explosion in the village of Jicibow (Bulo Burto district) in July 2023;⁹⁸⁰
- eight people were killed in a suicide attack on a tea shop in Jalalaqsi district in August 2023, while more than 10 were injured. The attack reportedly targeted the district commissioner, whose bodyguard was among the victims;⁹⁸¹
- at least 36 people, including civilians and security forces were reportedly killed and more than 40 injured when a lorry filled with explosive devices exploded at a government checkpoint in Belet Weyne town on 23 September 2023;⁹⁸²

- at least six people, including children and security forces, were killed and more than 10 injured when a car bomb exploded near a market in Bulo Burto town on 28 September 2023;⁹⁸³
- at least four people, including three civilians and a soldier, were killed in a suicide car bombing targeting a military base in Belet Weyne town on 2 July 2024. Al-Shabaab later reportedly claimed responsibility for the attack;⁹⁸⁴
- a landmine attack on a restaurant in Belet Weyne town in July 2024 claimed two victims, a civilian and a soldier;⁹⁸⁵
- at least 20 people, including women and children, were killed in armed clashes between two clan militias in Halfooley in village in December 2024.⁹⁸⁶

Conflict-related displacement

Between 1 April 2023 and 16 March 2025, 10 542 individuals were newly displaced from Hiraan region due to conflict or insecurity, according to the UNCHR PRMN. Of this group, 6 701 individuals were displaced within the administrative region, while 3 841 individuals were displaced to other regions, including Banadir, Bari, Gedo, Lower Juba, Middle Shabelle, and Nugal regions. In the same period, 544 individuals arrived in Hiraan region from other regions, including Bakool, Bari, Galgaduud, Middle Shabelle, and Lower Shabelle.

Belet Weyne was the district most affected by arrivals from other regions (303 individuals) in the period from 1 April 2023 to 16 March 2025, as well as by arrivals from within the region (including within the district), namely 3 717 individuals. Jalalaqsi was the district most affected by individuals leaving for other regions (2 215) and for other locations within the region (3 280), respectively.⁹⁸⁷ For information on conflict-related displacement prior to April 2023, please see section 2.4.1 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

According to a report by the UN Secretary-General of October 2024, Al-Shabaab continued to abduct children for recruitment and use in several regions, including in Hiraan.⁹⁸⁸

In May 2023, the governor of Hiraan region blocked food and fuel transports into areas recaptured by Al-Shabaab,⁹⁸⁹ along the Shabelle River between Belet Weyne and Bulo Burto.⁹⁹⁰ The International Crisis Group (ICG) noted that, in the period from 2020 to 2023, Al-

⁹⁹⁰ ACLED, Somalia: Al-Shabaab Regains Lost Territories as Tax Dispute Halts Counter-Insurgency Operation, 2 June 2023, [url](#)

Shabaab increased attacks on food and water resources in Hiraan region as a ‘punitive measure’ for clans cooperating with government forces in the fight against Al-Shabaab.⁹⁹¹

In 2024, UNOCHA recorded the eviction of displaced persons from displaced sites in Belet Weyne, including 50 households in the period from 1 January to 31 March 2024 and 130 households (780 IDPs) in the period 1 April to 30 June 2024.⁹⁹² No evictions were recorded for the second half of 2024.

UNOCHA recorded 25 humanitarian access incidents in Hiraan region in 2024,⁹⁹³ such as, for example, the temporary detention of aid workers,⁹⁹⁴ or an assault by police officers on aid workers after a dispute at a checkpoint, leaving several aid workers injured in Belet Weyne.⁹⁹⁵ In 2023, the Safeguarding Health in Conflict Coalition recorded four cases of violence against or obstruction of healthcare by Al-Shabaab in the period from June to September, including the abduction of five NGO health workers and a civilian man in Hiraan region, who were released following the payment of a ransom.⁹⁹⁶

2.4.2. Middle Shabelle

(a) Background

Middle Shabelle region shares internal borders with Hiraan region to the north, Galgaduud region to the north-east, and Lower Shabelle and Banadir regions to the south-west. To the south, it borders the Indian Ocean. The region is divided into four districts: Adan Yabaal, Cadale, Balcad (also Bal’ad) and Jowhar, with Jowhar city serving as the capital of both Middle Shabelle region and Hirshabelle State.⁹⁹⁷

As of September 2024, sources varyingly estimated the population of Middle Shabelle at 1 013 352 (IPC),⁹⁹⁸ and 1 257 049 (IOM).⁹⁹⁹ The dominant clan in Middle Shabelle is the Abgal clan.¹⁰⁰⁰ Minority groups include the Somali Bantu in Jowhar district and others.¹⁰⁰¹ For more detailed information on clans in Middle Shabelle region, please see section 2.4.2.1 of the [EASO COI Report Somalia: Security Situation](#) (September 2021) and section 2.4.2 (a) of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

According to [Map 3 Somalia – Approximate Territorial Control as of 31 March 2025](#), most of Middle Shabelle was under 'mixed, unclear, and/or local control' involving Al-Shabaab and 'federal-aligned coalition' forces, except for the area along the coastline, which was fully controlled by federal and aligned forces. Al-Shabaab fully controlled a strip of land in the region's north-west, stretching between the town of Fidow and the border to Southwest State, as well as the area east of Adan Yabaal town. The town itself and other urban centres, such as Jowhar and Mahaday and Adale, were under control of federal-aligned coalition forces, while Fidow, El Baraf and Masajid Ali Gadud were under mixed or unclear control, involving Al-Shabaab and federal-aligned forces.¹⁰⁰² According to [Map 2 Somalia – Approximate Territorial Control as of 1 April 2023](#), most of Middle Shabelle was controlled by ATMIS/federal government coalition forces. Areas along the internal borders to Galmudug and South West states were under mixed or unclear control, involving Al-Shabaab and ATMIS/federal government coalition forces.¹⁰⁰³

CTP assessed, in a map of May 2024, that the northeastern and northwestern parts of Middle Shabelle region were Al-Shabaab-contested support zones. A small part of territory north of Jowhar along the border with Hiraaan was assessed an Al-Shabaab support zone, while the areas around the towns of Adale, Jowhar and Balcad, as well as the area east of Jowhar were targeted by Al-Shabaab attacks.¹⁰⁰⁴

SMN reported in November 2024 that Al-Shabaab controlled the road connecting Balcad to Jowhar, thus 'severely' restricting movement.¹⁰⁰⁵ As of February 2025, military operations against Al-Shabaab continued along the Shabelle River¹⁰⁰⁶ and in the Adan Yabaal district.¹⁰⁰⁷

AUSSOM police forces will reportedly be based in Jowhar,¹⁰⁰⁸ the operational base for Sector Five AUSSOM troops.¹⁰⁰⁹

Conflict dynamics

In April 2024, Al-Shabaab regained control over key strategic locations in Middle Shabelle, only a few months after having been driven out by the SNA. Corruption and low morale among government forces as well as inter-clan disputes between Hawadle and Abgal – stoked and

¹⁰⁰² PolGeoNow, Somalia Approximate Territorial Control, as of 31 March 2025, n.a.

¹⁰⁰³ PolGeoNow, Somalia Approximate Territorial Control, as of 1 April 2023, n.a.

¹⁰⁰⁸ VOA, AU, Somalia agree on troop numbers for new mission, 25 February 2025, [url](#)

¹⁰⁰⁹ AUSSOM, Military Component, n.d., [url](#)

exploited by Al-Shabaab – reportedly undermined the collaboration between government forces and clan militia in their fight against Al-Shabaab, allowing for the group’s return.¹⁰¹⁰

Local media reported on fighting between Al-Shabaab and government forces in Balcad district, including Al-Shabaab attacks on military checkpoints in April,¹⁰¹¹ and on military bases of FGS forces in August¹⁰¹² and November 2024, as well as airstrikes on the group’s strongholds in November,¹⁰¹³ and December 2024.¹⁰¹⁴ Run-Nirgod in Adan Yabaal district was reportedly recaptured by government forces in June 2024,¹⁰¹⁵ although Al-Shabaab’s presence in the area persisted.¹⁰¹⁶ International Crisis Group recorded military operations against Al-Shabaab in Yaagle in November and December 2024 and in Hawadley town (Balcad District) in December 2024.¹⁰¹⁷ In February 2025, Al-Shabaab attacked and recaptured several areas in Middle Shabelle, among them El Baraf, and others.¹⁰¹⁸

Violent conflicts were reported between the Abgal sub-clans Abdalle Arone and Mohamed Muse in July 2023,¹⁰¹⁹ but were reportedly resolved through a peace agreement in August 2024.¹⁰²⁰ The killing of at least six Hawadle soldiers in El Baraf district in Middle Shabelle by militia fighters in December 2024 was presumably linked to ongoing clan conflicts,¹⁰²¹ and led to the withdrawal of over 200 Hawadle soldiers from their positions.¹⁰²² Local media reported on violent inter-clan conflicts between Hawadle and Abgal over grazing land along the border of Hiraan and Middle Shabelle regions in November 2024¹⁰²³ and early 2025.¹⁰²⁴

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED recorded 424 security incidents in Middle Shabelle region (battles, explosions, or other forms of remote violence, and violence against civilians), causing 1 867 fatalities. [Figure 16](#) below shows their evolution per type across the

reference period.¹⁰²⁵ At district level, Balcad district recorded the highest number of security incidents between 1 April 2023 and 21 March 2025 (147 incidents), followed by Jowhar district (125 incidents), Adan Yabaal district (108 incidents), and Cadale district (44 incidents).¹⁰²⁶

Figure 16. Evolution of ACLED security events coded 'battles', 'explosions/remote violence' and 'violence against civilians' between 1 April 2023 and 21 March 2025 in Middle Shabelle.¹⁰²⁷

ACLED recorded 251 security incidents involving Al-Shabaab (coded as either 'Actor 1', 'Associated Actor 1', 'Actor 2', or 'Associated Actor 2') and the Military and Police Forces of Somalia. 23 incidents involved both, Abgal and Hawadle clan militias, including Abgal and Hawadle Sub-Clan militias.¹⁰²⁸

For incidents involving civilian fatalities or civilians being injured, please see below an illustrative and non-exhaustive list:

- several civilians were injured when a suicide car bomb exploded in Balcad town on 6 April 2024. The main market and the District Hospital were severely damaged.¹⁰²⁹
- five civilians were killed and eight injured in a roadside explosion in Balcad on 25 June 2024. The improvised explosive device (IED) was reportedly targeting ATMIS troops travelling behind the vehicle hit by the explosion;¹⁰³⁰

- seven civilians travelling on a minibus were killed and several others injured when a roadside bomb exploded on the Jowhar-Mogadishu road north of Balcad in August 2024.¹⁰³¹

Conflict-related displacement

Between 1 April 2023 and 16 March 2025, 66 238 individuals were newly displaced from Middle Shabelle region due to conflict or insecurity, according to the UNHCR PRMN. Of this group, 43 889 individuals were displaced within the region, while 22 349 individuals left for other regions, including Banadir, Bari, Gedo, Hiraan, and Nugal. In the same period, 1 068 individuals arrived in Middle Shabelle from other regions in a single case of displacement: all arrivals were recorded in March 2024, coming from Jalalaqsi, Hiraan region, and arriving in Jowhar district. At district level, Jowhar was also the district most affected by individuals leaving for other regions (10 496). Cadale was the district most affected by individuals arriving (38 087) and by individuals leaving (34 789) for other locations within Middle Shabelle (including movements within the district).¹⁰³² For information on conflict-related displacement prior to April 2023, please see section 2.4.2 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

The Somali Digest reported on mutual abductions between Al-Shabaab and Ma'awisley clan militias in Run-Nirgod district in June 2023, including of civilians suspected of having links with the respective other side. Moreover, Al-Shabaab reportedly briefly took control over a village in the district, setting houses on fire, destroying a water well and damaging the local mosque.¹⁰³³

Al-Shabaab's control over the Balcad-Jowhar road reportedly disrupted the delivery of aid as well as of daily supplies for the residents.¹⁰³⁴

UNOCHA recorded 14 humanitarian access incidents in Middle Shabelle region in 2024,¹⁰³⁵ including, for example, inter-clan violence preventing aid deliveries and the explosion of a vehicle-borne improvised explosive device (VBIED) near a hospital in Balcad damaging the infrastructure in the period from 1 April to 30 June 2024.¹⁰³⁶

2.4.3. Hirshabelle - Checkpoints and road security

In April 2023, local media reported on illegal checkpoints across Hirshabelle State,¹⁰³⁷ which were often set up by FGS troops and clan militias in areas re-captured from Al-Shabaab. Established along important transportation routes, these checkpoints had reportedly become ‘hubs of extortion’ for travellers.¹⁰³⁸ According to a report published by the RVI, 18 % of all of Somalia’s checkpoints were located in Hirshabelle State as of October 2023, predominantly in the Middle Shabelle region (76 %).¹⁰³⁹ For an overview on checkpoints at country level see section 1.7 and [Map 4](#).

According to a report by the University of Edinburgh’s Peace and Conflict Resolution Evidence Platform (PeaceRep) of January 2025, checkpoints in and near the towns of Belet Weyne and Jowhar – both located along important trade routes connecting their respective regions with the south – generated tens of thousands of dollars per week in taxation revenues, while distribution was unclear and control was in the hand of ‘key individuals’.¹⁰⁴⁰ The income from checkpoints in Hiraan was, according to the authors, ‘effectively a clan resource’ for the Hawadle or any other clan entity that had control over the respective checkpoint.¹⁰⁴¹

In April 2024, ACLED pointed to Al-Shabaab fighters patrolling along the Balcad-Mogadishu road and using hidden checkpoints to collect taxes from commercial and private transport, and to watch over the presence and activities of security forces in certain areas.¹⁰⁴² Local media reported on improvised explosive devices (IEDs) along the Balcad-Jowhar road, resulting in civilian casualties in September 2024.¹⁰⁴³ As of November 2024, Al-Shabaab reportedly continued to control the road connecting Balcad to Jowhar. Sporadic shooting and the threat of new attacks made the road ‘practically a no-go zone’, according to a resident of the area.¹⁰⁴⁴ The Horn Observer noted that, as of February 2025, Al Shabaab had flooded the main road between the cities of Jowhar and Mogadishu, forcing vehicles to take Al-Shabaab-controlled detours where ‘heavy extortion’ was imposed.¹⁰⁴⁵

Two strategic towns along the Main Supply Routes from Mahadaay to Adan Yabaal were reportedly re-captured by Al-Shabaab in April 2024.¹⁰⁴⁶

2.5. Galmudug

2.5.1. Galgaduud

(a) Background

Galgaduud (also Galgudud) shares an international border with Ethiopia to the north-west and borders the Indian Ocean to the south. The region shares internal borders with Hirshabelle State to the west and Mudug district to the north and east. Galgaduug is divided into five districts: Cabudwaaq, Cadaado, Dhuusamarreeb (which is also the name of the region's capital city), Ceel Buur (also El Buur, Celbur) and Ceel Dheer (also El-Dheer).¹⁰⁴⁷

Sources varyingly estimated Galgaduud's population at 812 638 (IPC),¹⁰⁴⁸ and 622 632 (IOM),¹⁰⁴⁹ as of September 2024. Main clans in Galgaduud are Habar Gidir (Hawiye) sub-clans, Suleiman (or Suliman, Saleban), Ayr, Duduble, as well as the Murasade (Hawiye) clan, and the Marehan (Darod) sub-clan.¹⁰⁵⁰ For additional details on clans in Galgaduud region, please see section 2.5.1.1 of the [EASO COI Report Somalia: Security Situation](#) (September 2021) and section 2.5.1 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

According to [Map 3 Somalia – Approximate Territorial Control as of 31 March 2025](#) and [Map 2 Somalia – Approximate Territorial Control as of 1 April 2023](#), Al-Shabaab controlled the southern-central part of Galgaduud region from the coastline up to the area north and north-east of Ceel Buur town. The remaining part of the region was marked as being under mixed, unclear and/or local control, except for the area along the border with Ethiopia. This area, including the region's capital city Dhuusamarreeb, was under the control of 'federal-aligned coalition' forces.¹⁰⁵¹

According to a map by the ISW and CTP showing Al-Shabaab's presence in the region as of June 2024, the southern and central parts of Galgaduud were assessed as being either Al-Shabaab control or support zones, except for small areas along the border with Hirshabelle State, which were assessed as Al-Shabaab-contested support zones, while the area around Ceel Dheer town in southern Galgaduud was marked as an Al-Shabaab attack zone.¹⁰⁵²

¹⁰⁵² ISW and CTP, Africa File: Houthi-Shabaab Weapons Deal; SFG Boost in Central Somalia, 13 June 2024, [url](#), Figure 2

Radio Dalsan described Galgaduud region in October 2024, as a longstanding battleground for control between government forces and Al Shabaab.¹⁰⁵³ Government forces and allied militias briefly captured Ceel Garas in September 2023 but withdrew a few days later. The town, situated along the Dhuusamarreeb-Ceel Buur road, has reportedly been controlled by Al-Shabaab for decades.¹⁰⁵⁴ In February 2025, Ma'awisley attacked Al-Shabaab positions in Ceel Buur district, one of the group's 'key operational hubs'¹⁰⁵⁵ and an area that had been 'under different levels of Al-Shabaab's influence' throughout the previous 15 years. The SNA had regained control over Ceel Buur briefly in August 2023 but had to withdraw after a few days.¹⁰⁵⁶

Conflict dynamics

The International Crisis Group recorded fights between government and allied forces and Al-Shabaab during the reference period.¹⁰⁵⁷ The frontline, however, remained 'oscillating' and – referring to the two strategically important towns of Budbud and Osweyne – the fight for control a 'perpetual game of territorial tug-of-war', according to the Somali Digest. The SNA briefly gained and lost control over Budbud in April 2023. In August 2023, the SNA regained control over Budbud and Osweyne but again had to withdraw a few days later.¹⁰⁵⁸ Fighting over Budbud continued to be reported in October 2024¹⁰⁵⁹ and January 2025.¹⁰⁶⁰ Similarly, in August 2023, government troops withdrew from Ceel Dheer and Masagaway – areas they had recaptured only a few months earlier.¹⁰⁶¹ However, fighting in Ceel Dheer district continued throughout 2023¹⁰⁶² and 2024,¹⁰⁶³ with Abgaal clan militias supporting the security forces.¹⁰⁶⁴ In Masagaway, intense fights re-erupted between government forces and Al-Shabaab in January 2025¹⁰⁶⁵ after over a year of 'stagnant' military operations against the armed group in the area.¹⁰⁶⁶ As of February 2025, fights also continued in the Jowle area, a strategic location linking Galgaduud and Mudug regions, according to SMN.¹⁰⁶⁷

¹⁰⁶⁷ SMN, Somali Army and Local Forces Conduct Operation, 11 Al-Shabaab Members Killed, 13 February 2025, [url](#)

Local media reported on deadly clashes between Marehan [Darod] and Dir clan militias in the Landhere area in April¹⁰⁶⁸ and in June 2024, presumably in the context of disputes over land.¹⁰⁶⁹ More than 10 people were killed in clashes between the Habar Gidir/Saleban clan and the Marehan/Wagar Dhac militia in September 2024.¹⁰⁷⁰ Several media reported on the killing of civilians, including children, presumably in the context of clan conflicts.¹⁰⁷¹

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

In the period from 1 April 2023 to 21 March 2025, ACLED recorded 411 security incidents in Galgaduud region, including battles, explosions or other forms of remote violence, and violence against civilians, causing 2 509 fatalities. [Figure 17](#) below shows their evolution per type across the reference period.¹⁰⁷² At district level, Ceel Dheer recorded the highest number of security incidents (187), followed by Dhuusamarreeb (78), Cabudwaaq (66), Ceel Buur (56) and Cadaado (24 incidents).¹⁰⁷³

Figure 17. Evolution of ACLED security events coded ‘battles’, ‘explosions/remote violence’ and ‘violence against civilians’ between 1 April 2023 and 21 March 2025 in Galgaduud.¹⁰⁷⁴

¹⁰⁷³ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#)

¹⁰⁷⁴ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#). Please note that data covering the entire month of March 2025 was not yet available during the drafting of this report.

In the period from 1 April 2023 to 21 March 2025, Al-Shabaab was involved in 203 security incidents against Forces of Somalia (Military Forces and Police Forces, including the Galmudug Police Force) (coded as either 'Actor 1', 'Associated Actor 1', 'Actor 2', or 'Associated Actor 2'). Moreover, Al-Shabaab was involved in 84 security incidents against clan militias (including Ma'awisley as well as Habar Gidir, Marehan and other clan and sub-clan militias and unidentified clan militias).¹⁰⁷⁵

In terms of clan conflicts, ACLED recorded 49 security incidents involving both Marehan and Dir clan and sub-clan militias in the period from 1 April 2023 to 21 March 2025. Marehan clan and sub-clan militias were also involved in 32 security incidents with Habar Gidir clan and sub-clan militias.

For incidents resulting in fatalities, including civilian deaths, please see below an illustrative and non-exhaustive list:

- five boys were reportedly killed by members of the Saleban sub-clan in a village near the border with Ethiopia in August 2023, possibly in the context of a clan conflict between Saleban and Marehan subclans;¹⁰⁷⁶
- a doctor and his brother, a religious teacher, were killed by armed clan militias in Ilix in December 2023.¹⁰⁷⁷ The perpetrators escaped but were later arrested and executed in June 2024.¹⁰⁷⁸
- a 12-year old boy from Mudug region was abducted and killed by members of a tribal militia from Galgaduud region in May 2024, allegedly as a revenge killing in the context of conflicts between communities from both regions;¹⁰⁷⁹
- at least 60 soldiers and militia fighters were killed in an Al-Shabaab attack on four military bases in Ceel Dheer in June 2024;¹⁰⁸⁰
- in Heraale area, three children died when a landmine exploded in the area where they were playing in July 2024;¹⁰⁸¹
- two brothers were killed by armed militias in Oodan area in August 2024. The incident is believed to be part of a conflict between Marehan and Dir clans.¹⁰⁸²

Conflict-related displacement

According to the UNHCR PRMN, 11 203 individuals were newly displaced from Galgaduud region due to conflict or insecurity in the period from 1 April 2023 to 16 March 2025. Among

¹⁰⁷⁵ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#)

¹⁰⁸² Hiiraan Online, Armed clan militia kill two brothers, injure family in Galgaduud region, 7 August 2024, [url](#)

them, 3 175 IDPs were displaced within Galgaduud region, while 8 028 IDPs were displaced to other regions, including Banadir, Bari, Gedo, Hiraan, Lower Shabelle, and Nugal. In the same period, 12 320 individuals arrived from other regions, including Mudug and Bakool region. The district most affected by these arrivals from other regions was Cadaado, with 9 710 individuals arriving. On the other hand, Ceel Buur was the district most affected by individuals leaving for other regions (4 361 individuals). This district was also the most affected by displacement within Galgaduud region, with 2 022 individuals arriving from other locations and 1 707 individuals leaving for other locations (including movements within the district).¹⁰⁸³ For information on conflict-related displacement in Galgaduud region prior to April 2023, please see section 2.5.1 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

A water well and a water delivery tanker were destroyed by Al-Shabaab in Ceel Garas town in September 2023. The group had reportedly put land mines and explosive devices at major facilities around the town, which previously had been recaptured by government forces.¹⁰⁸⁴ Another source pointed to contradicting claims, with Al-Shabaab declining responsibility, saying that the well was destroyed in a U.S. airstrike.¹⁰⁸⁵ Local infrastructure (homes and water holes) was damaged during violent clashes between clan militias in Landhere region in June 2024, according to Garowe Online.¹⁰⁸⁶

In February 2024, Al-Shabaab reportedly captured a UN helicopter that had made an emergency landing in territory controlled by the group, abducting and killing passengers.¹⁰⁸⁷

In June 2024, the Horn Observer reported on deadly clashes between Marehan and Dir clan militias in Heraale area and on claims by one of the groups to have closed the local airport.¹⁰⁸⁸ In October 2024, Hiiraan Online reported on the temporary closure of Galgaduud's Abudwak airport following threats from a militia group to target incoming planes. However, the source also quoted officials claiming that the closure was motivated by business and political interests.¹⁰⁸⁹

Humanitarian activities were restricted due to violent incidents in Dhuusamarreeb district in September 2023¹⁰⁹⁰ and increased insecurity in Cadaado district in the period from July to September 2024.¹⁰⁹¹ In total, UNOCHA recorded eight humanitarian access incidents in

2023¹⁰⁹² and five in 2024.¹⁰⁹³ Two members of an international NGO were killed in Galgaduud region in ambushes and inter-clan violence in the period from October to December 2024.¹⁰⁹⁴

2.5.2. Mudug

(a) Background

Mudug region is divided between Galmudug (Southern Mudug) and Puntland (Northern Mudug). The region borders Ethiopia to the northwest and the Indian Ocean to the east. It shares internal borders with Galgaduud region (Galmudug State) to the south and west, and with Nugal region (Puntland State) state to the north. Mudug is divided into five districts: Xarardheere (also Harardhere), Hoby, Gaalkacyo (also Galkayo), Galdogob and Jariiban. The region's capital is Gaalkacyo city,¹⁰⁹⁵ which is divided into two administrative areas controlled by Galmudug and Puntland, respectively.¹⁰⁹⁶

Sources varyingly estimated Mudug's population at 1 470 309 (IPC),¹⁰⁹⁷ and 613 906 (IOM),¹⁰⁹⁸ as of September 2024. Dominant clans are the Darod (Majerteen-Omar Mahmoud sub-clan) in the North, and the Hawiye (Habar Gidir Sa'ad sub-clan) in the South. Other clans include the Lelkase (Darod), Sheikhal, Dir and Marehan.¹⁰⁹⁹ For additional details on clans in Mudug region, please see section 2.5.2.1 of the [EASO COI Report Somalia: Security Situation](#) (September 2021) and section 2.5.2 of the [EUAA COI report on Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025, the northern and southern parts of Southern Mudug were under mixed, unclear and/or local control involving Al-Shabaab and 'federal-aligned coalition' forces. Mudug's central part was fully controlled by 'federal-aligned coalition' forces while Al-Shabaab fully controlled an area stretching from the border with Galgaduud region to the towns of Ba'adweyne, Amara and Qey'a. The latter two towns were shown as being controlled by Al-Shabaab. Ba'adweyne town was under mixed or unclear control, involving Al-Shabaab and 'federal-aligned coalition forces'. Northern Mudug was under control of 'autonomous armed forces (unionist)'. These forces and 'federal-aligned coalition' forces had mixed control over Gaalkacyo city.¹¹⁰⁰

¹¹⁰⁰ PolGeoNow, Somalia Approximate Territorial Control, as of 31 March 2025, n.a.

According to [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023, Ba’adweyne and Amara were under control of Al-Shabaab at the beginning of the reference period, while Qey’ad was under mixed or unclear control, involving Al-Shabaab and ‘federal-aligned coalition’ forces.¹¹⁰¹

Garowe Online noted, in May 2024, that Mudug region was ‘usually a hotbed’ for Al-Shabaab fighters, who kept regaining control of Xarardheere town, an area previously liberated by government forces.¹¹⁰² Operations against Al-Shabaab in the area continued as of September 2024.¹¹⁰³ As of February 2025, government forces and aligned forces reportedly regained control over ‘key areas’ in southern Mudug that had been controlled by Al-Shabaab ‘for an extended period’.¹¹⁰⁴

Conflict dynamics

Several sources reported on operations by government and allied forces against Al-Shabaab in the second half of 2023¹¹⁰⁵ and early 2024.¹¹⁰⁶ In the period 9-14 March 2024, however, following the withdrawal of government and allied forces, Al-Shabaab reportedly managed to regain control over several areas in Mudug, including Ba’adweyne, Caad, Camaara, and Xiinlabi.¹¹⁰⁷ According to local sources, the government forces’ initial successes slowed down due to logistical challenges, difficulties in holding recaptured territories, the armed group’s persistence,¹¹⁰⁸ but also low morale, unpaid salaries, corruption and internal political discord among other reasons.¹¹⁰⁹ Operations against Al-Shabaab continued to be reported in September¹¹¹⁰ and October 2024.¹¹¹¹ In early 2025, government forces launched operations together with local forces targeting Al-Shabaab positions in Camaara in January¹¹¹² and in Ba’adweyne in February 2025.¹¹¹³

Halqabsi News reported in January 2024 on a suspected revenge killing in western Mudug in the context of longstanding clan disputes involving clans in Mudug and Galgaduud.¹¹¹⁴ Violent clashes between Sa’ad and Lelkase sub-clans over grazing land were recorded in Galdogob

district in October 2023,¹¹¹⁵ and June¹¹¹⁶ and December 2024.¹¹¹⁷ Deadly clan conflicts over resources were also reported between Sheikhal and Dir in Jariiban district¹¹¹⁸ and between clan militias from Adado and Gaalkacyo in October 2024.¹¹¹⁹

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

In the period from 1 April 2023 to 21 March 2025, ACLED recorded 233 security incidents in Mudug region, including battles, explosions, or other forms of remote violence and violence against civilians, causing 1 841 fatalities. [Figure 18](#) below shows their evolution per type across the reference period.¹¹²⁰ At district level, the highest number of incidents was recorded in Xarardheere (103 incidents), followed by Gaalkacyo (62), Hobyso (40), Galdogob (19) and Jariiban (9 incidents) in the period between 1 April 2023 and 21 March 2025.¹¹²¹

Figure 18. Evolution of ACLED security events coded ‘battles’, ‘explosions/remote violence’ and ‘violence against civilians’ between 1 April 2023 and 21 March 2025 in Mudug.¹¹²²

Al-Shabaab was involved in 110 security incidents against Forces of Somalia (Military and Police Forces, including the Puntland Police Force and Puntland Prison Guards) (coded as either ‘Actor 1’, ‘Associated Actor 1’, ‘Actor 2’, or ‘Associated Actor 2’). Moreover, Al-Shabaab

was involved in 53 security incidents against clan militias. With regard to inter-clan conflicts, ACLED recorded 37 security incidents involving Habar Gidir clan and sub-clan militias and Lelkase clan militia and 11 incidents involving Sheikhal and Dir clan militias.¹¹²³

For incidents involving civilians, please see below an illustrative and non-exhaustive list:

- a drone strike targeting Al-Shabaab fighters reportedly killed five civilians in El Lahelay village in September 2023;¹¹²⁴
- five members of a family were killed and six others injured in a suspected revenge attack in western Mudug in January 2024;¹¹²⁵
- 20 civilians, including women and children, were kidnapped by armed militias in Hiiglo-Ceelle village in February 2024;¹¹²⁶
- six civilians, including three children, were killed in deadly clan clashes in western Mudug in June 2024.¹¹²⁷

Conflict-related displacement

According to a report by the UN Secretary-General of September 2024, covering the period from 24 May to 20 September 2024, displacement caused by clan violence remained widespread, notably in Mudug and Galgaduud regions, among others.¹¹²⁸ UNHCR noted that a renewed outbreak of clan violence in Galdogob district led to the displacement of 8 010 individuals in December 2024.¹¹²⁹

According to the UNHCR PRMN, 30 787 individuals were newly displaced from Mudug region due to conflict or insecurity in the period from 1 April 2023 to 16 March 2025. Among them, 16 285 individuals were displaced within Mudug region, while 14 502 individuals left for other regions, including Banadir, Bari, Galgaduud, and Nugal. No individuals arrived from other regions during the reporting period. The district most affected by individuals leaving for other regions was Xarardheere (14 070 individuals). In terms of displacement within Mudug region (including movements within the district), Gaalkacyo was the district most affected by arrivals, with 11 725 individuals arriving from other locations, as well as by departures, with the same number (11 725) of individuals leaving to other locations (including one incident involving the departure of 11 400 individuals, recorded in December 2024).¹¹³⁰ For information on conflict-related displacement in Mudug region prior to April 2023, please see section 2.5.2 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

UNOCHA recorded 15 incidents of humanitarian access restraints in Mudug region in the period from 1 April to 31 December 2023,¹¹³¹ and 17 incidents of humanitarian access restraints in 2024. Incidents included, among others, the temporary suspension or revocation of licenses,¹¹³² the carjacking of a humanitarian organisation's car and clan hostilities that disrupted humanitarian operations.¹¹³³ A doctor was reportedly shot dead in his health centre in an alleged revenge killing in Gaalkacyo town in September 2023.¹¹³⁴

A 'vital' water well was reportedly destroyed during violent clashes between two clans of the Majerteen sub-clan in Xarfo town in Mudug region in December 2024. Due to the violence, many of the local population fled and schools remained closed.¹¹³⁵

UNHCR noted that inter-clan fighting in Galdogob district in June 2024 led to the displacement of thousands of people, disrupting children's education and restricting the local population's freedom of movement.¹¹³⁶ Radio Ergo reported on displaced families in southeastern Mudug lacking the money to buy food or water while host communities were overburdened.¹¹³⁷

2.5.3. Galmudug - Checkpoints and road security

In Galmudug, the relative scarcity of checkpoints can be attributed in part to the success of the local actors revenue sharing mechanism¹¹³⁸ and in part to under-reporting issues.¹¹³⁹ For an overview on checkpoints at country level see section [1.7](#) and [Map 4](#).

UNOCHA reported on humanitarian partners in Xarardheere who experienced 'extended' delays at checkpoints, demands for bribes and other protection concerns.¹¹⁴⁰ In another case, a humanitarian team was reportedly stopped at a checkpoint by clan militia and denied passage while the militia was looking for members of another clan.¹¹⁴¹ In February 2025, government forces and allied militias attacked an Al-Shabaab-controlled checkpoint in Xarardheere district that was allegedly used to extort money from civilians and travellers.¹¹⁴²

¹¹⁴² Hiiraan Online, Somali forces kill six Al-Shabaab militants in a military operation in Harardhere district, 21 February 2025, [url](#)

In September 2023, Al-Shabaab claimed responsibility for two car bomb attacks in Dhuusamarreeb, targeting the road to the town's main airport and a checkpoint within the town. The attack happened while President Hassan Sheikh Mohamud was residing in the town to continue the mobilisation against Al-Shabaab.¹¹⁴³ In July 2024, Al-Shabaab stole arms and ammunition in an attack on a government-escorted convoy in Abudwak district near the Ethiopian border. The weapons had been smuggled into the country and had been seized by the government forces.¹¹⁴⁴ In July 2024, the SNA reportedly cleared the road between Mesagaway and Barak-Sheikh Amir in Galgaduud region from landmines planted by Al-Shabaab.¹¹⁴⁵ Mine clearing operations by government forces were also taking place in Ceel Dheere district in December 2023,¹¹⁴⁶ and on the roads along the Hirshabelle-Galgaduud border regions in May 2024.¹¹⁴⁷ Several local media reported on landmine explosions killing or injuring civilians, including near Galcad in July 2023,¹¹⁴⁸ near Ceel Dheer district,¹¹⁴⁹ and in the Heraale area in July 2024.¹¹⁵⁰

2.6. Puntland

2.6.1. Nugal

(a) Background

Nugal shares internal borders with Mudug, Bari and Sool regions and an international border with Ethiopia. To the east, it borders the Indian Ocean. The region is divided into three districts: Burtinle, Eyl and Garowe. Garowe is also the name of the region's capital city.¹¹⁵¹

IPC estimated Nugal region's population at 631 810 as of September 2024.¹¹⁵² IOM, on the other hand, has a much lower estimate at 310 658 as of September 2024.¹¹⁵³ Puntland's dominant clans are three sub-clans of the Majeerteen/Mohamoud Saleban, including the Isse Mohamud who live mostly in Nugal region.¹¹⁵⁴ For additional information on clans in the Nugal region, please see section 2.6.1.1 of the [EASO COI Report Somalia: Security Situation](#) (September 2021) and section 2.6.1 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

[Map 3](#) displaying the approximate territorial control in Somalia as of 31 March 2025, showed no presence of Al-Shabaab in Nugal region. The map indicated the presence of 'autonomous armed forces' across the region. A small area along the Galmudug-Puntland border running through Mudug region was marked as being under mixed/unclear, and/or local control.¹¹⁵⁵ The map showed no changes compared to the situation as of April 2023 ([Map 2](#)).¹¹⁵⁶ However, in August 2024, local media reported on increased security measures following the reported infiltration of suspected Al-Shabaab militants in Garowe.¹¹⁵⁷ For further information on relevant actors in Nugal region, please see section 2.6.1.2 of the [EASO COI Report Somalia: Security Situation](#) (September 2021) and section 2.6.1 (b) of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Conflict dynamics

2023 was dominated by political conflicts between Puntland's government and president and his opponents over electoral and constitutional changes.¹¹⁵⁸ A planned change to the electoral system from a clan-based electoral model to universal suffrage was met with resistance from opponents who saw it as an attempt by Puntland's president Said Abdullahi Deni to prolong his stay in power beyond the presidential elections scheduled for January 2024. According to the clan-based model, presidency traditionally rotated between the state's three main sub-clans and President Deni, an Osman Mohamud, was expected to be followed by a member of the Isse Mohamud clan. Consequently, resistance was particularly strong in Nugal region, according to the International Crisis Group.¹¹⁵⁹ Election-related disruptions and violent incidents were reported in May,¹¹⁶⁰ and June 2023,¹¹⁶¹ with security forces splitting along party/clan affiliation. Danab troops (a special unit of the armed forces¹¹⁶²), reportedly split from the government forces over the dispute, siding with Issa Mohamud-linked opposition.¹¹⁶³ Existing tensions increased in November 2023, with security forces from other regions reportedly arriving in Garowe.¹¹⁶⁴ President Deni was eventually re-elected in the January 2024 polls, held under the clan-based indirect model.¹¹⁶⁵

¹¹⁶⁵ International Crisis Group, Lessons from the Missed Opportunity in Puntland's Polls, 12 March 2024, [url](#)

Political conflicts between the Puntland administration and the federal government, including over the latter’s alleged support for the opposition in Puntland,¹¹⁶⁶ escalated at the end of March 2024, when Puntland’s government withdrew its recognition of the federal government following changes to the country’s constitution.¹¹⁶⁷

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

In the reference period 1 April 2023 to 21 March 2025, ACLED recorded 51 security incidents in Nugal region, including battles, explosions, or other forms of remote violence and violence against civilians, causing 54 fatalities. [Figure 19](#) below shows their evolution per type across the reference period. At district level, the (by far) highest number of incidents was recorded in Garowe (41 incidents), followed by Eyl (7) and Burtinle (3).¹¹⁶⁸

Figure 19. Evolution of ACLED security events coded ‘battles’, ‘explosions/remote violence’ and ‘violence against civilians’ between 1 April 2023 and 21 March 2025 in Nugal.¹¹⁶⁹

In terms of incidents involving the different factions of security forces, the Puntland Security Force (Military Force) was involved in three incidents with the Puntland Police Force (coded as either ‘Actor 1’, ‘Associated Actor 1’, ‘Actor 2’, or ‘Associated Actor 2’), in one incident with the Puntland Maritime Police Force and in one incident with unidentified militia. The Puntland

¹¹⁶⁹ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#). Please note that data covering the entire month of March 2025 was not yet available during the drafting of this report.

Police Force was involved in seven incidents with unidentified militia. Various clan militias were involved in 18 incidents.¹¹⁷⁰

For incidents involving civilian fatalities, please see below an illustrative and non-exhaustive list:

- at least 26 people, including an unspecified number of civilians, were killed in clashes between government forces and clan militias linked to political opposition in Garowe in June 2023;¹¹⁷¹
- one civilian was killed during clashes between government and opposition forces in Garowe in November 2023;¹¹⁷²
- one civilian was killed and two others injured during a security operation in Garowe in June 2024.¹¹⁷³

Conflict-related displacement

According to UNHCR PRMN data, 48 200 individuals were newly displaced from Nugal region due to conflict or insecurity in the period from 1 April 2023 to 16 March 2025. Of this number, 46 235 individuals were displaced within Nugal region, while 1 965 individuals left for other regions, including Bari, Sanaag and Sool. All individuals leaving Nugal for other regions were from Nugal's Garowe district. In the same period, 7 357 individuals were recorded to have arrived in Nugal region from other regions. The district most affected by arrivals from other regions was Garowe, with 6 099 individuals arriving. Garowe was also the district most affected in terms of displacement within Nugal region: 37 500 individuals were recorded to have arrived from other locations (including movements within the district).¹¹⁷⁴ For information on conflict-related displacement in Nugal region prior to April 2023, please see section 2.6.1 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

UNOCHA recorded nine humanitarian access incidents in Nugal region in 2024,¹¹⁷⁵ and 20 incidents in the period from April to December 2023.¹¹⁷⁶ Incidents include, for example, the hijacking of a truck transporting humanitarian supplies,¹¹⁷⁷ or delays in the processing of imported aid supplies.¹¹⁷⁸

Schools in Garowe were closed in November 2023 in the context of increasing political tensions and the mobilisation of forces,¹¹⁷⁹ while local businesses and transport services faced

disruptions.¹¹⁸⁰ The Horn Observer noted that schools in Garowe remained inaccessible for IDP children as they could not afford the fees,¹¹⁸¹ while Radio Ergo reported on IDPs being evicted from Jillab IDP camp for failure to pay monthly rent.¹¹⁸²

2.6.2. Bari

(a) Background

Bari borders the Indian ocean to the east and the Gulf of Aden to the north. It shares internal borders with Nugal region to the south and Sool and Sanaag to the east. The region is divided into six districts: Qardho, Bandarbeyla, Iskushuban, Calula, Qandala, and Bossaso. The region's capital is the coastal city of Bossaso (also Boosaaso, Bosaso), situated on the Gulf of Aden.¹¹⁸³

IPC estimated Bari's population at 1 232 231 as of September 2024.¹¹⁸⁴ In contrast, IOM estimated the region's population much lower at 723 755.¹¹⁸⁵ The region's main clan is the Osman Mahmud sub-clan of the Majerteen clan; the Ali Suleman clan also is very relevant politically in the region.¹¹⁸⁶ For more information on clans in the Bari region, please see section 2.6.2.1 of the [EASO COI Report Somalia: Security Situation](#) (September 2021) and section 2.6.2 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

[Map 3](#) indicated Al-Shabaab's presence in the Al Madow mountains to the west, and the presence of Al-Shabaab or the Islamic State in Somalia (ISS) in the Al Miskaad mountains to the east of Bossaso city. Possible ISS influence was also indicated in central and northeastern Bari. 'Autonomous armed forces (unionist)' were present across Bari region including its main urban centres, except for Habley, which was shown as under mixed, unclear and/or local control.¹¹⁸⁷ In contrast, as of April 2023 ([Map 2](#)), the Al Miskaad mountains were assessed to be under mixed control of Al-Shabaab and the ISS. The remainder of the region was controlled by 'autonomous armed forces (unionist)', as were most of the main urban centres, with the exception of Timirshe (partially controlled by the ISS), Turmasale (ISS) and Dhadar (Al-Shabaab).¹¹⁸⁸

Conflict dynamics

The Somali Digest reported in April 2024 that the ISS had taken control over the Al Miskaad (also Calmiskaad) Mountains from Al-Shabaab after several years of fighting. However, the regional government continued to control access roads and the nearby population centres.¹¹⁸⁹ According to an October 2024 UN Security Council report, Al-Shabaab remained present in the western Al Madow mountains while the ISS did not control any population centres but had established bases in four of Bari's districts: Balidhidin, Hunbays, Iskushuban, and Qandala,¹¹⁹⁰ the home district of the Ali Saleban clan, of which also ISS leader Abdulqadir Mumin was a member.¹¹⁹¹ Both groups were running extortion schemes in Bossaso city.¹¹⁹²

The International Crisis Group noted that the ISS had become a 'key component' of the global IS network, financing other branches with funds gathered through extortion,¹¹⁹³ tax collection,¹¹⁹⁴ and gold mining,¹¹⁹⁵ while ISS leader Mumin reportedly rose to the ranks of IS' global leader. Claims that he was killed in an U.S. airstrike in May 2024 were not confirmed.¹¹⁹⁶ The UN Analytical Support and Sanctions Monitoring Team on ISIL (Daesh) and Al-Qaida highlighted in a report of February 2025 that, following the attack, ISS' operational capabilities had 'evolved' and that the group was using/testing unmanned aerial vehicles for reconnaissance and the deployment of explosives.¹¹⁹⁷ Following an ISS car bomb attack on Puntland security forces in Dharjaale in December 2024, where at least 18 soldiers were killed and 30 injured, Puntland authorities launched a counteroffensive against the ISS,¹¹⁹⁸ the so-called operation 'Hilaac' (lightning).¹¹⁹⁹ Moreover, airstrikes on ISS positions were reported in January,¹²⁰⁰ February,¹²⁰¹ and March 2025.¹²⁰² On 10 February 2024, ISS launched a major suicide attack in the vicinity of Hararyo area. 27 soldiers and about 70 fighters were killed in the attack.¹²⁰³ Puntland president Deni claimed in March 2025 that ISS and Al-Shabaab had been expelled from Bari region, and that both groups had ceased to hold 'operational control' in Bossaso,¹²⁰⁴ while Hiiraan Online cited regional authorities saying that ISS had regrouped in Togga Miraale valley near Bossaso city.¹²⁰⁵

¹²⁰⁵ Hiiraan Online, U.S. airstrikes target ISIS militant group in Somalia's Puntland State, 29 March 2025, [url](#)

The October 2024 UN Security Council report pointed to the smuggling of weapons between Puntland and Yemen and in this context to the seizure of arms in Bossaso in May and August 2024, as well as to a re-emergence of piracy off the coast of Puntland.¹²⁰⁶

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

In the reference period from 1 April 2023 to 21 March 2025, ACLED recorded 191 security incidents in Bari region, including battles, explosions, or other forms of remote violence and violence against civilians, resulting in 830 fatalities. [Figure 20](#) below shows their evolution per type across the reference period. At district level, the highest number of incidents was recorded in Qandala (102), followed by Bossaso (64), Iskushuban (14), Gardho (8), Calula (2) and Bandarbeyla (1 incident).¹²⁰⁷

Figure 20. Evolution of ACLED security events coded ‘battles’, ‘explosions/remote violence’ and ‘violence against civilians’ between 1 April 2023 and 21 March 2025 in Bari.¹²⁰⁸

The Military Forces of Somalia (including Puntland Dervish Force, Puntland Intelligence Agency and Puntland Security Force) were involved in 105 incidents with the ISS (coded as either ‘Actor 1’, ‘Associated Actor 1’, ‘Actor 2’, or ‘Associated Actor 2’), and in five incidents with Al-Shabaab. Moreover, they were involved in seven incidents with unidentified groups (including unidentified armed groups, unidentified clan militia, and unidentified military forces).

¹²⁰⁷ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#)

¹²⁰⁸ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#). Please note that data covering the entire month of March 2025 was not yet available during the drafting of this report.

The Puntland Maritime Police Force was involved in 97 incidents with the ISS, causing 676 fatalities.¹²⁰⁹

For incidents involving civilian fatalities, please see below an illustrative and non-exhaustive list:

- several civilians, including women and children, were killed in an ISS attack on a military base in Dharjaale on 31 December 2024. While military facilities were targeted, several civilians were killed too in the suicide bombing;¹²¹⁰
- at least four civilians were accidentally killed by the strike of an unidentified military drone in Qandala district in January 2025. The drone had been targeting ISS positions in the area.¹²¹¹

Conflict-related displacement

UNHCR PRMN data indicated that 15 778 individuals were newly displaced from Bari region due to conflict or insecurity in the period from 1 April 2023 to 16 March 2025. Almost all of them, 15 749 individuals, were displaced within Bari region, while a small number, 29 individuals (all of them from Bossaso), left for other regions, including Nugal and Hiraan. In the same period, 6 637 individuals were recorded to have arrived in Bari region from other regions. The district most affected by arrivals from other regions was Bossaso (4 842), while the district most affected by arrivals from other locations within Bari region was Qandala district (5 881 individuals), followed by Iskushuban (4 567 individuals), including movements within the district.¹²¹² For information on conflict-related displacement in Bari region prior to April 2023, please see section 2.6.2 of the [EUAA COI report on Somalia – Security Situation](#) (February 2023).

Other impacts on civilian life

Several hospitals in Bossaso city shut down over extortion demands by the ISS.¹²¹³ Similarly, local businesses reportedly faced extortion demands and threats against their business.¹²¹⁴ Horseed Media quoted regional police saying that most businesses, NGOs and charities in the region were extorted by ‘terrorist groups’, and those who refused were often killed or met with violence,¹²¹⁵ including IED and grenade attacks on their businesses.¹²¹⁶

¹²¹⁶ UNSC, Report of the Panel of Experts on Somalia pursuant to resolution 2713 (2023), S/2024/748, 28 October 2024, [url](#), para. 48

Hiiraan Online reported in March 2025 that due to the ongoing conflict between Puntland security forces and the ISS, local farmers cultivating frankincense trees were unable to reach their trees as they feared getting caught in the crossfire or bombings. Without the possibility to earn an income with the trees' harvest, many lacked the funds to pay for food, water or their children's school.¹²¹⁷

UNOCHA recorded three humanitarian access incidents (such as, for example, attacks on humanitarian personnel) in Bari region in 2024,¹²¹⁸ and an equal number of such incidents in the period from April to December 2023.¹²¹⁹ The driver of a car belonging to a local humanitarian organisation, the Horn of Africa Integrated Development Activities (HIDA), was injured when a landmine exploded in the Timirshe area in Iskushuban district in March 2024. The attack was reportedly targeting HIDA's director, who had been threatened in the past, but who remained unharmed.¹²²⁰

2.6.3. Puntland - Checkpoints and road security

Checkpoints in Puntland are likely to be many more than those shown on [Map 4](#), according to an interview with P. Schouten in March 2025.¹²²¹ For an overview on checkpoints at country level see section [1.7](#).

Puntland security forces intercepted an illegal arms and ammunition transport on the way to Bossaso city in May 2024;¹²²² they also confiscated five 'suicide' drones during a raid on a convoy on the road between Garowe and Gaalkacyo in August 2024, detaining seven individuals suspected of having links to Al-Shabaab or the ISS.¹²²³ Police forces and suspected militiamen clashed at a checkpoint in Garowe in March 2025;¹²²⁴ a bomb attack on a police checkpoint in Bossaso city a month earlier had reportedly failed.¹²²⁵

In March 2025, an ambulance and another car transporting Puntland soldiers were targeted by an ISS roadside bomb, 'causing casualties'.¹²²⁶ In the context of the counteroffensive against the ISS in early 2025, Hiiraan Online cited regional authorities saying that ISS fighters from Al Miskaad mountains had regrouped in Togga Miraale valley near Bossaso city and mined access routes to the valley.¹²²⁷

¹²²⁷ Hiiraan Online, U.S. airstrikes target ISIS militant group in Somalia's Puntland State, 29 March 2025, [url](#)

In the context of the dispute between Puntland president Deni and the political opposition, opposition forces reportedly blocked roads, stopped the transport of electoral material,¹²²⁸ and seized a checkpoint in Garowe city ahead of his inauguration in January 2024.¹²²⁹

2.7. Sool, Sanaag and SSC-Khatumo

2.7.1. Sool

(a) Background

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025,¹²³⁰ and [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023,¹²³¹ Sool region is part of the areas disputed between Somaliland and Puntland. Sool shares an international border with Ethiopia to the south and internal borders with Sanaag region to the north, Togdheer region to the west, and Nugal and Bari regions to the east. It is divided into four districts, Taleex (also Taleh), Xudun (also Hudun), Caynabo (also Aynabo or Ainado) and Laas Caanood (also Laas Anood). The capital of Sool is Laas Caanood. According to the reference map, Togdheer region's Buhodle (or Buuhoodle) district and parts of Burco district are part of the disputed areas.¹²³²

As of September 2024, sources variously estimated the population of Sool region at 548 975 (IPC),¹²³³ and 84 024 (IOM).¹²³⁴ Most of Sool's population belongs to the Dhulbahante clan,¹²³⁵ which is part of the Darod family. The Dhulbahante are not affiliated with Somaliland's dominant Isaaq clan.¹²³⁶ A map produced by the Max Planck Institute and published by Somalia expert Markus Hoehne in a February 2023 article on crisis in Sool region shows Dhulbahante territories in eastern Sool and also in Togdheer's Buhodle district.¹²³⁷ Members of the Dhulbahante clan refer to Togdheer region as Cayn.¹²³⁸ The map also shows a smaller Warsangeli (Darod) territory in the northeastern area bordering Puntland's Bari region and Sanaag region.¹²³⁹

¹²³⁹ Hoehne, M.V., Crisis in Lasanod: Border Disputes, Escalating Insecurity and the Future of Somaliland [Map], African Arguments, 6 February 2023, [url](#)

On 6 February 2023,¹²⁴⁰ elders and leaders established the Sool, Sanaag, and Cayn-Khatumo (SSC-Khaatumo, SSC-K) administration,¹²⁴¹ representing the Dhulbahante clan along with the Fiqishine and Madiban clans.¹²⁴² SSC-K led efforts to remove Somaliland forces in August 2023 and has since declared its allegiance to Somalia rather than Somaliland.¹²⁴³ In October 2023, the Federal Government of Somalia formally recognised the SSC-K administration.¹²⁴⁴ The leader of SSC-K is Abdikhkadir Ahmed Aw Ali Firdhiye.¹²⁴⁵

Events and incidents taking place in Buhodle district are covered in this section and not in in the section [2.8.3 Togdheer](#) (Somaliland).

For additional details on clans in Sool region, please see section 2.6.3.1 of the [EASO COI Report Somalia: Security Situation](#) (September 2021) and section 2.7.1 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors, notably SSC-Khatumo

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025, Al-Shabaab did not control any territory in the Sool region,¹²⁴⁶ which is consistent with the situation reported in [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023.¹²⁴⁷ As of 31 March 2025, the area between Gumays, Buhodle, and Tukaraq, including Laas Caanood, was reported as the 'core control zone' of SSC-K (marked as being controlled by 'Autonomous armed forces (unionist)'). These towns were also directly controlled by these 'autonomous armed forces'. The 'estimated area of political influence' of SSC-K further included Taleh and Hudun. Meanwhile, Qorilugud and Oog were reportedly under the control of the Somaliland administration, and the border areas west of Xudun, Gumays, and Buhodle were under mixed control between the 'Autonomous armed forces (unionist)' and the 'Somaliland administration (separatist)'.¹²⁴⁸

In contrast, as of 1 April 2023, Gumays and the Goja'ade base near Laas Caanood were reported to be under the control of the Somaliland administration. The towns of Buhodle,

Xudun, and Taleex, as well as the area stretching from the western border to Laas Caanood, Tuqaraq, and Taleex, were under mixed control.¹²⁴⁹

Conflict dynamics

Please also see the paragraph on ‘SSC-Khatumo versus Somaliland’ in section [1.3 Conflict layers and main developments](#) of this report for an overview of the conflict dynamics in Sool. For background information and additional details see the [EUAA COI Report Somalia: Security Situation](#) (February 2023),¹²⁵⁰ and the [EASO COI report Somalia: Actors](#) (July 2021).¹²⁵¹

Between February and August 2023, there was intense fighting between Somaliland forces and Dhulbahante clan militias, supported by allied clans.¹²⁵² According to a June 2023 article by Markus Hoehne, from March 2023 onward, the conflict around Laas Caanood involved fighters from Dhulbahante, Warsangeli, Majeerteen and other clans (the Harti clan coalition) on one side and clans like Ise and Gadabursi besides Isaaq clans on the Somaliland army side. The majority of the Harti clan coalition, however, belonged to the Dhulbahante clan.¹²⁵³ In May 2023, for example, fighting took place around the villages of Dhabansaar and Samakab.¹²⁵⁴ Multiple clashes and mortar exchanges were reported from 24 to 27 June 2023 in and around Laas Caanood.¹²⁵⁵ In August 2023, SSC-K launched a counteroffensive against Somaliland forces, driving them out of Laas Caanood.¹²⁵⁶ A new frontline emerged between Oog and Guumays in western Sool, aligning roughly with the boundary between the Isaaq and Dhulbahante clans.¹²⁵⁷ Troops remained deployed along the frontlines and both sides sent reinforcements to the area in September 2023.¹²⁵⁸ In December 2023, Somaliland forces and Dhulbahante clan militias continued to strengthen their positions near the frontline in Sool region, raising concerns about renewed fighting.¹²⁵⁹ Reportedly, in the first half of 2024, the situation in Sool remained calm, despite troop movements of Somaliland forces and Dhulbahante clan militias along the frontline.¹²⁶⁰

In January 2025, fighting between Somaliland and SSC-Khaatumo forces resumed in Sool, with clashes erupting in Guumays, in Oog area. The clashes resulted in casualties, though exact numbers were unclear.¹²⁶¹ Ongoing military movements had heightened tensions,

sparkling fears of the conflict spreading further.¹²⁶² Early March 2025, members of Habar Je'lo (sub-clan of the Isaaq) and Dhulbahante clans clashed in the disputed village of Buq Dharkayn. The confrontation involved both government forces and troops from SSC-Khatumo. The violence led to numerous casualties, with dozens reported killed or injured.¹²⁶³

Other incidents involving violence between clan militias were also reported in Sool region. In November 2023, violence between militias of Habar Je'lo and Dhulbahante clans was reported¹²⁶⁴ near Oog in the areas of Buq Dharkayn and Maygaale.¹²⁶⁵ Further clashes in the region between Habar Je'lo and Dhulbahante clan members were reported in early November 2024, this time in Qorilugud and Gadgad, in Togdheer's Buhodle district.¹²⁶⁶

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported 126 security incidents in Sool region (including Buhodle district), including battles, explosions, or other forms of remote violence and violence against civilians, causing 334 fatalities. [Figure 21](#) below shows their evolution per type across the reference period. At district level, Laas Caanood recorded the most security incidents (59), followed by Buhodle district (53 incidents) and Caynabo district (14 incidents) between April 2023 and 21 March 2025.¹²⁶⁷

¹²⁶⁷ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#)

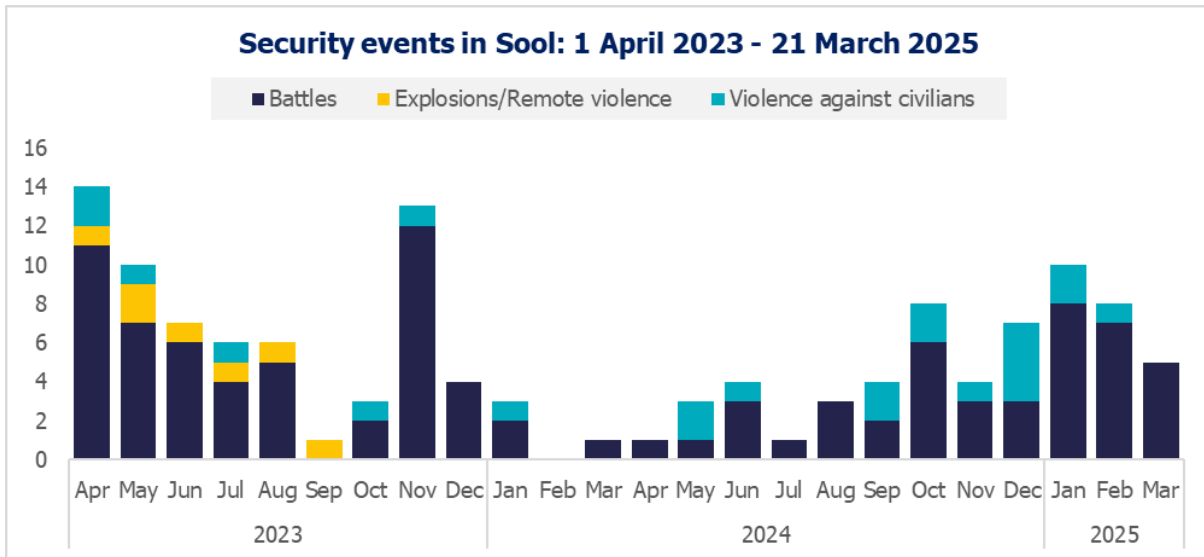

Figure 21. Evolution of ACLED security events coded 'battles', 'explosions/remote violence' and 'violence against civilians' between 1 April 2023 and 21 March 2025 in Sool.¹²⁶⁸

Military forces of Somaliland and Sool, Sanaag and Cayn Militia (SSC) were involved in 56 incidents resulting in 255 fatalities.

For incidents resulting in fatalities, including civilian deaths, please see below an illustrative and non-exhaustive list:

- on 11 July 2023, a health facility in Laas Canood was attacked, resulting in the killing and wounding of dozens of people, including health care workers and patients;¹²⁶⁹
- in August 2023, Jama Kadiye Elmi, an 81-year-old poet, was killed in Laas Caanood when artillery hit the car in which he was travelling;¹²⁷⁰
- in early November 2024, members of the Habar Je'lo and the Dhulbahante clans clashed near Shangeed and Qorilugud villages in Buhodle district.¹²⁷¹ There were concerns that the violence had 'claimed multiple lives';¹²⁷²
- on 7 March 2025, clashes involving Somaliland forces and SSC Khaatumo fighters broke out in Buq Dharkayn, resulting in an unspecified number of casualties.¹²⁷³

Conflict-related displacement

According to the UNHCR PRMN, 54 077 individuals were newly displaced from Sool region (including Buhoodle district) due to conflict or insecurity in the period from April 2023 to 16 March 2025. Among them, 48 294 IDPs were displaced within Sool region (including

¹²⁶⁸ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#). Please note that data covering the entire month of March 2025 was not yet available during the drafting of this report.

¹²⁷² Hiiraan Online, Heavy casualties as Somaliland, SSC-Khatumo forces clash in Ain area, 1 November 2024, [url](#)

¹²⁷³ Hiiraan Online, Somaliland and SSC Khaatumo forces clash in Buqdharkayn as territorial dispute escalates, 7 March 2025, [url](#)

Buhoodle), while 5 783 IDPs were displaced to other regions, including Bari, Nugal, Togdheer, and Woqooyi Galbeed. 36 118 were displaced within the region to Buhoodle district. In the same period, 4 633 individuals arrived from other regions, including Nugal, and Sanaag regions. Xudun was the district most affected by arrivals from other regions (2 392 individuals, all arriving from Ceerigaabo) during the reference period, while Laas Caanood was the district most affected by individuals leaving for other regions (3 072), including Bari, Nugal, Togdheer, and Woqooyi Galbeed.¹²⁷⁴ For information on conflict-related displacement prior to April 2023, please see section 2.4.1 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

According to UNHCR's Somalia Protection and Solutions Monitoring Network (PSMN) fighting in Buhoodle district in November 2024 resulted in the displacement of 26 550 individuals. The conflict caused widespread displacement, especially in areas such as 'Qorilugud, Shangeed, Gocondhaale, Maygaagle, Galgal, Harufadhi, Sooljoogto, Xadhadhan, and Shimbiraale'.¹²⁷⁵

Other impacts on civilian life

UNOCHA recorded 6 humanitarian access incidents in Sool region (excluding Buhoodle district) in the period from April to December 2023,¹²⁷⁶ and another 15 in 2024,¹²⁷⁷ including, for example, movement restrictions impeding humanitarian activities.¹²⁷⁸

In 2023, the Safeguarding Health in Conflict Coalition (SHCC) recorded 10 incidents of violence against or obstructing healthcare in Laas Caanood in the period between February and July 2023. Additionally, eight incidents were recorded in which explosive weapons damaged hospitals and injured health workers.¹²⁷⁹ Laas Caanood General Hospital was struck by mortars and artillery, resulting in damages and disruptions.¹²⁸⁰ Between 8 June and 5 October 2023, UNSOM recorded at least eight civilian casualties in Laas Caanood, including four killed and four injured. Six of the victims were medical staff.¹²⁸¹

In April 2023, AOV reported that hospitals, schools, and residential areas in Laas Caanood had repeatedly been shelled since the outbreak of heavy fighting in February 2023.¹²⁸² Also in April 2023, Amnesty International shared 'findings that Somaliland security forces indiscriminately shelled the town [of Laas Caanood], damaging hospitals, schools and mosques, killing and injuring civilians, and displacing tens of thousands of people'.¹²⁸³

2.7.2. Sanaag

(a) Background

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025,¹²⁸⁵ and [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023,¹²⁸⁶ Sanaag region is part of the areas disputed between Somaliland and Puntland. Sanaag shares internal borders with Sool region to the south, Togdheer and Woqoyi Galbeed regions to the west, and Bari region to the east. In the north it borders the Gulf of Aden. It is divided into three districts, Lasqoray, Ceerigaabo (also known as Erigabo or Erigavo) and Ceel Afweyn (also known as El Afweyne). Ceerigaabo is the capital of Sanaag.¹²⁸⁷

As of September 2024, sources variously estimated the population of Sanaag region at 428 699 (IPC),¹²⁸⁸ and 132 140 (IOM).¹²⁸⁹

Eastern Sanaag is primarily inhabited by the Warsangeli, a sub-clan of the Harti-Darod, while the Dhulbahante clan resides in some southern areas.¹²⁹⁰ The western part, including Ceerigaabo, is predominantly home to the Habar Yunis (also known as Habar Yoonis) sub-clan of the Isaaq.¹²⁹¹ Ceerigaabo is also home to members of Isaaq subclan Habar Je'lo (also known as Habar Jeclo), as well as the Harti subclans of Dhulbahante and Warsangeli.¹²⁹²

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

According to both the Report of the UN Panel of Experts and [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025, Al-Shabaab maintained a presence in the Cal Madow (Almadow) mountain range,¹²⁹³ which is consistent with the situation depicted in [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023.¹²⁹⁴

¹²⁹¹ EASO, Somalia – Security Situation, September 2021, [url](#), p. 137

¹²⁹² Somali Digest (The), Analysis: The risks of Colonel Arre's return to Somaliland, 23 October 2023, [url](#)

¹²⁹³ UNSC, Report of the Panel of Experts on Somalia pursuant to resolution 2713 (2023), S/2024/748, 28 October 2024, [url](#), para. 42; PolGeoNow, Somalia Approximate Territorial Control, as of 31 March 2025, n.a.

¹²⁹⁴ PolGeoNow, Somalia Approximate Territorial Control, as of 1 April 2023, n.a.

As of 31 March 2025, the western part of Sanaag region (including the towns of Ceerigaabo and El Afweyn) were controlled by the Somaliland administration, while the central part was under ‘mixed, unclear, and/or local control’, but also marked as ‘[e]stimated area of influence/presence’ of SSC-K. Lasqoray, Badhan and Dhahar towns were controlled by ‘Autonomous armed forces (unionist)’, as were parts of the eastern and southern areas.¹²⁹⁵

In contrast, as of 1 April 2023, the SSC-K’s influence was confined to a smaller area in the south. The central and eastern parts of Sanaag, including Dhahar, were largely marked as under mixed control, with no broader SSC-K presence indicated. Lasqoray and Badhan were already under the control of ‘autonomous armed forces’.¹²⁹⁶

Conflict dynamics

The conflict dynamics in Sanaag involve multiple actors and may be grouped as follows:

Dhulbahante vs Isaaq and Somaliland military forces. Dhulbahante in parts of Sanaag region do not support Somaliland’s independence.¹²⁹⁷ In August 2024, the long-standing conflict between the Dhulbahante and Isaaq sub-clans flared up again in Ceerigaabo and nearby Goof village,¹²⁹⁸ resulting in five deaths.¹²⁹⁹ Habar Yunis militias reportedly also ambushed vehicles carrying Dhulbahante civilians in Ceerigaabo.¹³⁰⁰ In December 2024, Somaliland security forces clashed with Dhulbahante clan members in Ceerigaabo, following a retaliatory killing in late November 2024. Fighting continued as Somaliland forces, backing the Habar Yunis clan, clashed with SSC-K militias. Tensions later shifted outside Ceerigaabo, with Dhulbahante fighters regrouping 20 to 30 km southwest of the city. In January 2025, Somaliland security forces had maintained control of Ceerigaabo, however Dhulbahante clan militias mobilised outside the city.¹³⁰¹

Warsengeli vs Isaaq. Besides land disputes within the Warsangeli clans, ‘there has been conflict between the Isaaq and Warsangeli over mining rights’.¹³⁰² In January 2025, Horn Observer reported that the Ceerigaabo conflict involved militias from the Warsangeli and Habar Je’lo clans, but had also involved SSC-K and Somaliland forces. That same month, tensions intensified after a declaration by the Warsangeli clan, which condemned the clashes in Ceerigaabo that had resulted in dozens of deaths and significant displacement since November 2024.¹³⁰³ By January 2025, Warsangeli clan militias had also mobilised outside the city.¹³⁰⁴

¹³⁰⁴ International Crisis Group, CrisisWatch – Somaliland: April 2023 – March 2025, n.d., [url](#)

Intra-Isaaq conflicts. Since 2015, an intra-Isaaq conflict in El Afweyn has periodically flared into violence between Habar Yunis and Habar Je'lo pastoralists over access to pasture and water.¹³⁰⁵ In August 2024, Somaliland security forces clashed with Habar Yunis sub-clan militias following the above mentioned earlier attacks by Habar Yunis on Dhulbahante civilians in Ceerigabo.¹³⁰⁶

Also, between late September and early October 2023 unspecified clan tensions were reported in Ceerigaabo, leading to minor skirmishes,¹³⁰⁷ while other clashes between rival clan militias were also reported in Ceerigaabo district in March 2025.¹³⁰⁸ According to an October 2023 article by the Somali Digest, unresolved land disputes dating back to the aftermath of the first civil war (from 1981 to 1991) remain a major source of conflict in Ceerigaabo.¹³⁰⁹

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported 58 security incidents in Sanaag region, including battles and violence against civilians, causing 121 fatalities. [Figure 22](#) below shows their evolution per type across the reference period. At district level, Ceerigaabo recorded the most security incidents (45 incidents), followed by Ceel Afweyn district (11 incidents) and Lasqoray district (2 incidents) between April 2023 and 21 March 2025.¹³¹⁰

Figure 22. Evolution of ACLED security events coded 'battles', 'explosions/remote violence' and 'violence against civilians' between 1 April 2023 and 21 March 2025 in Sanaag.¹³¹¹

¹³¹⁰ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#)

¹³¹¹ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#). Please note that data covering the entire month of March 2025 was not yet available during the drafting of this report.

ACLEED recorded 14 incidents involving both Habar Je'lo Clan (and Sub-Clan Militias) and Habar Yunis Clan (and Sub-Clan Militias) militias (coded as either 'Actor 1', 'Associated Actor 1', 'Actor 2', or 'Associated Actor 2'). ACLEED also recorded 11 incidents involving both Dhulbahante Clan (and Sub-Clan Militias) and Habar Yunis Clan (and Sub-clan militias). Both Sool, Sanaag and Cayn Militia (SSC) and Somaliland Forces were involved in 6 incidents.

For incidents involving civilian fatalities, please see below an illustrative and non-exhaustive list:

- violent clan disputes broke out in the Ceel Afweyn district¹³¹² between 25 August 2023 and 30 August 2023, resulting in 19 fatalities, including a six-year-old child, and 26 injuries;¹³¹³
- on 26 August 2024, a Dhulbahante clan militia member exchanged fire with Somaliland police while resisting arrest in Ceerigaabo, injuring two officers before being killed. The following day, clashes broke out in Goof village between a Dhulbahante sub-clan and the Habar Yunis sub-clan, to which the police officers belonged. This resulted in at least nine deaths, including a civilian businessman;¹³¹⁴
- on 10 March 2025, clan fighting in Dooxada Dureere area of Ceerigaabo district resulted in the killing of at least 12 people and the wounding of several others. The fighting affected 'both fighters and civilians nearby'.¹³¹⁵

Conflict-related displacement

According to the UNHCR PRMN, 22 608 individuals were newly displaced from Sanaag region due to conflict or insecurity in the period from April 2023 to 16 March 2025. Among them, 15 161 IDPs were displaced within Sanaag region, while 7 447 IDPs were displaced to other regions, including Bari, Nugal, Sool, Togdheer, Woqooyi Galbeed. In the same period, 662 individuals arrived from other regions, including Nugal and Togdheer region. Badhan was the district most affected by arrivals from outside the region (460 individuals) during the reference period, while Ceerigaabo was the district most affected by individuals leaving for other regions (6 938). In terms of displacement within Sanaag region, Ceel Afweyn, by a wide margin, was the district most affected by intra-regional IDP departures to other locations within Sanaag region, with 11 700 individuals arriving from other locations within Sanaag (all of whom were displaced within Ceel Afweyn district in August 2023).¹³¹⁶ For information on conflict-related displacement prior to April 2023, please see section 2.4.1 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

In December 2024, UN OCHA reported that violent clashes erupted in Ceerigaabo on 14 December 2024 and continued the next day. The fighting displaced around 43 000 people, many of whom sought refuge in safer areas within Ceerigaabo district. Others fled to different

parts of Sanaag, including Ceel Afweyn and Lasqoray, while some reportedly fled to Bossaso, Laas Caanood, Xuddun, and Burco districts.¹³¹⁷

Other impacts on civilian life

UNOCHA recorded 6 humanitarian access incidents in Sanaag region in the period from April to December 2023,¹³¹⁸ and another 6 in 2024.¹³¹⁹ In the period from January to March 2024, for example, ‘two individuals assaulted a local chief and police officer during a beneficiary registration over disagreements of inclusion/exclusion.’¹³²⁰

UNOCHA reported that the above-mentioned clashes in December 2024 left those displaced in urgent need of food, shelter, water, sanitation, and basic healthcare services. The fighting had completely disrupted humanitarian operations, business activities, and schooling.¹³²¹

2.7.3. Sool, Sanaag and SSC-Khatumo - Checkpoints and road security

In April 2023, the Dhulbahante committee in Laas Caanood announced that traffic between the Sool, Sanaag, and Cayn regions and Somaliland would be suspended, isolating Laas Caanood from the major port of Berbera and hindering traffic between Somaliland and Somalia.¹³²²

[Map 4](#) by IPIS shows non-al-Shabaab-controlled checkpoints in Caynabo, Guumeys, Tuulo Samakaab, Faleeryale, and Buuro Wadar in Sool region.¹³²³ However, checkpoints in the contested regions, notably as a consequence of the conflict in Las Anod, are likely to be many more than those shown on the map.¹³²⁴ For an overview on checkpoints at country level see section [1.7 Checkpoints and road security in Somalia](#).

2.8. Somaliland

2.8.1. Awdal

(a) Background

According to a UNOCHA Administrative Reference Map, Awdal region shares international borders with Djibouti and Ethiopia. It borders the Gulf of Aden to the north and the region of

¹³²⁴ Schouten P., Telephone interview, 13 March 2025

Wogoyi Galbeed to the east. It is divided into four districts: Zeylac, Lughaye, Baki and Borama. The region's capital is Borama.¹³²⁵

As of September 2024, sources variously estimated the population of Awdal region at 636 108 (IPC),¹³²⁶ and 303 218 (IOM).¹³²⁷ Awdal region is inhabited by members of the Gadabursi (Isaaq-Dir)¹³²⁸ and Issa clans.¹³²⁹ In the port town of Zeylac and throughout the Awdal region, the majority of the population is Gadabursi.¹³³⁰

For additional details on clans in Awdal region, please see section 2.7.1.1 of the [EASO COI Report Somalia: Security Situation](#) (September 2021) and section 2.8.1 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025 and [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023, Al-Shabaab did not control any territory in Awdal region. The entire region including the cities of Zeylac (Zeila), Lughaye, and Borama was reported to be under the control of the 'Somaliland administration (separatist)'.¹³³¹

Conflict dynamics

In May 2023, clashes between protesters and security forces were reported in different locations in Somaliland, including Borama city,¹³³² 'where local clan members have long complained about marginalisation.'¹³³³

At a conference in Ottawa, Canada, in September 2023, Gadabursi clan chiefs stated their desire for the Awdal region to secede from Somaliland.¹³³⁴ In a declaration all Awdal officers and troops who were currently serving in the Somaliland army were urged to leave to the front and return to Awdal 'in order to liberate it as soon as possible.'¹³³⁵ In October 2023, election-related tensions remained simmering, as Gadabursi clan leaders were trying to organise both

inside and outside of Somaliland.¹³³⁶ However, as of April 2025, no further information on this subject could be found. Please see section [2.8.3 Togdheer](#) on information regarding the Somaliland presidential elections in November 20 24.

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported six security incidents in Awdal region, including battles, explosions, or other forms of remote violence and violence against civilians, causing one fatality. [Figure 23](#) below shows their evolution per type across the reference period.¹³³⁷ At district level, Borama recorded three security incidents, followed by Baki district (two incidents) and Zeylac district (one incident).¹³³⁸

Figure 23. Evolution of ACLED security events coded 'battles', 'explosions/remote violence' and 'violence against civilians' between 1 April 2023 and 21 March 2025 in Awdal.¹³³⁹

Gadabursi (sub-) clan militias were involved in three incidents, while Police Forces of Somaliland were involved in two incidents. The one fatality was recorded in Zeylac district and involved the killing of an off-duty Somaliland police officer, the deputy commander of the Awdal coastal naval forces,¹³⁴⁰ by Somaliland police forces in Lawyacaddo village.¹³⁴¹

Conflict-related displacement

According to the UNHCR PRMN, eight individuals were newly displaced from Awdal region due to conflict or insecurity in the period from 1 April 2023 to 16 March 2025. All were displaced from Borama district to Garowe district, Nugal region in August 2023. In the same period, no individuals arrived from other regions or were displaced within the region.¹³⁴² For information on conflict-related displacement prior to April 2023, please see section 2.8.1 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

UNOCHA recorded no humanitarian access incidents¹³⁴³ in Awdal region in the period from April to December 2023.¹³⁴⁴ In 2024, two humanitarian access incidents were recorded.¹³⁴⁵

2.8.2. Wogoyi Galbeed

(a) Background

According to a UNOCHA Administrative Reference Map, Wogoyi Galbeed region shares an international border with Ethiopia, and it borders the Gulf of Aden. It shares internal borders with the regions of Awdal, Sanaag and Togdheer. It consists of three districts: Gebiley, Hargeysa and Berbera. The region's capital is Hargeysa.¹³⁴⁶ Hargeysa is also the capital of Somaliland.¹³⁴⁷ According to the new Somaliland Regions & Districts Self Management (Amendments and Additions) Law (Law No. 23/2019), taking effect on 4 January 2020,¹³⁴⁸ the Southern part of Wogoyi Galbeed region is named Maroodijeex (Marodijeh),¹³⁴⁹ while the Northern part is named Saaxil (Sahil) region.¹³⁵⁰ Law No. 23/2019 also lists Berbera as the capital of Saaxil region.¹³⁵¹

As of September 2024, sources variously estimated the population of Wogoyi Galbeed region at 1 447 484 (IPC),¹³⁵² and 1 022 984 (IOM).¹³⁵³ The Habar Awal, Habar Yunis, and Idagalle

¹³⁵³ IOM, DTM Somalia – Baseline Assessment Dataset – Round 3 (February 2024 – September 2024), 3 December 2024, [url](#). IOM notes that 'Regarding the regions in Somaliland state, DTM teams reached a low coverage of the

clans make up the majority of the population of Wogoyi Galbeed. There are various clans and sub-clans in Hargeysa, including minority groups as well as the Habar Awal, Habar Yunis, Habar Je'lo (Habar Jeclo), and Idagalle.¹³⁵⁴

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025 and [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023, Al-Shabaab did not control any territory in Wogoyi Galbeed region. The entire region, including the cities of Hargeysa and Berbera, was reported to be under the control of the 'Somaliland administration (separatist)'.¹³⁵⁵

Conflict dynamics

In August 2023, clashes between Somaliland forces and Gacaan Libaah militia were reported.¹³⁵⁶ In August 2024, one person was reportedly killed in election-related clashes between a clan militia 'allegedly upset with electoral proceedings' and security forces in Baligubadle town.¹³⁵⁷

Please see section [2.8.3\(b\) Actors' presence and conflict dynamics](#) on further information regarding the Gacaan Libaah militia.

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported 14 security incidents in Wogoyi Galbeed region, including battles, explosions, or other forms of remote violence and violence against civilians, causing 22 fatalities. [Figure 24](#) below shows their evolution per type across the reference period.¹³⁵⁸ At district level, Hargeysa recorded the most security incidents (12 incidents), followed by Gebiley and Berbera districts (1 incident each).¹³⁵⁹

Figure 24. Evolution of ACLED security events coded ‘battles’, ‘explosions/remote violence’ and ‘violence against civilians’ between 1 April 2023 and 21 March 2025 in Wogoyi Galbeed.¹³⁶⁰

For incidents resulting in fatalities, including civilian deaths, please see below an illustrative and non-exhaustive list:

- on 11 August 2023, 9 Somaliland soldiers were reportedly killed and 17 others injured in clashes between Somaliland forces and Gacaan Libaah militia in Saaxil region;¹³⁶¹
- in January 2024, a police officer and a civilian were killed by Ethiopian forces in Qoolbuulalle near the Somaliland-Ethiopia border.¹³⁶²

Conflict-related displacement

Between 1 April 2023 and 16 March 2025, seven individuals were newly displaced from Wogoyi Galbeed due to conflict or insecurity, according to the UNHCR PRMN. All were displaced within Hargeysa district in September 2023. In the same period, 507 individuals arrived from other regions, including Sanaag, Sool and Togdheer regions. All 507 individuals arrived in Hargeysa district (among them, 210 from Laas Caanood and 158 from Burco).¹³⁶³ For information on conflict-related displacement prior to April 2023, please see section 2.8.2 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

¹³⁶⁰ EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Somalia, data covering 1 April 2023 to 21 March 2025, as of 26 March 2025, [url](#). Please note that data covering the entire month of March 2025 was not yet available during the drafting of this report.

Other impacts on civilian life

UNOCHA recorded 12 humanitarian access incidents¹³⁶⁴ in Wogoyi Galbeed region in the period from April to December 2023,¹³⁶⁵ and another 19 in 2024.¹³⁶⁶

2.8.3. Togdheer

(a) Background

According to a UNOCHA Administrative Reference Map, Togdheer region shares an international border with Ethiopia. Internally, it borders the regions of Wogoyi Galbeed, Sool, and Sanaag. It consists of four districts: Sheikh, Owdweyne, Burco (or Burao) and Buhodle (or Buuhoodle). The region's capital is Burco (or Burao).¹³⁶⁷ Information related to Buhodle district is covered in section [2.7.1 Sool](#).

As of September 2024, sources variously estimated the population of Togdheer region at 860 684 (IPC),¹³⁶⁸ and 363 403 (IOM).¹³⁶⁹ Togdheer region is mainly inhabited by Habar Yunis and Habar Je'lo (also known as Habar Jeclo) clans. Along with other minority sub-clans considered to be a part of the Habar Yunis clan, members of the Idagalle are living in the region west of Burco.¹³⁷⁰ All three¹³⁷¹ political parties in Somaliland, Kulmiye, Waddani and Kaah, 'are headed by leaders from the Habar Jeclo' clan.¹³⁷² In the November 2024 Somaliland presidential elections, elders of the Habar Je'lo clan 'declared their endorsement of Waddani party's opposition candidate, Abdirahman Abdillahi Cirro',¹³⁷³ claiming that former president Muse Bihi Abdi supported his Habar Awal clan while in power. Prominent Habar Je'lo clan members also said they had been the ones most affected by the fighting in Sool (see section [2.7.1 Sool](#)) that broke out under Bihi's presidency.¹³⁷⁴ Abdirahman Mohamed Abdullahi ('Cirro')

¹³⁶⁴ The term is used by UNOCHA to describe events or actions that impede humanitarian operations, such as, for example, violence against humanitarian staff, the carjacking of humanitarian vehicles or restrictions on the movement of humanitarian staff or humanitarian supplies. is a member of the Habar Yunis clan¹³⁷⁵ and won the 13 November 2024 elections with 63.92 % of the vote.¹³⁷⁶

(b) Actors' presence and conflict dynamics

Al-Shabaab control areas, presence and influence, along with other actors

According to [Map 3](#) Somalia – Approximate Territorial Control as of 31 March 2025 and [Map 2](#) Somalia – Approximate Territorial Control as of 1 April 2023, Al-Shabaab did not control any territory in Togdheer region. The entire region, including the cities of Owdweyne and Burco, was reported to be under the control of the 'Somaliland administration (separatist)'.¹³⁷⁷ For information regarding control areas in Buhodle district please see section [2.7.1 Sool](#).

The Gacaan Libaah militia is associated with the Habar Yunis clan (Garhajis, Isaaq),¹³⁷⁸ and 'launched its insurgency' in July 2023. The group was based in based in the Ga'an Libaah mountain range.¹³⁷⁹ Another group, the 'so-called Jeegaan alliance' (also known as 'Baha lidoor' clan alliance or Jeegaanta Somaliland)¹³⁸⁰ is a coalition of Habar Je'lo and Habar Awal¹³⁸¹ (including members of the Isse Muse sub-clan of the Habar Awal) clans.¹³⁸² As of early September 2023, 'Go'da-Weyn, Libi Sagaalo, Haji Salah (Xaaji Saalax), Duruqsi, Hahi (Xaaxi), Biyo Fadhiisinka, Raydab Khaatumo, Go'da Yar, Warabeye (Waraabeeye), Dabagorayaale, Salahley (Sallaxley), Qalo'ato (Qaloocato), and other small settlements' were reportedly controlled by the Gacaan Libaah.¹³⁸³ In September 2023, Somaliland President Muse Bihi agreed to a settlement in a long-running election-related dispute and offered to pardon the Gacaan Libaah militia in exchange for disbanding. The group accepted the offer and demobilised.¹³⁸⁴ However, in June 2024, Bihi declared that members of the Gacaan Libaah movement who rebelled against the government in August 2023 would be placed on trial, contradicting the agreement.¹³⁸⁵

Conflict dynamics

In May 2023, the Somaliland Army responded to inter-clan clashes that erupted in villages near Burco, involving two Isaaq sub-clans,¹³⁸⁶ resulting in two deaths.¹³⁸⁷

¹³⁸⁷ International Crisis Group, CrisisWatch – Somaliland: April 2023 – March 2025, n.d., [url](#)

In July 2023, Somaliland forces clashed with the newly created Gacaan Libaah militia¹³⁸⁸ in Togdheer's Gacaan Libaah mountains.¹³⁸⁹

In August 2023, Somaliland security forces were ambushed in Godayar district, Togdheer region, by a 'newly-formed militia composed of members of Haber Yonis clan', resulting in the killing of nine Somaliland security force members¹³⁹⁰ and the wounding of seventeen others.¹³⁹¹ Please also see section [2.8.2 Wogoyi Galbeed](#) as this incident may have been mistakenly attributed to Togdheer region.

Between late September and early October 2023 clan tensions in Togdheer's capital, Burco, and Sanaag's capital, Erigabo, were reported, leading to minor skirmishes.¹³⁹² For example, on 19 September 2023, Habar Yunis clan members clashed with members of the Isse Muse clan, a sub-clan of Habar Awal, the clan former Somaliland President Muse Bihi belongs to.¹³⁹³

No more recent information on conflict dynamics in Togdheer could be found.

(c) Recent security trends

Security incidents, estimated civilian fatalities and casualties

Between 1 April 2023 and 21 March 2025, ACLED reported 21 security incidents in Togdheer region (without Buhodle district), including battles and violence against civilians, causing 17 fatalities. [Figure 25](#) below shows their evolution per type across the reference period.¹³⁹⁴ At district level, Burco recorded the most security incidents (13 incidents), followed by Owdweyne district (8 incidents).¹³⁹⁵

Figure 25. Evolution of ACLED security events coded ‘battles’, ‘explosions/remote violence’ and ‘violence against civilians’ between 1 April 2023 and 21 March 2025 in Togdheer.¹³⁹⁶

Conflict-related displacement

Between 1 April 2023 and 16 March 2025, 7 712 individuals were newly displaced from Togdheer (without Buhodle district) due to conflict or insecurity, according to the UNHCR PRMN. Of this group, 7 518 individuals were displaced within the same administrative region (without Buhodle), and of these 7 008 individuals were displaced within Burco. 194 individuals were displaced to other regions, including Sanaag and Wogoyi Galbeed. At district level, Burco recorded the highest number of individuals leaving for other regions (180). All 2 160 individuals arriving from other regions (including Buhodle) arrived in Burco district. 919 arrived from Caynabo district, with 840 of these arriving in September 2023.¹³⁹⁷ For information on conflict-related displacement in Togdheer region prior to April 2023, please see section 2.8.3 of the [EUAA COI Report Somalia: Security Situation](#) (February 2023).

Other impacts on civilian life

UNOCHA recorded six humanitarian access incidents in Togdheer region (including Buhodle district) in the period from April to December 2023,¹³⁹⁸ and another six in 2024.¹³⁹⁹ In the period between October and December 2024, for example, the region ‘experienced significant food aid looting, leading to the suspension of a UN-led operation in SSC-Khaatumo administered areas.’¹⁴⁰⁰

Annex 2: Terms of Reference

Security Situation

Reference period 1 April 2023 – 31 March 2025. The security situation will be addressed building upon, integrating and updating the 2023 EUAA report and query on the security situation in Somalia.

1. General description of the security situation in Somalia

- 1.1. Recent political and security developments (3 pp)
- 1.2. Armed actors (3 pp)
 - 1.2.1. Territorial control map
 - 1.2.2. Al-Shabaab control areas, presence, and influence
 - 1.2.3. Updated list of main actors building upon previous reports (2021, 2023)
 - 1.2.4. Other armed actors
- 1.3. Layers of conflict (2 pp)
- 1.4. Recent overall security trends (5 pp)
 - 1.4.1. Security incidents, estimated civilian fatalities and casualties
 - 1.4.2. Conflict-related displacement
 - 1.4.3. Other impacts on civilian life (e.g. infrastructure damage, evictions, access to health, access to food)
- 1.5. Criminality (2 pp)
- 1.6. Death penalty, arbitrary arrests and detentions, corporal punishments, prison conditions (2 pp)
- 1.7. Checkpoints and road security in Somalia (2 pp)

2. Regional security situation and trends

- 2.1. Jubbaland
 - 2.1.1. Gedo (3 pp)
 - 2.1.1.1. Background
 - 2.1.1.2. Actors' presence and conflict dynamics
 - 2.1.1.2.1. Al-Shabaab control areas, presence and influence, along with other actors
 - 2.1.1.2.2. Conflict dynamics
 - 2.1.1.3. Recent security trends
 - 2.1.1.3.1. Security incidents, estimated civilian fatalities and casualties
 - 2.1.1.3.2. Illustrative security incidents
 - 2.1.1.3.3. Conflict-related displacement
 - 2.1.1.3.4. Other impacts on civilian life (e.g. infrastructure damage, evictions, access to health, access to food)
 - 2.1.2. Middle Juba [same structure as for Gedo] (3 pp)
 - 2.1.3. Lower Juba [same...] (3 pp)
 - 2.1.4. Jubbaland - Checkpoints and road security (1 pp)

2.2. South-West State

- 2.3. Benadir and Mogadishu
- 2.4. Hirshabelle
- 2.5. Galmudug
- 2.6. Puntland
- 2.7. Sool, Sanaag and SSC-Khatumo
- 2.8. Somaliland

The same structure will apply to all (18) administrative regions of Somalia and to all federal member states, including Somaliland. The contested regions between Somaliland and Puntland - Sool and Sanaag, including SSC-Khatumo (newly established autonomous administration) - will be addressed in a separate section.
